Book Praise & Reviews ""As a how-to guide, this book contains everything you may need to know to turn your passions into profits."" Bill Bartmann (Billionaire entrepreneur, author, speaker, educator) **Read & Give Program** A portion of the sale of this book is donated to charity. **Book Description** Are you unhappy in your job? Are you tired of living paycheck to paycheck and feel like you just don't have enough money, skills, or education to turn your life around? Even if you're not sure you know what it is you like to do, you can change your life and get rich doing it, says entrepreneur Duane Harden in his wise and entertaining new book, *5 Easy Steps to Financial Freedom: Do What You Love & Get Rich Doing It*. Turning your passion into a profitable business is easy, fast, and fun, says Harden, and you can become rich in just five easy steps. First, start by saying yes to financial freedom. Attitude is everything and as the Law of Attraction states, what you put out into the universe is often what you attract. If you imagine yourself financially secure and happy, you will be. Imagining a new life for yourself is the inspiration you need to go out and do the concrete things to turn your dreams into a reality. Conversationally written and filled with humorous drawings, helpful worksheets, and key tips, *5 Easy Steps to Financial Freedom* also offers a 90-day action plan that includes blueprints for success that Harden himself used to build his wealth. His own journey included the purchase of numerous real-estate properties, opening a restaurant, starting a music company, and much more. Harden gives you "Life Assignments" that get you thinking and acting differently. Beware of what he calls the "crabs in a pot" mentality, where everyone is trying to pull everyone else down in order to struggle to the top. Instead, he advises, think positively. Stay away from the naysayers and feed your dream. Soon you will realize that your inner life is reflected in your outer life. Harden helps you to discover the real you, what you want, and how much money you want to be there for you now and in the future. He explains how the real difference between rich people and poor people is fear and an unwillingness to keep an open mind to new opportunities. Rich people are not afraid to take risks, and well-planned risks almost always pay off. Success, he reminds you, is your birthright and it's your job to claim it. Review your credit and your financial house. Clean up the clutter in your life, whether it is the wrong way of

thinking or a messy desk. Discover what really makes you tick because when you love what you do it's never really work, and when passion is present the money will miraculously follow. Keep daily positive reminders taped where you can see them, or even have a vision board filled with photographs of where you want to be in life. Write your resignation letter to your boss, but don't send it yet. Just the act of writing it puts you in the right frame of mind for moving on to something much better. "You are what you think and will become what you dream," says Harden. You'll learn to be a PIG (passive income generator) Farmer, which requires little work but makes you tons of money. 5 Easy Steps to Financial Freedom shows you how go from rags to riches and is understandable and easy to read. This invaluable guide will change your life!

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read *Financial Freedom* three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. *Financial Freedom* is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to:

- * Create profitable side hustles that you can turn into passive income streams or full-time businesses
- * Save money without giving up what makes you happy
- * Negotiate more out of your employer than you thought possible
- * Travel the world for less
- * Live for free--or better yet, make money on your living situation
- * Create a simple, money-making portfolio that only needs minor adjustments
- * Think creatively--there are so many ways to make money, but we don't see them.

But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. *Financial Freedom* is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

So, why is it that some individuals can shine in any sphere they choose to give themselves to, and others just cannot manage even a glimmer of success, despite their definite talents? It seems unfair, really. But, in truth, research shows us that it's actually the way that individuals think about their potential and skills that really counts most. In fact, historically speaking, many of those who have achieved real greatness have worked extremely hard to get to their end goals. And, it's also true that many were told that they would never amount to anything at all, by friends, colleagues, family and/or peers. The difference was that they believed that they could achieve their goals and worked extremely diligently to do so. Walt Disney who created Disneyland in the USA is a prime example of an individual who never gave up on his dreams. His belief in himself (and others) was profound and inspirational, to say the least. Of course, we'd all like to know the "magical" secret to success,

but the real reality is that there are actually so many different factors that must be taken into account, to what makes one a truly successful human being. It's definitely true that hard work and dedication are so important in reaching success. But there's more to success than just plugging away, day after day.
