Read Catherine Blyth's posts on the Penguin Blog. Reclaim the pleasures and possibilities of great conversation with this sparkling guide from the witty pen of an Englishwoman wise to its art Every day we use cell phones and computers to communicate, but it's easy to forget that we possess a communication technology that has been in research and development for thousands of years. Catherine Blyth points out the sorry state of disrepair that conversation has fallen into-and then, taking examples from history, literature, philosophy, anthropology, and popular culture, she gives us the tools to rebuild. The Art of Conversation isn't about etiquette, elocution, or knowing how to hold your teacup with your little finger crooked just so. It's about something simple and profound: connecting. Conversation costs nothing, but can bring you the world, because it transcends the ability to talk to anyone. What transforms encounters into adventures is how we listen, laugh, flirt, and flatter. Blyth celebrates techniques for reading and changing minds, whether you're in a bar or a boardroom. As Alexander Pope nearly wrote, "True ease in talking comes from art, not chance, as those move easiest who have learned to dance." When you have read The Art of Conversation, you'll not only know the steps, but hear the music like never before.

The desire to alter and adorn the human body is universal. While specific forms of body decoration, and the underlying motivations, vary according to region, culture, and era, all human societies have engaged in practices designed to augment and enhance their natural appearance. Tattooing, the process of inserting pigment into the skin to create permanent designs and patterns, appears on human mummies by 3200 BCE and was practiced by ancient cultures throughout the world. Ancient Ink, the first book dedicated to the archaeological study of tattooing, presents new research

from across the globe examining tattooed human remains, tattoo tools, and ancient art. It contributes to our understanding of the antiquity, durability, and significance of tattooing and human body decoration and illuminates how different societies have used their skin to construct their identities. Ancient Ink connects ancient body art traditions to modern culture through Indigenous communities and the work of contemporary tattoo artists.

Spanning several centuries, book one of Fire & Clay, pulls you into the unseen world of mankind's distant cousins, the jinn. Like humans, these beings were given the gift of free will. And like us there are a few that choose the way of good, some that choose the way of evil, and many that live their lives torn between the two. But what happens when the lives of creatures cast from smokeless fire, and those shaped from the clay of the Earth become intertwined? The story told here takes readers on a journey of mystery, imagination, and magic to search for the answers. It plunges into the depths of jealousy, fear, and greed-as well as violence, sorrow, and loss. But it also scales the heights of love and faith, hope and deliverance. This story may be fictional, but it is true. Its truths are about what it means to be human, what it means to have the power to choose. Fire & Clay is no mere fairytale. What we can see, touch, and taste is only a narrow sliver of reality. There is a war being fought all around us, even within us. And sooner than we might think, our final battle is coming.

- Tools to enhance your intuition, including oracle cards and dowsing, so that you can make decisions quickly and comfortably.
- Understanding the ancient use of the word "medicine".

The grandson of slaves, born into poverty in 1892 in the Deep South, A. G. Gaston died more than a century later with a fortune worth well over \$130 million and a business empire spanning communications, real estate, and insurance. Gaston was, by any measure, a heroic figure whose wealth and influence bore comparison to J. P. Morgan and Andrew Carnegie. Here, for the first time, is the story of the life of this extraordinary pioneer, told by his niece and grandniece, the award-winning television journalist Carol Jenkins and her daughter Elizabeth Gardner Hines. Born at a time when the bitter legacy of slavery and Reconstruction still poisoned the lives of black Americans, Gaston was determined to make a difference for himself and his people. His first job, after serving in the celebrated all-black regiment during World War I, bound him to the near-slavery of an Alabama coal mine—but even here Gaston saw not only hope but opportunity. He launched a business selling lunches to fellow miners, soon established a rudimentary bank—and from then on there was no stopping him. A kind of black Horatio Alger, Gaston let a single, powerful question be his guide: What do our people need now? His success flowed from an uncanny genius for knowing the answer. Combining rich family lore with a deep knowledge of American social and economic history, Carol Jenkins and Elizabeth Hines unfold Gaston's success story against the backdrop of a century of crushing racial hatred and bigotry. Gaston not only survived the hardships of being black during the Depression, he flourished, and by the 1950s he was ruling a Birmingham-based business empire. When the movement for civil rights swept through the South in the late 1950s and early 1960s, Gaston provided critical financial support to many activists. At the time of his death in 1996, A. G. Gaston was one of the wealthiest black men in America, if not the wealthiest. But his legacy extended far beyond the monetary. He was a man who had proved it was possible to overcome staggering odds and make a place for himself as a leader, a captain of industry, and a far-sighted philanthropist. Writing with grace and power, Jenkins and Hines bring their distinguished ancestor fully to life in the pages of this book. Black Titan is the story of a man who created his own future—and in the process, blazed a future for all black businesspeople in America.
