

A Peoples History Of The New Boston

Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, An Indigenous Peoples' History of the United States is an essential resource providing historical threads that are crucial for understanding the present. In An Indigenous Peoples' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. An Indigenous Peoples' History of the United States is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

An intersectional history of the shared struggle for African American and Latinx civil rights Spanning more than two hundred years, An African American and Latinx History of the United States is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as

International Workers' Day, when migrant laborers—Chicana/os, Afrocubanos, and immigrants from every continent on earth—united in resistance on the first “Day Without Immigrants.” As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of “America First” rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

In *Whats My Name, Fool?* sports writer Dave Zirin shows how sports express the worst - and at times the most creative, exciting, and political - features of our society. Zirins sharp and insightful commentary on the personalities, politics, and history of American sports is unlike any sports writing being done today. Zirin explores how NBA brawls highlight tensions beyond the arena, how the bold stances taken by sports unions can chart a path for the entire labor movement, and the unexplored political stirrings of a new generation of athletes who are no longer content to just "play one game at a time." *Whats My Name, Fool?* draws on original interviews with former heavyweight champ George Foreman, Olympic athlete John Carlos, NBA player and anti-death penalty activist Etan Thomas, antiwar womens college hoopster Toni Smith, Olympic Project for Human Rights leader Lee Evans and many others. It also unearths a history of athletes ranging from Jackie Robinson to Muhammad Ali to Billie Jean King, who charted a new course through their athletic ability and their outspoken views.

Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males' ill-gotten wealth Why Americans of the “Greatest Generation” were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders

advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past—and our future—you need this book.

Does Silicon Valley deserve all the credit for digital creativity and social media? Joy Rankin questions this triumphalism by revisiting a pre-PC time when schools were not the last stop for mature consumer technologies but flourishing sites of innovative collaboration—when users taught computers and visionaries dreamed of networked access for all.

A rich narrative history of the worldwide community of Hmong people, exploring their cultural practices, war and refugee camp experiences, and struggles and triumphs as citizens of new countries.

“The best single-volume history of the Revolution I have read.” —Howard Zinn Upon its initial publication, Ray Raphael's magisterial *A People's History of the American Revolution* was hailed by NPR's *Fresh Air* as “relentlessly aggressive and unsentimental.” With impeccable skill, Raphael presented a wide array of fascinating scholarship within a single volume, employing a bottom-up approach that has served as a revelation. *A People's History of the American Revolution* draws upon diaries, personal letters, and other Revolutionary-era treasures, weaving a thrilling “you are there” narrative—“a tapestry that uses individual experiences to illustrate the larger stories”. Raphael shifts the focus away from George Washington and Thomas Jefferson to the slaves they owned, the Indians they displaced, and the men and boys who did the fighting (*Los Angeles Times Book Review*). This “remarkable perspective on a familiar part of American history” helps us appreciate more fully the incredible diversity of the American Revolution (*Kirkus Reviews*). “Through letters, diaries, and other accounts, Raphael shows these individuals—white women and men of the farming and laboring classes, free and enslaved African Americans, Native Americans, loyalists, and religious pacifists—acting for or against the Revolution and enduring a war that compounded the difficulties of everyday life.” —*Library Journal* “A tour de force . . . Ray Raphael has probably altered the way in which future historians will see events.” —*The Sunday Times*

With a new introduction by Anthony Arnove, this updated edition of the classic national bestseller reviews the book's thirty-five year history and demonstrates once again why it is a significant contribution to a complete and balanced understanding of American history. Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History of the United States* is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans,

Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. *A People's History of Classics* explores the influence of the classical past on the lives of working-class people, whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy, in Britain and Ireland from the late 17th to the early 20th century. This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working-class culture was a 'Classics-Free Zone'. Making use of diverse sources of information, both published and unpublished, in archives, museums and libraries across the United Kingdom and Ireland, Hall and Stead examine the working-class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II. They analyse a huge volume of data, from individuals, groups, regions and activities, in a huge range of sources including memoirs, autobiographies, Trade Union collections, poetry, factory archives, artefacts and documents in regional museums. This allows a deeper understanding not only of the many examples of interaction with the Classics, but also what these cultural interactions signified to the working poor: from the promise of social advancement, to propaganda exploited by the elites, to covert and overt class war. *A People's History of Classics* offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland, and is a must-read not only for classicists, but also for students of British and Irish social, intellectual and political history in this period. Further, it brings new historical depth and perspectives to public debates around the future of classical education, and should be read by anyone with an interest in educational policy in Britain today.

