USAs historie indtil 1996

American Government: In the United States, the government gets its power to govern from the people. We have a government of the people, by the people, and for the people. Citizens in the United States shape their government and its policies, so they must learn about important public issues and get involved in their communities. Learning about American government helps you understand your rights and responsibilities and allows you to fully participate in the American political process. The Founders of this country decided that the United States should be a representative democracy. They wanted a nation ruled by laws, not by men. In a representative democracy, the people choose officials to make laws and represent their views and concerns in government. For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.
