Hampson describes how the French Revolution, which seemed to promise an era of Franco-British partnership, led to an even more bitter estrangement between the two nations. Both the British and French peoples saw the revolution of 1789 as offering the prospect of a new Franco-British partnership. These hopes soon foundered on old suspicions and new ideological divergences. The result was to confirm the traditional perception of each nation's own identity, centred on the state in France and the people in Great Britain.

This book, first published in 1986, surveys the history of rural society in Germany from the eighteenth century to the present day. The contributions include studies of Junker estates and small farming communities, serfs and landless labourers, maidservants and worker-peasants. They demonstrate the variety and complexity of the social division that structures the rural economy. Throughout the book there is an emphasis on the conflicts that divided rural society, and the ways and means in which these were expressed, whether in serf strikes in eighteenth-century Brandenburg, village gossip in early twentieth-century Hesse, or factional struggles over planning permission in present-day Swabia. The rural world emerges not as traditional, passive and undifferentiated, but as actively participating in its own making; not only responding to the changes going on around it, but exploiting them for its own purposes and influencing them in its own way. This book is ideal for students of history, particularly German history.

Prior to 1862, when the Department of Agriculture was established, the report on agriculture was prepared and published by the Commissioner of Patents, and forms volume or part of volume, of his annual reports, the first being that of 1840. Cf. Checklist of public documents ... Washington, 1895, p. 148.

Combining an up-to-date insight into mass-spectrometric polymer analysis beyond MALDI with application details of the instrumentation, this is a balanced and thorough presentation of the most important and widely used mass-spectrometric methods. Written by the world's most proficient experts in the field, the book focuses on the latest developments, covering such technologies and applications as ionization protocols, tandem and liquid chromatography mass spectrometry, gas-phase ion-separation techniques and automated data processing. Chapters on sample preparation, polymer degradation and the usage of mass-spectrometric tools on an industrial scale round off the book. As a result, both entrants to the field and experienced researchers are able to choose the appropriate methods and instrumentations -- and to assess their respective strengths and limitations -- for the characterization of polymer compounds.

"This two-volume work ... with its almost 8,900 abstracts and annotations of articles drawn from an international list of over 500 periodicals dealing with history and related disciplines published between 1974 and 1984 ... "Introd., p. viii.

The Girl With All the Gifts Orbit

In the ruins of civilization, a young girl's kindness and capacity for love will either save humanity -- or wipe it out in this USA Today bestselling thriller Joss Whedon calls "heartfelt, remorseless, and painfully human." Melanie is a very special girl. Dr Caldwell calls her "our little genius." Every morning, Melanie waits in her cell to be collected for class. When they come for her, Sergeant keeps his gun pointed at her while two of his people strap her into the wheelchair. She thinks they don't like her. She jokes that she won't bite, but they don't laugh. The Girl With All the Gifts is a genre-defying, emotionally charged thriller that will shatter your

expectations of the classic zombie novel. For more from M. R. Carey, check out: Someone Like Me

This updated and revised edition outlines strategies and models for how to use technology and knowledge to improve performance, create jobs and increase income. It shows what skills will be required to produce, sell and manage performance over time, and how manual jobs can contribute to reduce the consumption of non-renewable resources.

Landing of U.S. VI Corps at Anzio in an attempt to bypass German defenses blocking the approach to Rome, January 6-May 1944.

Includes a mid-December issue called Buyer guide edition.