The Abridged Teaching Edition of *A People's History of the United States* has made Howard Zinn's original text available specifically for classroom use. With exercises and teaching materials to accompany each chapter, this edition spans American Beginnings, Reconstruction, the Civil War and through to the present, with new chapters on the Clinton Presidency, the 2000 elections, and the "War on Terrorism."

We all know the history of science that we learned from grade school textbooks: How Galileo used his telescope to show that the earth was not the center of the universe; how Newton divined gravity from the falling apple; how Einstein unlocked the mysteries of time and space with a simple equation. This history is made up of long periods of ignorance

and confusion, punctuated once an age by a brilliant thinker who puts it all together. These few tower over the ordinary mass of people, and in the traditional account, it is to them that we owe science in its entirety. This belief is wrong. A People's History of Science shows how ordinary people participate in creating science and have done so throughout history. It documents how the development of science has affected ordinary people, and how ordinary people perceived that development. It would be wrong to claim that the formulation of quantum theory or the structure of DNA can be credited directly to artisans or peasants, but if modern science is likened to a skyscraper, then those twentieth-century triumphs are the sophisticated filigrees at its pinnacle that are supported by the massive foundation created by the rest of us.

Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history. Meanwhile, activists point to the city's cuts to public services, water shutoffs, mass foreclosures, and violent police raids. In *A People's History of Detroit*, Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present, embedding Motown's history in a global economic context. Attending to the struggle between corporate elites and radical working-class organizations, Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit's past, from the rise of Fordism and the formation of labor unions, to deindustrialization and the city's recent bankruptcy. They demonstrate that Detroit's history is not a tale of two cities—one of wealth and development and another racked by poverty and racial violence; rather it is the story of a single Detroit that operates according to capitalism's mandates.

“Does for the Civil War period what Howard Zinn’s *A People’s History of the United States* did for the study of American history in general.” —Library Journal Historian David Williams has written the first account of the American Civil War as viewed through the eyes of ordinary people—foot soldiers, slaves, women, prisoners of war, draft resisters, Native Americans, and others. Richly illustrated with little-known anecdotes and firsthand testimony, this path-breaking narrative moves beyond presidents and generals to tell a new and powerful story about America’s most destructive conflict. *A People’s History of the Civil War* is a “readable social history” that “sheds fascinating light” on this crucial period. In so doing, it recovers the long-overlooked perspectives and forgotten voices of one of the defining chapters of American history (Publishers Weekly). “Meticulously researched and persuasively argued.” —The Atlanta Journal-Constitution

The best way to learn history is to visualize it! Since 1998, Josh MacPhee has commissioned and produced over one hundred posters by over eighty artists that pay tribute to revolution, racial justice, women's rights, queer liberation, labor struggles, and creative activism and organizing. Celebrate People's History! presents these essential moments—acts of resistance and great events in an often hidden history of human and civil rights struggles—as a visual tour through

decades and across continents, from the perspective of some of the most interesting and socially engaged artists working today. Celebrate People's History includes artwork by Cristy Road, Swoon, Nicole Schulman, Christopher Cardinale, Sabrina Jones, Eric Drooker, Klutch, Carrie Moyer, Laura Whitehorn, Dan Berger, Ricardo Levins Morales, Chris Stain, and more.

History belongs to the people, Dean May reminds us, and must ultimately be accessible all. Based on his award-winning television series, *Utah: A People's History* provides a sweeping view of the state's past. From prehistory to present, May explains Utah as it is today and its promise for the future. The video series upon which this book is based is no longer available for sale.

In the eyes of Britain's heritage industry, London is the traditional home of empire, monarchy and power, an urban wonderland for the privileged, where the vast majority of Londoners feature only to applaud in the background. Yet, for nearly 2000 years, the city has been a breeding ground for radical ideas, home to thinkers, heretics and rebels from John Wycliffe to Karl Marx. It has been the site of sometimes violent clashes that changed the course of history: the Levellers' doomed struggle for liberty in the aftermath of the Civil War; the silk weavers, match girls and dockers who crusaded for workers' rights; and the Battle of Cable Street, where East Enders took on Oswald Mosley's Black Shirts. *A People's History of London* journeys to a city of pamphleteers, agitators, exiles and revolutionaries, where millions of people have struggled in obscurity to secure a better future.

