This book is concerned with the structure of linear semigroups, that is, subsemigroups of the multiplicative semigroup $M_n(K)$ of $n \times n$ matrices over a field K (or, more generally, skew linear semigroups — if K is allowed to be a division ring) and its applications to certain problems on associative algebras, semigroups and linear representations. It is motivated by several recent developments in the area of linear semigroups and their applications. It summarizes the state of knowledge in this area, presenting the results for the first time in a unified form. The book's point of departure is a structure theorem, which allows the use of powerful techniques of linear groups. Certain aspects of a combinatorial nature, connections with the theory of linear representations and applications to various problems on associative algebras are also discussed.

history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, *The Lonely City* is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

In this postmodern age, women preachers are finding their "voice" a distinctive way of proclamation. This book looks at the metaphor of voice, how women are moving to voice from silence, and how individuals can make themselves heard by those who don't want to hear.

Any Latter-day Saint who has ever defended his or her beliefs has likely addressed issues first raised by Eber D. Howe in 1834. Howe's famous exposé was the first of its kind, with information woven together from previous news articles and some thirty affidavits he and others collected. He lived and worked in Painesville, Ohio, where, in 1829, he had published about Joseph Smith's discovery of a "golden bible." Smith's decision to relocate in nearby Kirtland sparked Howe's attention. Of even more concern was that Howe's wife and other family members had joined the Mormon faith. Howe immediately began investigating the new Church and formed a coalition of like-minded reporters and detractors. By 1834,

Howe had collected a large body of investigative material, including affidavits from Smith's former neighbors in New York and from Smith's father-in-law in Pennsylvania. Howe learned about Smith's early interest in pirate gold and use of a seer stone in treasure seeking and heard theories from Smith's friends, followers, and family members about the Book of Mormon's origin. Indulging in literary criticism, Howe joked that Smith, "evidently a man of learning," was a student of "barrenness of style and expression." Despite its critical tone, Howe's exposé is valued by historians for its primary source material and account of the growth of Mormonism in northeastern Ohio.

The newly revised edition of this groundbreaking textbook provides a comprehensive overview of the theory, research, and applications of nonverbal communication. Authored by three of the foremost scholars in the field and drawing on multidisciplinary research from communication studies, psychology, linguistics, and family studies, *Nonverbal Communication* speaks to today's students with modern examples that illustrate nonverbal communication in their lived experiences. This book explores the biblical interpretation of the Ethiopian Orthodox Tewahido Church (EOTC). In doing so, it

illuminates the interpretation of the Bible in a particular historical and cultural context and presents a compelling example of the contextual nature of biblical interpretation.

Those who visit Ethiopia experience its unique spirituality, which is significantly informed by the presence of the EOTC.

The EOTC has existed from earliest years of the Christian church. It has also developed and maintained its own

ecclesiastic tradition in the Ethiopian context and has its own distinctive way of reading the Bible. It is noteworthy,

particularly in the African context, that it has its own

commentaries on the Scriptures, which continue to serve as a vital tradition in the EOTC's interpretation of the Bible. This is

evident in the contemporary hermeneutics and sermons of EOTC preachers. In its comprehensive consideration of the

EOTC's past and present, this book examines the interplay between tradition and context in biblical interpretation and

contributes to current biblical scholarship.

On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? Turkey is a longstanding ally of the United States and Europe. After the demise of the Soviet empire, Turkey's strategic importance has changed but not diminished. Today Turkey is facing a completely different foreign and security policy environment. However, Turkey is also undergoing extraordinary internal change. Many established political truths of the Republic's seventy-five-year-long tradition are increasingly questioned by a growing part of its people. Above all, there is the rise of political Islam and the ensuing clash of ideologies between "secularists" and "Islamists" as well as the debate about Turkey's "Kurdish reality." Turkey's allies will have to respond to this development by adapting their policies. Nothing less than a re-evaluation and, eventually, a re-orientation in relations with both the United States and Europe is required if Turkey is to remain anchored in the West. This book undertakes a comprehensive overview and analysis of Turkey's internal and external changes and provides elements of a new European and American policy toward a key strategic partner.

"This book, the first of its kind, is a historical, social, cultural and linguistic study of Indonesian. It traces the origins and pre-colonial development of the language, the emergence of Classical Malay from the fourteenth century, the choice of Malay by the nationalist movement as the national language prior to independence, the planning associated with the adoption and implementation of the language, its borrowings from other language, its use in contemporary Indonesia and its future. The book challenges many assumptions about Indonesian, particularly countering the myth that Indonesian is a simple language."--BOOK JACKET.

