Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*.

Lavishly illustrated with over 300 pictures, including more than 200 in full color, *The Oxford History of Islam* offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume *Oxford Encyclopedia of the Modern Islamic World*, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community,

institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, *The Oxford History of Islam* offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations. Each DBQ activity has questions that create worldly connections to the present. Includes complete instructions, tips to improve scores, reproducible documents with answer prompts, a scoring rubric, and sample student essay positions. Helps students attain a better understanding of world history, from imperialism to contemporary issues. Aligned to Common Core State Standards (CCSS).

Globalization is by no means a new phenomenon; transcontinental trade and the movement of people date back at least 2,000 years, to the era of the ancient Silk Road trade route. The global spread of infectious disease has followed a parallel course. Indeed, the emergence and spread of infectious disease are, in a sense, the epitome of globalization. Although some experts mark the fall of the Berlin Wall as the beginning of this new era of globalization, others argue that it is not so new. The future of globalization is still in the making. Despite the successful attempts of the developed world during the course of the last century to control many infectious diseases and even to eradicate some deadly afflictions, 13 million people worldwide still die from such diseases every year. On April 16 and 17, 2002, the Forum on Emerging Infections held a working group discussion on the influence of globalization on the emergence and control of infectious diseases. The contents of the unattributed sections are based on the presentations and discussions that took place during the workshop. The Impact of Globalization on Infectious Disease Emergence and Control report summarizes the

presentations and discussions related to the increasing cross-border and cross-continental movements of people and how this could exacerbate the emergence and global spread of infectious diseases. This report also summarizes the means by which sovereign states and nations must adopt a global public health mind-set and develop a new organizational framework to maximize the opportunities and overcome the challenges created by globalization and build the necessary capacity to respond effectively to emerging infectious disease threats.

The Oxford History of the United States is the most respected multi-volume history of our nation in print. The series includes three Pulitzer Prize-winners, a New York Times bestseller, and winners of prestigious Bancroft and Parkman Prizes. From Colony to Superpower is the only thematic volume commissioned for the series. Here George C. Herring uses foreign relations as the lens through which to tell the story of America's dramatic rise from thirteen disparate colonies huddled along the Atlantic coast to the world's greatest superpower. A sweeping account of United States' foreign relations and diplomacy, this magisterial volume documents America's interaction with other peoples and nations of the world. Herring tells a story of stunning successes and sometimes tragic failures, captured in a fast-paced narrative that illuminates the central importance of foreign relations to the existence and survival of the nation, and highlights its ongoing impact on the lives of ordinary citizens. He shows how policymakers defined American interests broadly to include territorial expansion, access to growing markets, and the spread of an "American way" of life. And Herring does all this in a story rich in human drama and filled with epic events. Statesmen such as Benjamin Franklin and Woodrow Wilson and Harry Truman and Dean Acheson played key roles in America's rise

to world power. But America's expansion as a nation also owes much to the adventurers and explorers, the sea captains, merchants and captains of industry, the missionaries and diplomats, who discovered or charted new lands, developed new avenues of commerce, and established and defended the nation's interests in foreign lands. From the American Revolution to the fifty-year struggle with communism and conflicts in Afghanistan and Iraq, From Colony to Superpower tells the dramatic story of America's emergence as superpower--its birth in revolution, its troubled present, and its uncertain future.

officials. The Women's War of 1929 addresses the historical debates related to the causes and consequences of the event with assessments of each side's strengths and weaknesses. Focusing mainly on the actions of African participants, the book explains the cultural, social, and economic issues that led to the Women's War and the reasons why women used specific strategies. It also evaluates the aftermath of the conflict and how the protest practices used by Igbo and Ibibio women influenced British colonial policy. The book goes further than other historical accounts of the Women's War by evaluating subsequent women's protests into the 1930s. The volume includes a large collection of primary documents reproduced for print from archives in Nigeria and London. A chapter designed for students gives context to the documents and offers a short guide on how to use them effectively. The document collection offers insights into more than just the Women's War, owing to firsthand accounts and opinions from Igbo and Ibibio people, as well as how colonial officials described life under British colonialism. The documents section is designed to be a primary resource for students and professors of African Studies, African History, British Imperial Studies, and Gender Studies so that readers interested in the subject have the chance to read the actual words of African women and colonial officials. This book is part of the African World Series, edited by Toyin Falola, Frances Higginbotham Nalle Centennial Professor in History, University of Texas at Austin.

better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'. This practical resource shows you how to apply Sam Wineburgs highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.
