Professor Pippy P. (Pee-Pee) Poopypants is a brilliant scientist, but his ridiculous name means no one takes his fantastic inventions seriously. And now he's on the rampage! He's armed with fiendish inventions Shrinky-Pig 2000 and the terrible Gerbil Jogger 2000. Can Captain Underpants stop him?

My Art Book is a superb introduction for young children to the history and techniques of art. It is a beautiful and inspiring art book that will be loved by children, and their parents! Full of project ideas to fire the imaginations of children, including mosaics inspired by Diego Rivera, figure sculptures inspired by Henry Moore, and aboriginal dreamtime art. Each art project idea is introduced with spreads about a particular masterpiece or artistic style of famous artists and sculptors throughout history. These Artist and Art-style spreads inform the reader about the artists' inspirations, and zooms up close to look at the details in the work or explains the story or subject matter the artists' have chosen. My Art Book covers a range of artistic styles, skills, and subjects such as impressionist scenes, watercolor landscapes, and pastel portraits.

Children can experiment with art materials from making their own colors just like those used for cave art to creating a large land art sculpture from natural materials. Other projects explore the ideas of abstract art, such as drawing music like Kandinsky or conveying emotion through color

"Space does not exist," the Swiss sculptor Alberto Giacometti (1901-1966) wrote in 1949. "It has to be created... Every sculpture made on the assumption that space exists is wrong, there is only the illusion of space." This fascinating statement serves as a conceptual underpinning for Hatje Cantz's new appraisal of the artist's mature work. Giacometti's emaciated sculptures have long been seen as symbols of a newly anxious, frail humanity. But more recently, attention has come to focus on the relevance of his work for contemporary considerations of space and time. *Alberto Giacometti: The Origin of Space* supplies a comprehensive overview of the later works of this lastingly influential artist, presenting 200 color images of sculptures, paintings and drawings.

The new edition of an introduction to computer programming within the context of the visual arts, using the open-source programming language Processing; thoroughly updated throughout. The visual arts are rapidly changing as media moves into the web, mobile devices, and architecture. When designers and artists learn the basics of writing software, they develop a new form of literacy that enables them to create new media for the present, and to imagine future media that are beyond the capacities of current software tools. This book introduces this new literacy by teaching computer programming within the context

of the visual arts. It offers a comprehensive reference and text for Processing (www.processing.org), an open-source programming language that can be used by students, artists, designers, architects, researchers, and anyone who wants to program images, animation, and interactivity. Written by Processing's cofounders, the book offers a definitive reference for students and professionals. Tutorial chapters make up the bulk of the book; advanced professional projects from such domains as animation, performance, and installation are discussed in interviews with their creators. This second edition has been thoroughly updated. It is the first book to offer in-depth coverage of Processing 2.0 and 3.0, and all examples have been updated for the new syntax. Every chapter has been revised, and new chapters introduce new ways to work with data and geometry. New “synthesis” chapters offer discussion and worked examples of such topics as sketching with code, modularity, and algorithms. New interviews have been added that cover a wider range of projects. “Extension” chapters are now offered online so they can be updated to keep pace with technological developments in such fields as computer vision and electronics. Interviews SUE.C, Larry Cuba, Mark Hansen, Lynn Hershman Leeson, Jürg Lehni, LettError, Golan Levin and Zachary Lieberman, Benjamin Maus, Manfred Mohr, Ash Nehru, Josh On, Bob Sabiston, Jennifer Steinkamp, Jared Tarbell, Steph Thirion, Robert Winter
