For the kings and queens of England, a trumpet fanfare or crash of cymbals could be as vital a weapon as a cannon. Showcasing a monarch's power, prestige and taste, music has been the lifeblood of many a royal dynasty. From sacred choral works to soaring symphonies, *Music and Monarchy* looks at how England's character was shaped by its music. To David Starkey and Katie Greening, works like Handel's *Water Music* and Tallis's *Mass for Four Voices* were more than entertainment – they were pieces signalling political intent, wealth and ambition. Starkey and Greening examine England's most iconic musical works to demonstrate how political power has been a part of musical composition for centuries. Many of our current musical motifs of nationhood, whether it's the Last Night of the Proms or football terraces erupting in song, have their origins in the way the crown has shaped the national soundtrack. Published to coincide with a major BBC series, *Music and Monarchy* is not a book about music. It is a history of England written in music, from our leading royal historian.

Presents a guide to using a Mac for senior citizens, covering such topics as using the Internet, sending and receiving emails, working with files and folders, listening to music, setting preferences, and downloading apps.

This lavishly illustrated book examines Berlin in depth during a period of explosive growth between the two world wars. Between 1871 and 1919, the population of Berlin quadrupled, and the city became the political center of Germany, as well as the turbulent crossroads of the modern age. This was reflected in the work of artists, directors, writers, and critics of the time. As an imperial capital, Berlin was the site of violent political revolution and radical aesthetic innovation. After the German defeat in World War I, artists employed collage to challenge traditional concepts of art. Berlin Dadaists reflected upon the horrors of war, and the terrors of revolution and civil war. Between 1924 and 1929 as the spirit of modernity took hold, jazz, posters, magazines, advertisements, and cinema played a central role in the development of Berlin's urban experience. The concept of the "Neue Frau"--the modern, emancipated woman--helped move the city in a new direction. Finally, Berlin became a stage for political confrontation between the left and the right and was deeply affected by the economic crisis and mass unemployment at the end of the 1920s. This book explores in numerous essays and illustrations the artistic, cultural, and social upheavals in Berlin between 1918 and 1933, and places them in a broader historical framework.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Is citizenship simply a legal status or does it describe a sense of belonging to a national community? For Arab Americans, these questions took on new urgency after 9/11, as the cultural prejudices that have often marginalized their community came to a head. *Citizenship and Crisis* reveals that, despite an ever-shifting definition of citizenship and the ease with which it can be questioned in times of national crisis, the Arab communities of metropolitan Detroit continue to thrive. A groundbreaking study of social life, religious practice, cultural values, and political views among Detroit Arabs after 9/11, *Citizenship and Crisis* argues that contemporary Arab American citizenship and identity have been shaped by the chronic tension between social inclusion and exclusion that has been central to this population's experience in America. According to the landmark Detroit Arab American Study, which surveyed more than 1,000 Arab Americans and is the focus of this book, Arabs express pride in being American at rates higher than the general population. In nine wide-ranging essays, the authors of *Citizenship and Crisis* argue that the 9/11 backlash did not substantially transform the Arab community in Detroit, nor did it alter the identities that prevail there. The city's Arabs are now receiving more mainstream institutional, educational, and political support than ever before, but they remain a constituency defined as essentially foreign. The authors explore the role of religion in cultural integration and identity formation, showing that Arab Muslims feel more alienated from the mainstream than Arab Christians do. Arab Americans adhere more strongly to traditional values than do other Detroit residents, regardless of religion. Active participants in the religious and cultural life of the Arab American community attain higher levels of education and income, yet assimilation to the American mainstream remains important for achieving enduring social and political gains. The contradictions and dangers of being Arab and American are keenly felt in Detroit, but even when Arab Americans oppose U.S. policies, they express more confidence in U.S. institutions than do non-Arabs in the general population. The Arabs of greater Detroit, whether native-born, naturalized, or permanent residents, are part of a political and historical landscape that limits how, when, and to what extent they can call themselves American. When analyzed against this complex backdrop, the results of The Detroit Arab American Study demonstrate that the pervasive notion in American society that Arabs are not like "us" is simply inaccurate. *Citizenship and Crisis* makes a rigorous and impassioned argument for putting to rest this exhausted cultural and political stereotype.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

In *Mordin On Time*, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). *Mordin On Time* enables the reader to construct their own speed ratings wherever they live.