This is a new edition of the radical social history of America from Columbus to the present. This powerful and controversial study turns orthodox American history upside down to portray the social turmoil behind the "march of progress". Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of - and in the words of - America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of America's greatest battles - the fights for fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality - were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through the Clinton years *A People's History of the United States*, which was nominated for the American Book Award in 1981, is an insightful analysis of the most important events in US history.

A glittering landscape of twenty-five speculative stories that challenge oppression and envision new futures for America—from N. K. Jemisin, Charles Yu, Jamie Ford, G. Willow Wilson, Charlie Jane Anders, Hugh Howey, and more. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY** In these tumultuous times, in our deeply divided country, many people are angry, frightened, and hurting. Knowing that imagining a brighter tomorrow has always been an act of resistance, editors Victor LaValle and John Joseph Adams invited an extraordinarily talented group of writers to share stories that explore new forms of

freedom, love, and justice. They asked for narratives that would challenge oppressive American myths, release us from the chokehold of our history, and give us new futures to believe in. They also asked that the stories be badass. The result is this spectacular collection of twenty-five tales that blend the dark and the light, the dystopian and the utopian. These tales are vivid with struggle and hardship—whether it's the othered and the terrorized, or dragonriders and covert commandos—but these characters don't flee, they fight. Thrilling, inspiring, and a sheer joy to read, *A People's Future of the United States* is a gift for anyone who believes in our power to dream a just world. Never before published, an extraordinarily inspiring and radical conversation between Howard Zinn and PBS/NPR journalist Ray Suarez, wherein American history is turned upside down—published to coincide with the tenth anniversary of Zinn's death *Truth Has a Power of Its Own* is an engrossing collection of never-before-published conversations with Howard Zinn, conducted by the distinguished broadcast journalist Ray Suarez in 2007, that covers the course of American history from Columbus to the War on Terror from the perspective of ordinary people—including slaves, workers, immigrants, women, and Native Americans. Viewed through the lens of Zinn's own life as a soldier, historian, and activist and using his paradigm-shifting *People's History of the United States* as a point of departure, these conversations explore the American Revolution, the Civil War, the labor battles of the nineteenth and twentieth centuries, U.S. imperialism from the Indian Wars to the War on Terrorism, World Wars I and II, the Cold War, and the fight for equality and immigrant rights, all from an unapologetically radical standpoint. Longtime admirers and a new generation of readers alike will be fascinated to learn about Zinn's thought processes, rationale, motivations, and approach to his now-iconic historical work. Suarez's probing questions and Zinn's humane (and often humorous) voice—along with his keen moral vision—shine through every one of these lively and thought-provoking conversations, showing that Zinn's work is as relevant as ever.

From its first pitch, baseball has reflected national values and promoted the idea of what it means to be American. Beloved narratives tied the national pastime to beliefs as fundamental to our civic life as racial equality, patriotism, heroism, and virtuous capitalism. Mitchell Nathanson calls foul. Rejecting the myths and much-told tales, he examines how power is as much a part of baseball--and America--as pine tar and eye black. Indeed, the struggles for power within the game paralleled those that defined our nation. Nathanson follows the new Americans who sought club ownership to promote their social status in the increasingly closed caste system of nineteenth-century America. He shows how the rise and public rebuke of the Players Association reflects the collective spirit of working and middle-class America in the mid-twentieth century and the countervailing forces that sought to beat back the emerging movement. He lays bare the debilitating effects of a harsh double standard that required African American

players to possess an unimpeachable character merely to take the field--a standard no white player had to meet. Told with passion and righteous outrage, *A People's History of Baseball* offers an incisive alternative history of America's much-loved--if misunderstood--national pastime.