to the earliest humans--of the biological functions that make human speech possible. BAKER & TAYLOR In *Conversational Preaching*, we are given an in-depth investigation into how humans communicate and how understanding interpersonal communications skills can be of considerable value for those called to preach God's word. "Dr. Sowards has made rather elegant use of the model of interpersonal communication as a device to explore preaching and communicating with congregants." – Dr. Dalton Kehoe, Senior Scholar, Communication Studies, York University, Toronto, Canada "Sowards' book advances the idea of conversational preaching beyond the merely metaphorical by applying practical insights from Interpersonal Communications Theory to the act of sermon crafting." – The Rev. Dr. Micah Jackson, Ph.D., Bishop John Elbridge Hines Associate Professor of Preaching and Director of Comprehensive Wellness, Seminary of the Southwest, in Austin, Texas This book is for preachers and students of preaching who want to become better preachers and communicators. I have explored the theories of interpersonal communication and shown how preachers can benefit from such knowledge. I described the concept of noise as an impediment to communications and explored the topic with regard to politics, beliefs about the poor, past religious experiences and having an underdeveloped faith. I examined the concept of feedback and how effective feedback can be fodder for future sermons. In *Distant Corners*, his follow-up to *Soccer in a Football World*, David Wangerin details several of the people, places, and events that shaped American soccer history. Despite its struggle for popular acceptance, soccer in the United States has a rich history. Wangerin profiles Tom Cahill, the almost-forgotten "father of American soccer," and writes passionately about the 1979 North American Soccer League season, the high-water mark of the game in the twentieth century. Wangerin shows how the American appetite for soccer has ebbed and grown over the years, chronicling the game at the college and professional levels and describing the city of St. Louis's unique historic attachment to the sport. Wangerin believes that the time is ripe for American fans to look into their own history and recognize the surprisingly deep connection their country has to soccer.

The Fortress Commentary on the New Testament presents a balanced synthesis of current scholarship. The contributors bring a rich diversity of perspectives to the task of connecting solid historical critical analysis of Scripture with sensitivity to theological, cultural, and interpretive issues arising in our encounter with the text. The volume includes introductory articles, section introductions, and individual book articles that explore key sense units through three lenses: The Text in Its Ancient Context; The Text in the Interpretive Tradition; and The Text in Contemporary Discussion. Comprehensive and useful for preaching, teaching, and research.

think, maybe. Maybe he can make up for their past. Maybe he can build on what they share now. And maybe they can have that future he's always wanted. One of numerous texts that were removed from the Bible. This piece was traditionally attributed to Enoch. These Parables are part of the tradition of Apocalyptic Literature, and come to us as the Voice of God. Margaret Meuse Clay, who barely escaped a public whipping in the 1760s for preaching without a license; "Old Elizabeth," an ex-slave who courageously traveled to the South to preach against slavery in the early nineteenth century; Harriet Livermore, who spoke in front of Congress four times between 1827 and 1844--these are just a few of the extraordinary women profiled in this, the first comprehensive history of female preaching in early America. Drawing on a wide range of sources, Catherine Brekus examines the lives of more than a hundred female preachers--both white and African American--who crisscrossed the country between 1740 and 1845. Outspoken, visionary, and sometimes contentious, these women stepped into the pulpit long before twentieth-century battles over female ordination began. They were charismatic, popular preachers, who spoke to hundreds and even thousands of people at camp and revival meetings, and yet with but a few notable exceptions--such as Sojourner Truth--these women have essentially vanished from our history. Recovering their stories, Brekus shows, forces us to rethink many of our common assumptions about eighteenth- and nineteenth-century American culture. Ingenuity introduces a theology and practice of

preaching that emerges from the faith and wisdom of black women. Preaching has been resourced and taught from a narrow field of cultural or gendered experiences, historically. Without much support from established channels, black women are left to “figure it out” on their own, and others discern how to preach from a limiting scope. The best preachers understand their own voices and the voices of others. They stretch and grow, and this enables them to preach more effectively. Ingenuity equips readers to negotiate tradition, life experiences, and theological conviction in the creative work that makes way for sacred speech. With *Ingenuity*, Lisa Thompson offers deep insights for anyone seeking to enlarge their understanding, their language, and their sense of lived experiences, and offers practical help through “In Practice” segments for those who preach. “Written from the deep well of the spirituality of Black women, Thompson has given us a remarkable guide for what preaching should be and must be for the times we are in. Accessible, thoughtful, probing, pastoral, prophetic—all come together in this text. A must read for anyone committed to faithful excellence in proclaiming the word.” -Emilie M. Townes, Dean and E. This is a newly revised edition of one of the standard introductory preaching textbooks on the market today. Beginning with a solid theological basis, veteran preacher and best-selling author Thomas G. Long offers a practical, step-by-step guide to writing a sermon. Long centers his approach around the biblical concept of

witness. To be a preacher, Long posits, is to be a witness to God's work in the worldone who sees before speaking, one whose task is to "tell the truth, the whole truth, and nothing but the truth about what is seen." This updated edition freshens up language and anecdotes, contains an extensive new analysis of the use of multimedia and its impact on preaching, and adds a completely new chapter on plagiarism in preaching. Included for the first time are four complete sermons, with Long's commentary and analysis. The sermons were written and originally preached by Barbara Brown Taylor, Cleophus J. LaRue. Ginger Gaines-Cirelli, and Edmund Steimle. With this third edition, *The Witness of Preaching* reaffirms itself as the essential resource for seminary students as well as new and experienced preachers.
