What is the role of preaching in the "double feast" churches -- churches whose normative liturgical worship features rites at the two tables of the Word and of the Eucharist? Father Michael Monshau adds timely and critical new perspective to the issue by bringing together five significant voices from "double feast" churches whose presentations, in effect, become varied, short textbooks on how to preach.

This book focuses on the most common areas for improvement in teaching, learning and assessment that are regularly identified in lesson observations, including beginning and ending lessons, differentiation, assessment for learning, giving feedback and effective questioning. Many of the observations about these key topics are not fully understood by teachers, who remain unclear about what they can do to improve. Specifically written for use within vocational contexts, Sharrock helps you to fully understand these common areas for improvement, unpicks what good and poor practice might look like, and provides practical activities and strategies for you to use and adapt in your teaching. It therefore addresses the strong government drive to improve standards and the need to help FE colleges and other post-16 providers achieve this aim.

Help students appreciate texts and write about them with conviction. Responding to a comprehension question is a surprisingly complex task. It draws on multiple skills: students must be able to read and analyze a text passage; consider what aspect of the text the question addresses; and then quickly and concisely write about their ideas, citing evidence to support them. Hence the prominence of constructed-response questions in standardized testing. In this refreshingly clear and upbeat guide, literacy consultant Nancy Boyles gives a step-by-step demonstration of how to help students achieve success with this task—and in the process of unpacking the steps involved, demonstrates how the instruction can inspire teachers' creativity as well as deepen students' literacy skills. Filled with ready-to-use scaffolds for every stage of instruction—sets of sample questions, anchor charts, cue cards, answer frames—this is a one-stop resource for teaching students how to organize their thoughts about what they've read, and then set them down in writing.

A wealth of imaginative learning projects that will help students build literacy knowledge and skills as they explore literary genres and themes.

With growing academic responsibilities, family commitments, and inboxes, scholars are struggling to fulfill their writing goals. A finished book—or even steady journal articles—may seem like an impossible dream. But, as Joli Jensen proves, it really is possible to write happily and productively in academe. Jensen begins by busting the myth that universities are supportive writing environments. She points out that academia, an arena dedicated to scholarship, offers pressures that actually prevent scholarly writing. She shows how to acknowledge these less-than-ideal conditions, and how to keep these circumstances from draining writing time and energy. Jensen introduces tools and techniques that encourage frequent, low-stress writing. She points out common ways writers stall and offers workarounds that maintain productivity. Her focus is not on content, but on how to overcome whatever stands in the way of academic writing. *Write No Matter What* draws on popular and scholarly insights into the writing process and stems from Jensen's experience designing and directing a faculty writing program. With more than three decades as an academic writer, Jensen knows what really helps and hinders the scholarly writing process for scholars in the humanities, social sciences, and sciences. Cut down the academic sword of Damocles, Jensen advises. Learn how to write often and effectively, without pressure or shame. With her encouragement, writers of all levels will find ways to create the writing support they need and deserve.

The Mountain and the Fathers explores the life of boys and men in the unforgiving, harsh world north of the Bull Mountains of eastern Montana in a drought afflicted area called the Big Dry, a land that chews up old and young alike. Joe Wilkins was born into this world, raised by a young mother and elderly grandfather following the untimely death of his father. That early loss stretches out across the Big Dry, and Wilkins uses his own story and those of the young boys and men growing up around him to examine the violence, confusion, and rural poverty found in this distinctly American landscape. Ultimately, these lives put forth a new examination of myth and manhood in the American West and cast a journalistic eye on how young men seek to transcend their surroundings in the search for a better life. Rather than dwell on grief or ruin, Wilkins' memoir posits that it is our stories that sustain us, and The Mountain and the Fathers, much like the work of Norman Maclean or Jim Harrison, heralds the arrival of an instant literary classic.

For readers of My Absolute Darling and Fourth of July Creek, a "riveting and timely" Montana story about the unbreakable bond between a young man and the abandoned boy put in his care (Jess Walter), as old grievances of land and blood are visited upon them. Wendell Newman, a young ranch hand in Montana, has recently lost his mother, leaving him an orphan. His bank account holds less than a hundred dollars, and he owes back taxes on what remains of the land his parents owned, as well as money for the surgeries that failed to save his mother's life. An unexpected deliverance arrives in the form of seven-year-old Rowdy Burns, the mute and traumatized son of Wendell's incarcerated cousin. When Rowdy is put under his care, what begins as an ordeal for

Wendell turns into a powerful bond, as he comes to love the boy more than he ever thought possible. That bond will be stretched to the breaking point during the first legal wolf hunt in Montana in more than thirty years, when a murder ignites a desperate chase. Caught on the wrong side of a disaffected fringe group, Wendell is determined both to protect Rowdy and to avoid the same violent fate that claimed his own father. A gripping story set in a fractured and misunderstood community, *Fall Back Down When I Die* is a haunting and unforgettable tale of sacrificial love. Finalist for the Center for Fiction First Novel Prize

Completely revised and updated in a second edition, this volume represents the only book ever written that analyzes sports writing and presents it as "exceptional" writing. Other books discuss sports writers as "beat reporters" in one area of journalism, whereas this book shows aspiring sports writers a myriad of techniques to make their writing stand out. It takes the reader through the entire process of sports writing: observation, interviewing techniques, and various structures of articles; types of "leads;" transitions within an article; types of endings; use of statistics; do's and don'ts of sports writing; and many other style and technique points. This text provides over 100 examples of leads drawn from newspapers and magazines throughout the country, and also offers up-to-date examples of sports jargon from virtually every major and minor sport played in the U.S.

Preachings most able practitioners gather in this book to explore and explain the idea that preaching is a practice that can be taught and learned. Arguing that preaching is a living practice with a long tradition, an identifiable shape, and a broad set of norms and desired outcomes, these noted scholars propose that teachers initiate students into the

larger practice of preaching, in ways somewhat like other students are initiated into the practice of medicine or law. The book concludes with designs for a basic preaching course and addresses the question of how preaching courses fit into the larger patterns of seminary curricula.

Music Outside the Lines is an informative and practical resource for all who are invested in making music composition an integral part of curriculum. Author Maud Hickey offers both a well-grounded justification for teaching music composition and also a compendium of useful instructional ideas and classroom activities. Hickey begins with a rationale for teachers to begin composition activities in their own classrooms, with a thoughtful argument that demonstrates that all music teachers possess the skills and training needed to take children along the path toward composing satisfying musical compositions even if they themselves have never taken formal composition lessons. She also addresses some of the stickier issues that affect teaching music composition in schools such as assessment, notation, and technology. Most importantly, she introduces a curricular model for teaching composition, a model which provides an array of composition activities to try in both the music classrooms and studio. These activities encourage musical and creative growth through music composition; while they are organized in logical units corresponding to well-known teaching modules, they also offer jumping off points for music teachers to exercise their own creative thinking and create music composition activities that are customized to their classes and needs. As a whole, Music Outside the Lines both successfully reasons that music composition should be at the core of school music curriculum and also provides inservice and preservice educators with an essential resource and compendium of practical tips and plans for fulfilling this goal.