This essential history of American higher education brings a fresh perspective to the field, challenging the accepted ways of thinking historically about colleges and universities. Organized thematically, this book builds from the ground up, shedding light on the full, diverse range of institutions—including small liberal arts schools, junior and community colleges, black and white women's colleges, black colleges, and state colleges—that have been instrumental in creating the higher education system we know today. *A People's History of American Higher Education* focuses on those participants who may not have been members of elite groups, yet who helped push elite institutions and the country as a whole. This pathbreaking textbook addresses key issues which have often been condemned to exceptions and footnotes—if not ignored completely—in historical considerations of U.S. higher education; particularly race, ethnicity, gender, and class. Hutcheson introduces readers to both social and intellectual history, providing invaluable perspectives and methodologies for graduate students and faculty members alike. *A People's History of American Higher Education* surveys the varied characteristics of the diverse populations constituting or striving for the middle class through educational attainment, providing a narrative that unites often divergent historical fields. The author engages readers in a powerful, revised understanding of what institutions and participants beyond the oft-cited elite groups have done for American higher education.

In *A People's History of the U.S. Military*, historian Michael A. Bellesiles draws from three centuries of soldiers' personal encounters with combat—through fascinating excerpts from letters, diaries, and memoirs, as well as audio recordings, film, and blogs—to capture the essence of the American military experience firsthand, from the American Revolution to the wars in Iraq and Afghanistan. Military service can shatter and give meaning to lives; it is rarely a neutral encounter, and has contributed to a rich outpouring of personal testimony from the men and women who have literally placed their lives on the line. The often dramatic and always richly textured first-person accounts collected in this book cover a wide range of perspectives, from ardent patriots to disillusioned cynics; barely literate farm boys to urbane college graduates; scions of founding families to recent immigrants, enthusiasts, and dissenters; women disguising themselves as men in order to serve their country to African Americans fighting for their freedom through military service. A work of great relevance and immediacy—as the nation grapples with the return of thousands of men and women from active military duty—*A People's History of the U.S. Military* will become a major new touchstone for our understanding of American military service.

A People's History of Scotland looks beyond the kings and queens, the battles and bloody defeats of the past. It captures the history that matters today, stories of freedom fighters, suffragettes, the workers of Red Clydeside, and the hardship and protest of the treacherous Thatcher era. With riveting storytelling, Chris Bambery recounts the struggles for nationhood. He charts the lives of Scots who changed the world, as well as those who fought for the cause of ordinary people at home, from the poets Robbie

Burns and Hugh MacDiarmid to campaigners such as John Maclean and Helen Crawford. This is a passionate cry for more than just independence but also for a nation based on social justice.

A bold new history of the French Revolution from the standpoint of the peasants, workers, women and sans culottes The assault on the Bastille, the Reign of Terror, Danton mocking his executioner, Robespierre dispensing a fearful justice, and the archetypal gadfly Marat—the events and figures of the French Revolution have exercised a hold on the historical imagination for more than 200 years. It has been a template for heroic insurrection and, to more conservative minds, a cautionary tale. In the hands of Eric Hazan, author of *The Invention of Paris*, the revolution becomes a rational and pure struggle for emancipation. In this new history, the first significant account of the French Revolution in over twenty years, Hazan maintains that it fundamentally changed the Western world—for the better. Looking at history from the bottom up, providing an account of working people and peasants, Hazan asks, how did they see their opportunities? What were they fighting for? What was the Terror and could it be justified? And how was the revolution stopped in its tracks? *The People's History of the French Revolution* is a vivid retelling of events, bringing them to life with a multitude of voices. Only in this way, by understanding the desires and demands of the lower classes, can the revolutionary bloodshed and the implacable will of a man such as Robespierre be truly understood.

Presents the history of the United States from the point of view of those who were exploited in the name of American progress.

