

Ks3 History The Norman Conquest

A sweeping and original history of the Anglo-Saxons by national bestselling author Marc Morris. Sixteen hundred years ago Britain left the Roman Empire and swiftly fell into ruin. Grand cities and luxurious villas were deserted and left to crumble, and civil society collapsed into chaos. Into this violent and unstable world came foreign invaders from across the sea, and established themselves as its new masters. The Anglo-Saxons traces the turbulent history of these people across the next six centuries. It explains how their earliest rulers fought relentlessly against each other for glory and supremacy, and then were almost destroyed by the onslaught of the vikings. It explores how they abandoned their old gods for Christianity, established hundreds of churches and created dazzlingly intricate works of art. It charts the revival of towns and trade, and the origins of a familiar landscape of shires, boroughs and bishoprics. It is a tale of famous figures like King Offa, Alfred the Great and Edward the Confessor, but also features a host of lesser known characters - ambitious queens, revolutionary saints, intolerant monks and grasping nobles. Through their remarkable careers we see how a new society, a new culture and a single unified nation came into being. Drawing on a vast range of original evidence - chronicles, letters, archaeology and artefacts - renowned historian Marc Morris illuminates a period of history that is only dimly understood, separates the truth from the legend, and tells the extraordinary story of how the foundations of England were laid.

This riveting and authoritative USA Today and Wall Street Journal bestseller is “a much-needed, modern account of the Normans in England” (The Times, London). The Norman Conquest was the most significant military—and cultural—episode in English history. An invasion on a scale not seen since the days of the Romans, it was capped by one of the bloodiest and most decisive battles ever fought. Language, law, architecture, and even attitudes toward life itself—from the destruction of the ancient ruling class to the sudden introduction of castles and the massive rebuilding of every major church—were altered forever by the coming of the Normans. But why was this revolution so total? Reassessing original evidence, acclaimed historian and broadcaster Marc Morris goes beyond the familiar story of William the Conqueror, an upstart French duke who defeated the most powerful kingdom in Christendom. Morris explains why England was so vulnerable to attack; why the Normans possessed the military cutting edge though they were perceived as less sophisticated in some respects; and why William’s hopes of a united Anglo-Norman realm unraveled, dashed by English rebellions, Viking invasions, and the insatiable demands of his fellow conquerors. Named one of the best books of the year by the Kansas City Star, who called the work “stunning in its action and drama,” and the Providence Journal, who hailed it “meticulous and absorbing,” this USA Today and Wall Street Journal bestseller is a tale of gripping drama, epic clashes, and seismic social change.

On September 27, 1066, Duke William of Normandy sailed for England with hundreds of ships and over 8,000 men. King Harold of England, weakened by a ferocious Viking invasion from the north, could muster little defense. At the Battle of Hastings of October 14, he was outflanked, quickly defeated, and killed by William's superior troops. The course of English history was altered forever.

Three years later, Walt, King Harold's only surviving bodyguard, is still emotionally and physically scarred by the loss of his king and his country. Wandering through Asia Minor, headed vaguely for the Holy Land, he meets Quint, a renegade monk with a healthy line of skepticism and a hearty appetite for knowledge. It is he who persuades Walt, little by little, to tell his extraordinary story. And so begins a roller-coaster ride into an era of enduring fascination. Weaving fiction around fact, Julian Rathbone brings to vibrant, exciting, and often amusing life the shadowy figures and events that preceded the Norman Conquest. We see Edward, confessing far more than he ever did in the history books. We meet the warring nobles of Mercia and Wessex; Harold and his unruly clan; Canute's descendants with their delusions of grandeur; predatory men, pushy women, subdued Scots, and wily Welsh. And we meet William of Normandy, a psychotic thug with interesting plans for the "racial sanitation" of the Euroskeptics across the water. Peppared with discussions on philosophy, dentistry, democracy, devils, alcohol, illusions, and hygiene, *The Last English King* raises issues, both daring and delightful, that question the nature of history itself. Where are the lines between fact, interpretation, and re-creation? Did the French really stop for a two-hour lunch during the Battle of Hastings?

KS3 History: Invasion, Plague and Murder: Britain 1066-1509 Oxford University Press - Children

The new fourth edition of Revolution, Industry and Empire is Book 2 of the best-selling Oxford KS3 History by Aaron Wilkes series. This textbook introduces the history knowledge and skills needed to support a coherent knowledge-rich curriculum, prepares students for success in Key Stage 3 History, and builds solid foundations for GCSE study.

