Revealing glimpses of the Philippine Revolution and the Filipino writer Jose Rizal emerge despite the worst efforts of feuding academics in Apostol's hilariously erudite novel, which won the Philippine National Book Award. Gina Apostol's riotous second novel takes the form of a memoir by one Raymundo Mata, a half-blind bookworm and revolutionary, tracing his childhood, his education in Manila, his love affairs, and his discovery of writer and fellow revolutionary, Jose Rizal. Mata's 19th-century story is complicated by present-day foreword(s), afterword(s), and footnotes from three fiercely quarrelsome and comic voices: a nationalist editor, a neo-Freudian psychoanalyst critic, and a translator, Mimi C. Magsalin. In telling the contested and fragmentary story of Mata, Apostol finds new ways to depict the violence of the Spanish colonial era, and to reimagine the nation's great writer, Jose Rizal, who was executed by the Spanish for his revolutionary activities, and is considered by many to be the father of Philippine independence. *The Revolution According to Raymundo Mata* offers an intoxicating blend of fact and fiction, uncovering lost histories while building dazzling, anarchic modes of narrative.

The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? In spite of the rich repertoire of artistic traditions in Southern Africa, particularly in the areas of drama, theatre and performance, there seems to be a lack of a corresponding robust academic engagement with these subjects. While it can be said that some of the racial groups in the region have received substantial attention in terms of scholarly discussions of their drama and theatre performances, the same cannot be said of the black African racial group. As such, this collection of thirteen chapters represents a compendium of critical and intellectual discourses on black African drama, theatre and performance in Botswana, Lesotho, South Africa, and Swaziland. The topics covered in the book include, amongst others, ritual practices, interventionist approaches to drama, textual analyses, and the funeral rites (viewed as performance) of the South African liberation icon Nelson Mandela. The discussions are rooted mainly using African paradigms that are relevant to the context of African cultural production. The contributions here add to the aggregate knowledge economy of Southern Africa, promote research and publication, and provide reading materials for university students specialising in the performing arts. As such, the book will appeal to academics, theatre scholars, cultural workers and arts administrators, arts practitioners and entrepreneurs, the tourism industry, arts educators, and development communication experts.

A side from her Pulitzer Prize-winning talent as a novel writer, Edith Wharton also distinguished herself as a short story writer, publishing more than seventy-two stories in ten volumes during her lifetime. The best of her short fiction is collected here in *Roman Fever and Other Stories*. From her picture of erotic love and illegitimacy in the title story to her exploration of the aftermath of divorce detailed in "Souls Belated" and "The Last Asset," Wharton shows her usual skill "in dissecting the elements of emotional subtleties, moral ambiguities, and the implications of social restrictions," as Cynthia Griffin Wolff writes in her introduction. *Roman Fever and Other Stories* is a surprisingly contemporary volume of stories by one of our most enduring writers.

Three brothers and their relations in 19th century Russia provide the base for a sweeping epic overview of human striving, folly and hope. First published in 1880, *The Brothers Karamazov* is a landmark work in every respect. Revolving around shiftless father Fyodor Pavlovich Karamazov are the fates of his three sons, each of whom has fortunes entwined with the others. The eldest son, Dimitri, seeks an inheritance from his father and becomes his rival in love. Ivan, the second son, is so at odds with the world that he is driven near to madness, while the youngest, Alexi, is a man of faith and a natural optimist. These personalities are drawn out and tested in a crucible of conflict and emotion as the author forces upon them fundamental questions of morality, faith, reason and responsibility. This charged situation is pushed to its limit by the addition of the unthinkable, murder and possible patricide. Using shifting viewpoints and delving into the minds of his characters, Dostoevsky adopted fresh techniques to tell his wide-reaching story with power and startling effectiveness. *The Brothers Karamazov* remains one of the most respected and celebrated novels in all literature and continues to reward readers beyond expectation. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Brothers Karamazov* is both modern and readable.

Saki. Years of rivalry and feuding between the von Gradwitzes and the Znaeysms seemingly come to an end when the two heads of the families find themselves in a life-or-death situation. Unfortunately, their reconcillation comes too late. 40 pages. Tale Bla This collection of essays explores the significance of modern chaos theory as a new paradigm in literary studies and argues for the usefulness of borrowings from one discipline to another. Its thesis is that external reality is real and is not merely a social construct. On the other hand, this volume reflects the belief that literature, as a social and cultural construct, is not unrelated to that external reality. The authors represented here furthermore believe that learning to communicate across disciplinary divides is worth the risk of looking silly to purists and dogmatists. In applying a contemporary scientific grid to a by-gone era, the authors play out Steven Weinberg's exhortation to mind the clues to the past that cannot be obtained in any other way. It is of course necessary to get the science right, yet the essays in this collection do not seek to do science, but rather to suggest that science and literature often share common assumptions and realities. Thus there is no attempt to legitimize literary study through the adoption of a scientific approach. Interaction between the disciplines requires mutual respect and a willingness to investigate the broader

implications of scientific research. Consequently, this volume will be of interest to students and scholars of the long eighteenth century whether the focus is on England (Locke, Milton, Radcliffe, Lewis), France (Crébillon, Diderot, Marivaux, Montesquieu) or Germany (Kant, Moritz, Goethe, Fr. Schlegel). Moreover, given its multiple thrust in employing mythological, philosophical, and scientific notions of chaos, this volume will appeal to historians and philosophers of the European Enlightenment as well as to literary historians. The volume ultimately aspires to promote communication across centuries and across disciplines.

