This book reports on practical approaches for facilitating the process of achieving excellence in the management and leadership of organizational resources. It shows how the principles of creating shared value can be applied to ensure faster learning, training, business development, and social renewal. In particular, the book presents novel methods and tools for tackling the complexity of management and learning in both business organizations and society. It covers ontologies, intelligent management systems, methods for creating knowledge and value added. It gives novel insights into time management and operations optimization, as well as advanced methods for evaluating customers' satisfaction and conscious experience. Based on the AHFE 2016 International Conference on Human Factors, Business Management and Society, held on July 27-31, 2016, Walt Disney World®, Florida, USA, the book provides both researchers and professionals with new tools and inspiring ideas for achieving excellence in various business activities.

Chey Sinclair discovers that dating a real life Prince can be both heart warming-and heart wrenching. Sticking to her guns, she faces down the Queen and defies the Royal order to cease her relationship with Prince Sander. Piqued, the Queen strikes back, and Chey finds herself separated from Sander by no means of her own. Forced to return to Seattle, Chey waits, and hopes, to be

McKee analyzes portrayals of a society in which abstract idealism belonged to knowledgeable, productive men and the realm of ignorance was left to emotional consuming women and the uneducated. Throughout, McKee highlights the unexpected configurations of the emergence of the public and private spheres and the effect of knowledge distributions across class and gender lines.

This volume examines the evolution of the Western dysfunctional relationship with the environment, explores the theoretical framework and concepts of Jungian ecopsychology, and describes how it could be applied to psychotherapy, our educational system, and our relationship with indigenous people.

The Morris Minor 1000, which retained many of its predecessors characteristics was a huge success following its launch at the London Motor Show in 1956.

The information contained in this book will provide a valuable resource containing original specifications, road tests, contemporary views and opinion and insights into post production developments, all of which add to the continuing story of the Morris Minor in the 21st century.

What has Jung to do with the Postmodern? Chris Hauke's lively and provocative book, puts the case that Jung's psychology constitutes a critique of modernity that brings it in line with many aspects of the postmodern critique of contemporary culture. The metaphor he uses

is one in which 'we are gazing through a Jungian transparency or filter being held up against the postmodern while, from the other side, we are also able to look through a transparency or filter of the postmodern to gaze at Jung. From either direction there will be a new and surprising vision.' Setting Jung against a range of postmodern thinkers, Hauke recontextualizes Jung's thought as a response to modernity, placing it - sometimes in parallel and sometimes in contrast to - various postmodern discourses. Including chapters on themes such as meaning, knowledge and power, the contribution of architectural criticism to the postmodern debate, Nietzsche's perspective theory of affect and Jung's complex theory, representation and symbolization, constructivism and pluralism, this is a book which will find a ready audience in academy and profession alike.

In this remarkable book, Carl Verheyen teaches his philosophy and techniques for improvising. Rather than hashing out scales, Carl teaches how to play lines with strong melodic content. By approaching melodies through intervals and chord qualities, infinite lines can be generated. Carl stresses the importance of collecting lines that can be used in improvised settings. These lines and examples will provide outstanding material for any guitarist yearning for melodic ideas and inspiration. Presented in standard notation and tab.

Those who've heard T. R. Reid's weekly commentary on National Public Radio or read his far-flung reporting in National Geographic or The Washington Post know him to be trenchant, funny, and cutting-edge, but also erudite and deeply grounded in whatever subject he's discussing. In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan, China, Taiwan, and other East Asian countries enjoy the low crime rates, stable families, excellent education, and civil harmony that remain so elusive in the West. Reid, who has spent twenty-five years studying Asia and was for five years The Washington Post's Tokyo bureau chief, uses his family's experience overseas--including mishaps and misapprehensions--to look at Asia's "social miracle" and its origin in the ethical values outlined by the Chinese sage Confucius 2,500 years ago. When Reid, his wife, and their three children moved from America to Japan, the family quickly became accustomed to the surface differences between the two countries. In Japan, streets don't have names, pizza comes with seaweed sprinkled on top, and businesswomen in designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside.

But over time Reid came to appreciate the deep cultural differences, helped largely by his courtly white-haired neighbor Mr. Matsuda, who personified ancient Confucian values that are still dominant in Japan. Respect, responsibility, hard work--these and other principles are evident in Reid's witty, perfectly captured portraits, from that of the school his young daughters attend, in which the students maintain order and scrub the floors, to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity. And Reid also examines the drawbacks of living in such a society, such as the ostracism of those who don't fit in and the acceptance of routine political bribery. Much Western ink has been spilled trying to figure out the East, but few journalists approach the subject with T. R. Reid's familiarity and insight. Not until we understand the differences between Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully, politically and economically, with those whose moral center is governed by Confucian doctrine. Fascinating and immensely readable, Confucius Lives Next Door prods us to think about what lessons we might profitably take from the "Asian Way"--and what parts of it we want to avoid.
