What the Animals Taught Me is a collection of stories about rescued farm animals in a shelter in Sonoma County, California, and what these animals can teach us. Each story illuminates how animals can help us see and embrace others as they truly are and reconnect us with the natural world. Wishing to escape the urban rat race, freelance writer and editor Stephanie Marohn moved to rural northern California in 1993. Life was sweet. She was a busy freelancer. In return for reduced rent, she fed and cared for two horses and a donkey. Her life was full. And then, more farm animals started to appear: a miniature white horse, a donkey, sheep, chickens, followed by deer and other wildlife. Each one needed sanctuary either from abuse, physical injury, or neglect. Marohn took each animal in and gradually turned her 10-acre spread into an animal sanctuary. A deeply inspiring collection, What the Animals Taught Me awakens our hearts and reminds us that our best life teachers sometimes come covered in fur.

With great candour, K.M. Mathew describes how their fortunes changed when their support to the nationalist State Congress brought upon them the wrath of the Travancore dewan, leading to the bank's collapse; and how through sheer persistence and diligence they could rebuild the paper and go on to establish huge companies. Mathew also shows that throughout the paper upheld the values of liberalism, credibility and democracy, which it continues to do until today. On Mahatma Gandhi's birth anniversary in October 2014, Prime Minister Narendra Modi declared his vision for an Open-Defecation-Free India. This book talks about the journey of an IAS officer who understood and leveraged the potential of the government, community and citizens through cleanliness. The true meaning of Swachh Bharat was seen as village after village transformed into a cleaner hub. Citizens took ownership to keep their village Open Defecation Free (ODF) through activities such as 'Triggering' and 'Gandhigiri'. The struggles and triumphs in fulfilling the dream of ODF Gujarat are passionately narrated here. The book relates the tale of a renewed satyagraha through Swachhagraha. On 21 November 1963, the first rocket took off from Thumba, a fishing hamlet near Thiruvananthapuram, announcing the birth of India's space programme. The rocket, the payload, the radar, the computer, the helicopter - all that was required for the launch - came from outside the country. Fifty years later, on 5 November 2013, when ISRO launched its Mars Orbiter Mission (MOM) from the Satish Dhawan Space Centre, Sriharikota, all of it had been indigenously manufactured. Ten months after the launch, on 24 September 2014, India became the first country in the world to put a satellite around the Red Planet in the very first attempt. From Fishing Hamlet to Red Planet tracks this stupendous journey through articles, interviews and reminiscences with contributions from intellectual giants like Dr Vikram Sarabhai, Satish Dhawan, M.S. Swaminathan, Jacques Blamont, Dr A.P.J. Abdul Kalam, U.R. Rao and Dr K. Kasturirangan, among others, this is the story of India's space journey from its modest beginnings to its rendezvous with Mars.

Developments in South Asia in the areas of democracy, political economy and security in the last couple of years are intriguing and raise questions about whether the region is on the road to transformation. The years 2013 and 2014, particularly, have been 'years of transition' in South Asia. Almost all South Asia countries have undergone political transitions with cascading effects. These elections are significant for South Asian countries because the region has witnessed political instability for a long period of time. The elections in South Asia generated the hope that the most un-integrated region may become interdependent after coming up of new sets of political heads. These developments in the region have an influence on India's foreign policy and also mould its domestic politics; and vice-versa. India's policy towards individual countries also has a decisive impact on the pace of on-going political transitions in a number of spheres: civil-military relations, foreign policy of individual countries, socio-political and economic dynamics and nature of governance. These transitions reflect the nature, behaviour and response of the transitory states towards the others. India, as an important stakeholder in the region is keenly observing these transitions in its neighbourhood. This book titled: *Transitions and Interdependence: India and Its Neighbours* is the outcome of serious deliberations among well known scholars, diplomats and policy makers at

the Fifth Asian Relations Conference organised by the Indian Council of World Affairs in collaboration with the Institute of Peace and Conflict Studies in February 2014. Papers presented in the conference have been thoroughly revised before publication and the editors acknowledge with gratitude these insightful contributions.