Research evidence on bully-victim problems has accumulated rapidly in recent years. From this, there is little doubt that prolonged involvement in bullying, as a perpetrator, victim, or, not uncommonly, as both a perpetrator and target of bullying, conveys risk for many aspects of development. As in many emerging areas of psychological science, diverse research efforts evolved more or less independently, producing a very large and rich body of knowledge, but making it difficult to gain a comprehensive, integrated view of the overall evidence base. *Preventing and Treating Bullying and Victimization* looks across the sometimes disparate perspectives from school, clinical, and developmental researchers and professionals with an eye towards describing and integrating current knowledge into a guide for evidence-based practices and further research. The authors offer new directions for understanding this complex problem and for enhancing intervention approaches. This edited book is comprised of three sections: Theoretical Perspectives, Assessment and Intervention, and Recommendations for Policy, Practice, and Research. It is of interest to a number of professions and disciplines including clinical, developmental, counseling, and school psychologists, social workers, school administrators and educators, and public officials involved in setting policies.

College sophomore Hannah Maquiling doesn't know why everyone tells her their love problems. She's never even had a boyfriend,

but that doesn't stop people from spilling their guts to her, and asking for advice. So maybe it shouldn't be a surprise when the cutest guy in school tells her that she's going to have to take on this responsibility -- but for all humanity. The Goddess of Love has gone AWOL. It's a problem, because her job is to keep in check this world's obsession with love (and lack of it). The God of the Sun, for now an impossibly handsome senior at an exclusive college just outside of Metro Manila, thinks Hannah has what it takes to (temporarily) do the job. While she's learning to do this goddess thing, she practices on the love troubles of shy Kathy, who's got a secret admirer on campus. Hannah's mission, should she choose to accept it, is to make sure that he's not a creepy stalker and they find their happily ever after -- or at least something that'll last until next semester. (As if she could refuse! The Sun God asked so nicely. And he's so, well, hot.)

Joe Field had never met his father. "He was a firefighter," his mother told him. "He was in the Air Force," she said another time. She never even told Joe the man's name! Growing up rough--poor, kidnapped and evicted so many times he lost count--school was Joe's refuge. Eventually he became a lawyer, but in a few years lost even that. He had a family of his own when he prayed on Father's Day 2016 to find his birth father. By the grace of God, he found his father and so much more, and in the process discovered that through all those years of seeking, his heavenly Father had been seeking him."

Padgett Powell, author of the acclaimed *The Interrogative Mood* and "one of the few truly important American writers of our time" (Sam Lipsyte), returns with a hilarious Southern send-up of Samuel Beckett's classic *Waiting for Godot*. Truly a master of envelope-pushing, post-postmodern American fiction, in a class with Nicholas Baker and Lydia Davis, Powell brilliantly blends the sublime, the trivial, and the oddball in *You & Me*, as two loquacious gents on a porch discuss all manner of subjects, from the mundane to the spiritual to the downright ridiculous. At once outrageously funny and profound, *You & Me* is yet another brilliant, boundary-bursting masterwork, proving once again that, "there are few writers who understand both the beauty and the absurdity of language as well as Padgett Powell" (Kevin Wilson, author of *The Family Fang*) and that, "Padgett Powell is one of the best writers in America, and one of the funniest, too" (Ian Frazier). *You & Me: A Novel* won the James Tait Black Prize for Fiction.

A Pulitzer Prize winner makes her debut for young readers. Jane Smiley makes her debut for young readers in this stirring novel set on a California horse ranch in the 1960s. Seventh-grader Abby Lovitt has always been more at ease with horses than with people. Her father insists they call all the mares "Jewel" and all the geldings "George" and warns Abby not to get attached: the horses are there to be sold. But with all the stress at school (the Big Four have turned against Abby and her friends) and home (her brother Danny is gone—for good, it seems—and now Daddy won't speak his name), Abby seeks refuge with the Georges and the Jewels. But there's one gelding on her family's farm that gives her no end of trouble: the horse who won't meet her gaze, the horse who bucks her right off every chance he gets, the horse her father makes her ride and train, every day. She calls him the Ornery George.
