Biopolymers found in marine animals and plants offer tremendous, largely untapped pharmaceutical potential. Research shows that these biopolymers can be used to combat various infectious as well as inflammatory, oxidative, and carcinogenic factors. Chitin, Chitosan, Oligosaccharides and Their Derivatives: Biological Activities and Applications cove

A special edition of the book Science Without Borders is dedicated to the most important problem of modern civilization at present - the fight against a pandemic of COVID-19. The authors of this issue offer their concept of reducing the risks of coronavirus infection and mortality from it before the advent of the vaccine. Based on the analysis of long-term clinical and laboratory tests of the drug "AZEOMED", the authors give convincing arguments in support of the possibility of effective use of the drug "AZEOMED" in the process of prevention and treatment of COVID-19. Clinical and laboratory studies of the mineral composition "AZEOMED" were coordinated and funded by the International Scientific and Technical Complex "Intergeo-Tethys". The book contains data on analogues of the drug AZEOMED produced in different countries.

A delightful visual compendium and very nearly a substitute for good common sense, How To is the silly and seriously useful guide to mastering the miscellany of modern life. Packed in this chunky little volume are hundreds of instructional diagrams, culled from vintage how-to books, manuals, and product packaging, illustrating how to do anything you'll ever need to do—and many things you won't. With a bare minimum of text and just a few action arrows, these hard-working graphics are here to help. Learn how to use chopsticks, breakdance, tie a trash bag, diaper a baby, and parallel park. Discover the right way to do a cartwheel, use dental floss, hammer a nail, and slice bread. And if you've ever wondered whether you were walking correctly, wonder no more. With chapters to help you navigate the daily concerns of manners and grooming, home and family, health and safety, sports and exercise, and science and the world at large, this pocket-sized primer is the only book you'll ever really need. Honest. The Exemplary Society examines traditional and modern Chinese beliefs about education, discipline, and social control. It describes the Chinese attitudes towards criminality, sex, youth culture, and other 'disorders' of the modernization process. The resulting quest for social control through an exemplary educative and disciplinary society is analysed in this pathbreaking study.

Learn the Secret to Success on the Cosmetology Course and Exams! Ever wonder why learning comes so easily to some people? This remarkable workbook reveals a system that shows you how to learn faster, easier and without frustration. By mastering the hidden language of the subject and exams, you will be poised to tackle the toughest of questions with ease. We've discovered that the key to success on the Cosmetology Course and Exams lies with mastering the Insider's Language of the subject. People who score high on their exams have a strong working vocabulary in the subject tested. They know how to decode the vocabulary of the subject and use this as a model for test success. People with a strong Insider's Language consistently: Perform better on their Exams Learn faster and retain more information Feel more confident in their courses Perform better in upper level courses Gain more satisfaction in learning The Cosmetology Vocabulary Workbook is different from traditional review books because it focuses on the exam's Insider's Language. It is an outstanding supplement to a traditional review program. It helps your preparation for the exam become easier and more efficient. The strategies, puzzles, and questions give you enough exposure to the Insider Language to use it with confidence and make it part of your long-term memory. The Cosmetology Course and Exams Vocabulary Workbook is

an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

Since 1938, the Milady Standard Cosmetology has been the premier textbook for Cosmetology education. Each subsequent edition has evolved with the changing styles of the era while maintaining a firm foundation in the basic procedures and applications of beauty culture that have endured for generations. Building upon the strong pedagogical features of previous editions, the Milady Standard Cosmetology 2012 is vibrant and colorful to capture the visual learner's interest and focus their attention on the subject matter which is the cornerstone of their education. The Milady Standard Cosmetology 2012 textbook takes advantage of the most sophisticated methods for relaying information, stimulating thought, aiding comprehension, and enhancing retention. This new edition contains a completely revised section on infection control principles and practices, new procedures, and revised and updated chapters written by industry experts, as well as step-by-step procedures demonstrated specifically for left-handed individuals. Educators and students have access to over twenty instructor tools and student supplements which greatly increase the chances for student success and make lesson planning simple. Each supplement has been tailored to fit the exact needs of the cosmetology student and match the changes made to the new edition. The Milady Standard Cosmetology 2012 is the basis for your students' success during their education and will continue to be a valuable resource as they progress through their careers. Milady has evolved for over 85 years to become what it is today, the cornerstone of beauty and wellness education. We are very excited and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For decades since our first textbook published, it has been our commitment to provide students with the foundation in the principles and skills needed to master the science and art of cosmetology, and with this latest version that commitment has not waived. For the new edition, celebrity stylist Ted Gibson served as Creative Director on the project. The result is a brilliant new design with over 750 new photos and a gorgeous layout, providing a visually stunning resource to engage today's learner. We also recruited a team of twelve authors, made up of top professionals and educators in the industry, to provide the most current information on concepts and techniques. During our extensive peer review and development process, we were asked for a resource that placed emphasis on essential content needed for licensure success, and we feel confident that we delivered. Milady Standard Cosmetology will continue to be a source of education that students can count on, not only while in school, but throughout their careers. Non-invasive bioengineering techniques have become indispensable tools both in the development of drugs and cosmetics and in clinical dermatology. These techniques enable researchers to study the structure and function of human skin objectively and quantitatively. Recent technological developments have brought new techniques into the laboratory and the hospital, among them magnetic resonance imaging, optical coherence tomography and microdialysis. This book describes these state-of-the-art developments, details the application of skin bioengineering techniques for clinical purposes, shows their use in the testing of pharmaceuticals and cosmetics and provides an overview of the design and legal aspects of skin bioengineering testing. It will be essential reading for dermatologists, cosmetologists, pharmacologists and toxicologists.

In the completely updated versions of this classic and indispensable reference source, Dr. Rieger and an international team of experts in different fields discuss the latest developments in cosmetic chemistry and its industrial applications.

Discusses a variety of careers in cosmetology, the necessary education, potential salaries, and benefits.

Today we find the applications of nanotechnology in all spheres of life. Nanotechnology: Therapeutic, Nutraceutical and Cosmetic Advances discusses recent advances in the field, particularly with therapeutics, nutraceuticals and cosmetic sciences. Therapeutics is an area which has perhaps benefitted the most, although nanoscience and technology have quietly entered the realms of food science and are playing pivotal roles in the efficient utilization of nutraceuticals. Finally, even before therapeutics came cosmetics and companies started marketing unique products embedding the beneficial and advanced properties enabled by the use of nanostructures. This book highlights trends and applications of this wonderful new technology.

Organized on a product category basis, this volume provides an up-to-date review of the cosmetics and toiletries industry in a readily digestible form. Authors discuss the rationale of raw materials selection, the formulation and development of products that meet the demands of an international market place, product performances, and safety and quality aspects.

This text examines the concept of cosmetology and developments in surgical and clinical techniques in cosmetic skin care.
