New Zealand was the last major landmass, other than Antarctica, to be settled by humans. The story of this rugged and dynamic land is beautifully narrated, from its origins in Gondwana some 80 million years ago to the twenty-first century.

Philippa Mein Smith highlights the effects of the country's smallness and isolation, from its late settlement by Polynesian voyagers and colonisation by Europeans - and the exchanges that made these people Maori and Pakeha - to the dramatic struggles over land and recent efforts to manage global forces. A

From the bestselling author of the Charlie Bone series comes a classic fantasy thriller,

now reissued. After years of having moved around, 11-year-old Dinah determines to make a huge, dilapidated old mansion into a home for her mother and herself, but the wild beasts she summons from a stone wall to protect her may also imprison her. The updated edition of the bestselling book that has changed millions of lives with its insights into the growth mindset “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, *GatesNotes*

After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. *Mindset* reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives

and your own.

The number of English-medium international schools that deliver their curriculum wholly or partly in the English language reportedly reached 6,000 in January 2012. It is anticipated this number will rise to over 11,000 schools by 2022, employing over 500,000 English-speaking teachers. The number of children being taught in these schools reportedly reached 3 million in March 2012. Alongside this phenomenal growth the landscape of international schooling has changed fundamentally, moving away from largely serving the children of the expat and globally mobile business community and Embassies, towards serving the 'local' children of the wealthy and emerging middle-class. This has been reflected in the shift away from non-profit ownership by the school community towards ownership by for-profit companies and proprietors. In this book, Tristan Bunnell explores the changing landscape of international schooling and discusses the implications of these changes, both in terms of theoretically conceptualizing the scale, nature and purpose of the field, and in terms of practically serving and administering the growing industry that international education is becoming. *The Changing Landscape of International Schooling* will be worthwhile reading for researchers, academics and students of international schooling, leaders and teachers in international schools, and those interested in the broader development of international education.

The 2012 GCSE English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007-09 development phase of the qualification- in particular the turbulence which resulted from the shift away from a mostly linear to a modular system, combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time, but these were not acted upon by the regulator (the then-interim Ofqual). Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The

current status of Ofqual, as an independent regulator accountable to Parliament, is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels, to a tight timetable and at the same time. Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland, without careful reflection on what might be lost, or consensus that this is the right thing to do.

The Rainbow is an epic tale spanning three generations of Brangwens, a family of farmers living in Nottinghamshire around the time of the Industrial Revolution. The tale begins with Tom Brangwen, the very epitome of a rural English farmer leading the old way of life. We follow him as a youth easing in to the rhythm of rural existence. He soon falls in love with Lydia, a Polish immigrant he had hired as a housekeeper, and despite their vast cultural differences, the two marry. Their relationship is, in a word, satisfactory: the two face a language and culture barrier that prevents their minds from ever truly meeting, but they learn to be more or less content with their place in society and in raising their children. Lydia's child by her first marriage, Anna, becomes the focus of the next part of the novel. She was born in England, and has a fiery and demanding temperament. She falls in love with Will, a nephew of Tom, and the two begin a rocky and difficult marriage. Will, a craftsman and not a farmer, is self-absorbed, and wants nothing more than for them to live their lives only for each other. But Anna wants to strike out in the world and become a part of society. The two must

reconcile their clashing personalities and desires as they raise their many children. The oldest of their children, Ursula, becomes the focus of the last third—and perhaps most famous—part of the novel. Ursula is a deeply sensual being born in to the Victorian era, a time restrained in morality but exploding in energy and possibility, now worlds away from her grandfather Tom Brangwen's quiet, traditional farming life. She leads a life unimaginable to her rural ancestors: indulging in travel abroad, waiting for marriage and pursuing her physical desires, and even taking on a career—a concept both new and frightening to her family, who are just a generation removed from the era when a woman's life was led at home. Her unhappiness with the contradiction in this new unbridled way of living and the strict social mores of the era becomes the main theme of this last part of the book. The entire novel takes a frank approach to sexuality and physical desire, with sex portrayed unashamedly as a natural, powerful, pleasurable, and desirable force in relationships. In fact Ursula's story is the most famous part of the novel not just because of her unrestrained physicality and lust, but because she also experiments with a candidly-realized homosexual affair with one of her teachers. This unheard-of treatment of deeply taboo topics was poorly received by Lawrence's Edwardian contemporaries, and the book quickly became the subject of an obscenity trial that resulted in over 1,000 copies being burned and the book being banned in the U.K. for eleven years. Though its charged portrayal of sexuality is what the book is remembered for, sexuality is only one of the themes Lawrence treats. The novel stands

solidly on its rich description of both rural and city life, its wide-angled view of change over generations, and its exploration of hope for the human spirit in societies that heave not gently but quickly and violently into new eras.
