A fearless young woman from a small African village starts a revolution against an American oil company in this sweeping, inspiring novel from the New York Times bestselling author of *Behold the Dreamers*. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ESQUIRE •** “Mbue reaches for the moon and, by the novel’s end, has it firmly held in her hand.”—NPR We should have known the end was near. So begins Imbolo Mbue’s powerful second novel, *How Beautiful We Were*. Set in the fictional African village of Kosawa, it tells of a people living in fear amid environmental degradation wrought by an American oil company. Pipeline spills have rendered farmlands infertile. Children are dying from drinking toxic water. Promises of cleanup and financial reparations to the villagers are made—and ignored. The country’s government, led by a brazen dictator, exists to serve its own interests. Left with few choices, the people of Kosawa decide to fight back. Their struggle will last for decades and come at a steep price. Told from the perspective of a generation of children and the family of a girl named Thula who grows up to become a revolutionary, *How Beautiful We Were* is a masterful exploration of what happens when the reckless drive for profit, coupled with the ghost of colonialism, comes up against one community’s determination to hold on to its ancestral land and a young woman’s willingness to sacrifice everything for the sake of her people’s freedom.

This edited collection offers multi-disciplinary reflections and analysis on a variety of themes centred on nineteenth century executions in the UK, many specifically related to the fundamental change in capital punishment culture as the execution moved from the public arena to behind the prison wall. By examining a period of dramatic change in punishment practice, this collection of essays provides a fresh historical perspective on nineteenth century execution culture, with a focus on Scotland, Wales and the regions of England. *From Public Spectacle to Hidden Ritual* has two parts. Part 1 addresses the criminal body and the witnessing of executions in the nineteenth century, including studies of the execution crowd and executioners' memoirs, as well as reflections on the experience of narratives around capital punishment in museums in the present day. Part 2 explores the treatment of the execution experience in the print media, from the nineteenth and into the twentieth century. The collection draws together contributions from the fields of Heritage and Museum Studies, History, Law, Legal History and Literary Studies, to shed new light on execution culture in nineteenth century Britain. This volume will be of interest to students and academics in the fields of criminology, heritage and museum studies, history, law, legal history, medical humanities and socio-legal studies.

Novelist, columnist, cultural critic, political theorist-- Isabel Paterson was one of the most extraordinary personalities of the 1930s, renowned for her incisive wit and her unique interpretation of the American experience. *The Woman and the Dynamo* is the first biography of a woman who has long been a source of rumor and legend. From

interviews, private papers, and her millions of published words, Stephen Cox weaves a narrative that brings Paterson vividly to life. A radical individualist in both theory and practice, Paterson spent her early life on the Western frontier, "lavished" two years on formal education, set a record for high-altitude flight, became a journalist by "accident," and made herself a fearless chronicler and conscience of New York literary life. At the same time, she made a permanent contribution to American political thought. Paterson identified the fundamental issues at stake in the crises of the twentieth century and responded with an original theory of history and political economy. In her view, the individual mind is the dynamo of history, working through the "long circuit" of institutions that maintain and enhance individual liberty; and America is the place where the advanced forms of those institutions were invented and are currently undergoing their severest trial. While other intellectuals derided the American ideal of progress and called for the restraint or abolition of the capitalist system, Paterson demanded a scrupulous application of the "engineering principles" on which American civilization had been built. *The Woman and the Dynamo* provides one of the few broad and detailed accounts of the origins of the American political Right, emphasizing the special role that women and imaginative writers played in its creation, and posing new questions about what it means to be "left" or "right," "liberal" or "conservative" in America. This will be compelling reading for those interested in twentieth century intellectual history, literature, and politics.