This book examines how teachers and students actually go about their classroom business. It carefully avoids the assumptions of policy-makers and theorists about what ought to be happening and focuses on what is happening. In doing so, Cooper and McIntyre offer: * a detailed look at how teachers are responding to the National Curriculum * a unique insight into secondary school students as learners * a grounded analysis of teaching and learning strategies drawing on the psychological theories of Bruner and Vygotsky The book follows on from Donald McIntyre's previous book Making Sense of Teaching and will be of interest to student teachers, teachers studying for advanced degrees and academics involved in teacher education.

The definitive and fully illustrated guide to the Bayeux Tapestry. The full history of the events leading up to the Battle of Hastings and the story of the tapestry itself. Most people know that the Bayeux Tapestry depicts the moment when the last Anglo-Saxon king of England, Harold Godwinson, was defeated at the Battle of Hastings in 1066 by his Norman adversary William the Conqueror. However, there is much more to this historic treasure than merely illustrating the outcome of this famous battle. Full of intrigue and violence, the tapestry depicts everything from eleventh-century political and social life—including the political machinations on both sides of the English Channel in the years leading up to the Norman Conquest—to the clash of swords and stamp of hooves on the battle field. Drawing on the latest historical and scientific research, authors David Musgrove and Michael Lewis have written the definitive book on the Bayeux Tapestry,

taking readers through its narrative, detailing the life of the tapestry in the centuries that followed its creation, explaining how it got its name, and even offering a new possibility that neither Harold nor William were the true intended king of England. Featuring stunning, full- color photographs throughout, The Story of the Bayeux Tapestry explores the complete tale behind this medieval treasure that continues to amaze nearly one thousand years after its creation.

Exam board: OCR (Specification B, SHP) Level: GCSE (9-1) Subject: History First teaching: September 2016 First exams: Summer 2018 An OCR endorsed textbook. A new approach to studying Britain from 1066 to 1485 with this lively and informative history text book for 11 to 14-year olds. Suitable for mixed abilities, it provides the knowledge and skills combined with an entertaining style to learn and build history skills. Contains clear objectives for students and includes taskwork that develops literacy, numeracy and thinking skills. History was never so entertaining!

Matilda, wife of William the Conqueror, was the first woman to be crowned Queen of England and formally recognised as such by her subjects. Beyond this, however, little is known of her. No contemporary images of her remain, and the chroniclers of her age left us only the faintest clues as to her life. Who was this spectral queen? In this first major biography, Tracy Borman sifts through the shards of evidence to uncover an extraordinary story. Matilda was loving and pious, possessed strength, ambition and intelligence, and was fiercely independent. All of these attributes gave her unparalleled influence over William. But although Matilda would provide an inspiring template for future indomitable queens, it led to treachery, revolt and the fracturing of a dynasty. "Matilda: Queen of the Conqueror" takes us from the courts of Flanders to the opulence of royal life in England. Alive with intrigue, rumour and betrayal, it illuminates for the first time the life of an exceptional, brave and complex queen pivotal to the history of England.

Get a head start in AQA GCSE (9-1) History by using Key Stage 3 to build the skills required for GCSE success. Easily incorporated into your existing two or three-year KS3 curriculum, and perfect for classwork or homework, these Workbooks: - Introduce and develop GCSE skills in the context of the KS3 content that you already teach, ensuring that pupils work towards the GCSE Assessment Objectives from Year 7 onwards - Break down the skills that pupils need to

A revised edition of Anna Komnene's Alexiad, to replace our existing 1969 edition. This is the first European narrative history written by a woman - an account of the reign of a Byzantine emperor through the eyes and words of his daughter which offers an unparalleled view of the Byzantine world in the eleventh and twelfth centuries.

This book challenges the orthodox views of William I's great census of 1086, to give an intriguing story of the origins of England's greatest historical record, as well as new insights into its contents.

Based on the lives of Earl Godwin of Wessex and his family.

The Norman Conquest of England in the 11th Century transformed the English language, culture, and government forever. This book was published at the onset of the Victorian Age and was instrumental in shaping the perception of Englishness which would typify that remarkable time. Though out of date, Wake's stirring narrative gives a glimpse of the role the conquest and the Battle of Hastings played in the culture of the time.

Exam board: OCR (Specification B, SHP) Level: GCSE (9-1) Subject: History First teaching: September 2016 First exams: Summer 2018 An OCR endorsed textbook Let SHP successfully steer you through the OCR B specification with an exciting, enquiry-based series, combining best practice teaching methods and worthwhile tasks to develop students' historical knowledge and skills.
