

Grade 10 Life Orientation June Exam Papers

In this second volume of her memoir, Dorinda Vollmer continues her life story following her departure from the Roseau River Indian Reserve in southern Manitoba in June, 1981. Settling in Ontario, she established her ministry in small rural towns first in Grand Valley and Monticello and then in New Liskeard, Warsaw, Millbrook and Orono United Churches. Sometimes she found herself mired in conflict and controversy because of her progressive and inclusive views of society. Using compassion and persistence, she fought to build her role as a community leader and, in the process, learned a great deal about how we handle ourselves when we are frustrated and angry. This is the story of one woman's lifelong dedication to faith, justice and humanity. It is also the story of those strong and balanced people around her who continue to live their faith and help to lift us all up and support others---in whatever form their worship takes. It is a reminder to all to be more careful, kinder and more respectful of others, especially those who have no voice. These are stories that can translate into any life situation, whether at work, at school, at home or in our social encounters. It is a story about reconciliation and transformation when we bring out the best in ourselves and in others.

Scoring another goal for gender equality, the 2019 Southern African Development Community (SADC) Gender Protocol Barometer breaks with past tradition in focusing solely on Sexual and Reproductive Health and Rights. Measuring 100 indicators across seven themes, the Barometer is the first civil society shadow report on SADC's new SRHR Strategy Score Card, ranking countries based on their performance, while offering detailed analysis and insights into what is changing and still needs to change. The no-hold-barred #VoiceandChoice Barometer features the first stand-alone chapters on Adolescent Sexual and Reproductive Health and Rights, Safe Abortion, and Sexual Diversity. It provides the data that underpins 40 national campaigns led the focal networks of the Southern African Gender Protocol Alliance, and 174 local campaigns led by the Centres of Excellence for Gender in Local Government. A must read for all those committed to Action and Results for Agenda 2030 in the SADC region.

The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, its updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017, the Ministers adopted a Monitoring, Evaluation and Reporting Framework (MERF) that will be the basis of future reporting. Now in its ninth edition, the 2017 Barometer is the first assessment of the Post-2015 SADC Gender Protocol. Moving with the times, the Alliance has expanded the two key main yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators, as well as its own unique measures of voice, choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data, insights and analysis awaits all readers of the Barometer, that will also be made available online and in multi-media formats. The "SADC we want" is one in which citizens engage; step it up for gender equality, and make sure we achieve Planet 50/50 by 2030!

Citizenship is high on the agenda of education systems in many of the world's democracies. As yet, however, discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship. International Perspectives on Citizenship, Education and Religious Diversity brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions. Together, these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education. The chapters address and extend debates over the nature of citizenship in late modernity, highlighting local and global dimensions of citizenship in relation to issues of national, religious, ethnic and cultural identity. As well as emphasising the role religious education has to play in citizenship education, this book also covers wider issues such as state-supported faith schools and cultural diversity in relation to common citizenship. The authors argue that critical, yet reflective, approaches to religious education have a distinctive and valuable contribution to make to citizenship education. Issues addressed within the study of religions are related to new forms of global and cultural citizenship, as well as citizenship within the nation state. Ultimately, this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion, religions and religious diversity within an inclusive educational practice.