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast

The top non-fiction bestseller of fall 2000 was the authoritative and beautiful *Canada: A People's History, Volume One*. For fall 2001, M&S is proud to present the equally stunning and comprehensive second volume of this landmark work. This fall, on consecutive Sunday evenings starting on September 30, the CBC will broadcast eight new episodes from its spectacular – and spectacularly successful – series *Canada: A People's History, Volume Two* opens with the rebellion over property and language rights for the French-speaking Métis in Manitoba, led by the charismatic and troubled Louis Riel – a key event in our history and one that haunts us to this day. It closes with the less bloody but no

less traumatic confrontation between the Mohawk and the army at Oka, Quebec, in 1990. Between these two harrowing events lie more than a hundred years of astonishing change and development in Canada. In those years Canadians have fought in two world wars, struggled through long, savage Depression years, adjusted to the post-war world, and peaceably accommodated themselves to wave after wave of immigrants arriving from around the globe. The political changes have been no less striking, with the eruption of nationalism in Quebec, women's long fight for equal rights, and the creation of Canadians' most cherished social service: universal health care. Even more than was possible in Volume One, this well-researched book tells the major events of the twentieth century as a story of people: the famous and occasionally flamboyant politicians and public figures are here, but the book's strength lies in the stories of ordinary people in extraordinary circumstances. The tremendous popularity and the impeccable historical accuracy of both the first year of the television series and the first volume of the book, surprised and delighted historians and reviewers alike. The second year of the series and the second volume of the book are both now poised to rocket to even greater success in 2001. From the Hardcover edition.

Presents a collection of lessons and activities for teaching American history for students in middle school and high school.

A Young People's History of the United States brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. A Young People's History of the United States is also a companion volume to *The People Speak*, the film adapted from *A People's History of the United States* and *Voices of a People's History of the United States*. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of *A Young People's History of the United States* presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our military generals.

"The language [takes] on a musicality that is in sharp contrast to the bleak setting . . . refreshing . . . a strong debut." —New York Times Book Review "Subramanian writes with empathy and exuberance, offering a much-needed glimpse into a world that too many of us don't even know exists. This is a book to give your little sister, your mother, your best friend, yourself, so together you can celebrate the strength of women and girls, the tenacity it takes to survive in a world that would rather have you disappear." —Nylon In the tight-knit community known as Heaven, a ramshackle slum hidden between luxury high-rises in Bangalore, India, five girls on the cusp of womanhood forge an unbreakable bond. Muslim, Christian, and Hindu; queer and straight; cis and trans; they are full of life, and they love and accept one another unconditionally, determined to transcend their surroundings. When the local government threatens to demolish their tin shacks in order to build a shopping mall, the girls and their mothers refuse to be erased. Together they wage war on the bulldozers sent to bury their homes, and, ultimately, on the city that wishes families like theirs would remain hidden forever. Elegant, poetic, and vibrant, *A People's History of Heaven* dazzles in its depiction of these fierce women—and their determination not just to survive, but to triumph.

Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in *Voices of a People's History of the United States*, edited by Howard Zinn and Anthony Arnove.

Paralleling the twenty-four chapters of Zinn's *A People's History of the United States*, *Voices of a People's History* is the

long-awaited companion volume to the national bestseller. For *Voices*, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. *Voices of a People's History* is a symphony of our nation's original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience.

In this monumental book, Chris Harman achieves the impossible—a gripping history of the planet from the perspective of the struggling people throughout the ages. From earliest human society to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the millennium, Chris Harman provides a brilliant and comprehensive history of the planet. Eschewing the standard histories of 'Great Men,' of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of 'history from below.' In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these changes. While many pundits see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history never ends. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical change.

A comprehensive history of the people and cases that have changed history, this is the definitive account of the nation's highest court. Recent changes in the Supreme Court have placed the venerable institution at the forefront of current affairs, making this comprehensive and engaging work as timely as ever. In the tradition of Howard Zinn's classic *A People's History of the United States*, Peter Irons chronicles the decisions that have influenced virtually every aspect of our society, from the debates over judicial power to controversial rulings in the past regarding slavery, racial segregation, and abortion, as well as more current cases about school prayer, the Bush/Gore election results, and "enemy combatants." To understand key issues facing the supreme court and the current battle for the court's ideological makeup, there is no better guide than Peter Irons. This revised and updated edition includes a foreword by Howard Zinn.

"A sophisticated narrative history of the Supreme Court . . . [Irons] breathes abundant life into old documents and reminds readers that today's fiercest arguments about rights are the continuation of the endless American conversation."

The original academic text is fully adapted by renowned curriculum experts Debbie Reese and Jean Mendoza, for middle-grade and young adult readers to include discussion topics, archival images, original maps, recommendations for further reading, and other materials to encourage students, teachers, and general readers to think critically about their own place in history.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.
