NEW YORK TIMES BESTSELLER • From the stars of the Netflix series *Get Organized with The Home Edit* (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. “A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way.”—*Glamour* (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it’s not hard to do—in fact, it’s a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea’s signature approach to decluttering. *The Home Edit* walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don’t need another do-over in six months. When you’re done, you’ll not only know exactly where to find things, but you’ll also love the way it looks. A masterclass and look book in one, *The Home Edit* is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there’s nothing like a little ROYGBIV to soothe the soul). Above all, it’s like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).

This is a unique book on the use of the SmartClip self-ligating appliance system, written by an internationally-known authority on the subject. It guides the reader towards the achievement of the best possible results for the orthodontic patient through the use of this new system. *SmartClip Self-Ligating Appliance System: Concept and Biomechanics* will be ideal for orthodontists using the preadjusted conventional appliances, for those already using the SmartClip system and for those new to it. A practical and clearly illustrated introduction to a self-ligating appliance system which involves low force levels, sliding biomechanics and decreased friction. Clear description of a new bracket positioning system, based on the individual characteristics of each tooth, providing perfect functional occlusion at the end of treatment. Stress is laid on the importance of considering occlusion in treating orthodontic cases. Numerous case histories give detailed examples of the use of the system. Presentation of the advantages of the system - shorter patient chair time and overall treatment time, longer intervals between visits, less patient discomfort, better oral hygiene.

Introduced to the British Army in 1983, Challenger Main Battle Tanks have served operationally in the Balkans and both Gulf Wars, where their firepower, protection and shock action were instrumental to the success of British forces. In addition to the familiar gun tanks, the Challenger family encompasses the Rhino Armoured Repair and Recovery Vehicle (ARRV), highly modified Desert Challenger 2s operated by the Royal Army of Oman and the radical Falcon 2 being developed by the Jordanian Army. This book covers a wide range of these variants, with each chapter presenting a different build using colour photos to illustrate scratch-building, painting and weathering techniques across a variety of skill levels.

The Emily Post Institute, the most trusted brand in etiquette, tackles the latest issues regarding how we interact along with classic etiquette and manners advice in this updated and gorgeously packaged edition. Today's world is in a state of constant change. But one thing remains year after year: the necessity for good etiquette. This 19th edition of Emily Post's Etiquette offers insight and wisdom on a variety of new topics and fresh advice on classic conundrums, including: Social media Living with neighbors Networking and job seeking Office issues Sports and recreation Entertaining at home and celebrations Weddings Invitations Loss, grieving, and condolences Table manners While they offer useful information on the practical—from table settings and introductions to thank-you notes and condolences—the Posts make it clear why good etiquette matters. Etiquette is a sensitive awareness of the feelings of others, they remind us. Ultimately, being considerate, respectful, and honest is what's really important in building positive relationships. "Please" and "thank you" do go a long way, and whether it's a handshake, a hug, or a friend request, it's the underlying sincerity and good intentions behind any action that matter most.

In the past few years the market for electric guitar kits and parts has exploded. For every two enthusiasts, there are four opinions on how properly to fill woodgrain. In this book, Will Kelly cuts through all that noise and shows how, with a little patience and some inexpensive tools, the average person can turn a modest investment into a gig-worthy instrument and perhaps even a lifelong hobby. Kelly presents guitar-building in a progressive fashion, beginning with a simple Stratocaster-style kit with a bolt-on neck and continuing on to a "relic'd" Telecaster-style build, two Gibson-style set-neck models, and a custom double-neck mash-up. Because each build is more involved than the previous, the reader builds on his or her skill set and acquires only the tools necessary for the reader's level of interest. Kelly shows how to apply finishes, choose and install hardware, wire electronics, execute the final assembly, and set up the finished guitar for proper action and intonation.