Ursula K. Le Guin's *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian/dystopian political thought and literature and of science fiction. Published in 1974, it marked a revival of utopianism after decades of dystopian writing. According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia, which Tom Moylan calls a 'critical utopia.' The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian/dystopian literature and science fiction. It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics. Le Guin's concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature. It also claims that her theory of the novel has an affinity with the ancient Greek tragedy. This implies that there is a conservatism in Le Guin's work as a creative writer, or as a novelist, which fits uneasily with her personal commitment to anarchism.

William Golding's unforgettable classic of boyhood adventure and the savagery of humanity comes to Penguin Classics in a stunning Graphic Deluxe Edition with a new foreword by Lois Lowry. As provocative today as when it was first published in 1954, *Lord of the Flies* continues to ignite passionate debate with its startling, brutal portrait of human nature. But above all, it has earned its place as one of the indisputable classics of the twentieth century for readers of any age. This Penguin Classics Graphic Deluxe Edition features an array of special features to supplement the novel, including a foreword by Lois Lowry, an introduction by Stephen King, an essay by E. M. Forster, an essay on teaching and reading the novel and suggestions for further exploration by scholar Jennifer Buehler, and an extended note by E. L. What does it mean to be a westerner? With all the mythology that has grown up about the American West, is it even possible to describe "how it was, how it is, here, in the West--just that," in the words of Lynn Stegner? Starting with that challenge, Stegner and Russell Rowland invited several dozen members of the western literary tribe to write about living in the West and being a western writer in particular. *West of 98* gathers sixty-six literary testimonies, in essays and poetry, from a stellar collection of writers who represent every state west of the 98th parallel--a kind of Greek chorus of the most prominent voices in western literature today, who seek to "characterize the West as each of us grew to know it, and, equally important, the West that is still becoming." In *West of 98*, western writers speak to the ways in which the West imprints itself on the people who live there, as well as how the people of the West create the personality of the region. The writers explore the western landscape--how it has been revered and abused across centuries--and the inescapable limitations its aridity puts on all dreams of conquest and development. They dismantle the boosterism of manifest destiny and the cowboy and mountain man ethos of every-man-for-himself, and show instead how we must create new narratives of cooperation if we are to survive in this spare and beautiful country. The writers seek to define the essence of both actual and metaphoric wilderness as they journey toward a West that might honestly be called home. A collective declaration not of our independence but of our interdependence with the land and with each other, *West of 98* opens up a whole new panorama of the western experience.

In 1990, Lithuania was the first of fifteen Soviet Republics to proclaim its independence from the USSR and, in doing so, dealt a fatal blow to this superpower. Overnight, this small country, whose very existence had been erased from the world map for 50 years, became Post-Soviet and proclaimed its return to a multicultural Europe. So, what happened then in the lives of Lithuanians? How did they survive the collapse of a planned economy and the crisis of values? How does Lithuania, together with the other Baltic countries, which had once been the most prosperous Republics in the USSR, come to terms with the fact that they are now among the poorest member nations in another transnational configuration -- the European Union? These issues are actively addressed in the works of contemporary Lithuanian writers, whose texts are analyzed in the collection of articles, *Transitions of Lithuanian Postmodernism: Lithuanian Literature in the Post-Soviet Period*. Utilizing various perspectives, leading Lithuanian literary scholars discuss identity transformations and the discourse of reinterpretations of the past in contemporary Lithuanian prose, poetry, essay writing, and memoir. This book reveals both existentially universal dramas and specific experiences that arise from this unique double-post (Post-Soviet and postmodern) condition.

What is Literature? challenges anyone who writes as if literature could be extricated from history or society. But Sartre does more than indict. He offers a definitive statement about the phenomenology of reading, and he goes on to provide a dashing example of how to write a history of literature that takes ideology and institutions into account.

In the summer of 2015, shortly after Caitlyn Jenner came out as transgender, the NAACP official and political activist Rachel Dolezal was "outed" by her parents as white, touching off a heated debate in the media about the fluidity of gender and race. If Jenner could legitimately identify as a woman, could Dolezal legitimately identify as black? Taking the controversial pairing of "transgender" and "transracial" as his starting point, Rogers Brubaker shows how gender and race, long understood as stable, inborn, and unambiguous, have in the past few decades opened up—in different ways and to different degrees—to the forces of change and choice. Transgender identities have moved from the margins to the mainstream with dizzying speed, and ethnoracial boundaries have blurred. Paradoxically, while sex has a much deeper biological basis than race, choosing or changing one's sex or gender is more widely accepted than choosing or changing one's race. Yet while few accepted Dolezal's claim to be black, racial identities are becoming more fluid as ancestry—increasingly understood as mixed—loses its authority over identity, and as race and ethnicity, like gender, come to be understood as something we do, not just something we have. By rethinking race and ethnicity through the multifaceted lens of the transgender experience—encompassing not just a movement from one category to another but positions between and beyond existing categories—Brubaker underscores the malleability, contingency, and arbitrariness of racial categories. At a critical time when gender and race are being reimagined and reconstructed, Trans explores fruitful new paths for thinking about identity.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand

racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.
