a strong emphasis on the 5 C's: Communication, Culture, Connections, Comparisons, and Communities. Tu mundo delivers content in a variety of ways in order to ensure consistent course outcomes across all course formats.

- 1.Improved communication performance & skills:** By jumping directly into communicative practice at the beginning of every chapter, students are encouraged to immerse themselves in the experience of active learning, whether in a face-to-face or online classroom. Grammar is presented at the end of each chapter, allowing students to study at home and work through the exercises in Connect Spanish for automatic feedback, coming to class ready to engage in discussion. This emphasis on communication in the classroom makes Tu mundo the most effective communicative program on the market. No other program commits to this methodology like Tu mundo.
- 2.Creating consistent learning outcomes:** Tu mundo offers a powerful adaptive learning system called LearnSmart that allows students to identify grammatical structures and vocabulary words not yet mastered and to receive an individualized study program for mastering them. Students of all experience levels will benefit from using LearnSmart, which includes built-in reporting and a competitive scoreboard. Connect Spanish Voice Board and Blackboard Instant Messenger (BbIM), both powered by Wimba, ensure that students are getting ample practice time no matter where their classes take place.
- 3. Building community and connections between students:** Creating a sense of community in the face-to-face or virtual classroom is a huge part of language learning and something that Tu mundo does implicitly. Whether students collaborate in a physical classroom or in Connect Spanish, they are provided with opportunities to engage in meaningful conversations and collaborative task-based activities. The Amigos sin fronteras, a cast of young Hispanic students that share common interests, are featured throughout the entire program and showcased in the Así somos video segments. Through the Amigos sin fronteras, students are exposed to a friendly model on how to apply what they are learning to another friendly group of students, i.e. their own class. In addition, Tu mundo presents an interactive online environment that applies engaging content and task-based scenarios that enable you to practicing your language skills in a fun, immersive way. Thus, students can practice Spanish in a context that is not only fun but extremely motivating.
- 4.More Culture and Comparisons coverage:** Culture is so often left behind—so Tu mundo offers it throughout the program. Each chapter features a country of focus which doubles as the home country of one of the fifteen amigos. Along with in-chapter cultural sections, every chapter of Tu mundo features a second video segment called Mi país (within Connect), narrated by the amigos themselves, as they share information about their native countries. This window into the lives of the amigos provides a point of comparison for you to describe your own life. The Mundo interactivo scenarios represent a variety of cultural contexts in which you can interact with language and culture in a way that is meaningful to you. *Connect Spanish, including but not limited to the workbook/lab manual, LearnSmart, the video program, and chat tools, is sold separately and does not come automatically with the purchase of the textbook.

language as used in real-world settings. Conéctate sparks the curiosity that builds these connections as students drive toward communicative and cultural confidence and proficiency. The Conéctate program's distinctive approach is built around the following principles. Focused approach: Conéctate concentrates on what Introductory Spanish students can reasonably be expected to learn, allowing for sustained engagement with the material that respects the natural process of language acquisition. An intentional focus, first on meaning and then on form, puts in action the best practices of second language pedagogy. Plus, Conéctate's reduced grammar scope leaves more time for the systematic review and recycling of vocabulary and grammar required for students to achieve mastery of first-year skills. Fortifying this process at every turn is LearnSmart™, a powerful, super-adaptive learning program that guides students on an individualized path toward mastery of all the vocabulary and grammar in Conéctate. Active learning: Conéctate gives students the opportunity to explore language and culture through interactive activities that keep them focused and engaged. Vocabulary and grammar in Conéctate are taught using an active learning approach, nudging students to discover new vocabulary and language rules through a carefully balanced mix of inductive and explicit presentations and hands-on learning. Students are similarly asked to take an active role in an immersive online game, Practice Spanish: Study Abroad, designed around a study abroad experience in which they leverage their language and cultural skills to accomplish tasks and solve problems in various real-world scenarios. Integration of culture: Building on the active learning theme, students develop and apply critical thinking skills as they draw personal conclusions about the rich culture presented throughout Conéctate. Culture is embedded within the language activities themselves, included in notes that expand on the activity at hand, and seen through the integrated video that forms the basis for many activities in each chapter of the text. This authentic, unscripted video introduces students to useful chunks of language, real-world Spanish, and a wide range of topics related to cultural themes. Conéctate's stunning video was shot in Spain, Panama, Miami, Argentina, Costa Rica, and Mexico, and exposes students to a wide variety of people in each country who discuss topics that are familiar and engaging to students. Mobile Tools for Digital Success: The digital tools available in the Connect Spanish platform with Conéctate also successfully promote student progress by providing extensive opportunities to practice and hone their developing skills. These learning opportunities include online communicative activities, instant feedback, peerediting, sophisticated reporting, an immersive game, and an interactive eBook with embedded video and audio. With the encroachment of the Internet into nearly all aspects of work and life, it seems as though information is everywhere. However, there is information and then there is correct, appropriate, and timely information. While we might love being able to turn to Wikipedia® for encyclopedia-like information or search Google® for the thousands of links on a topic, engineers need the best information, information that is evaluated, up-to-date, and complete. Accurate, vetted information is necessary when building new skyscrapers or developing new prosthetics for returning military veterans. While the award-winning first edition of *Using the Engineering Literature* used a roadmap analogy, we now need a three-dimensional analysis reflecting the complex and dynamic nature of research in the information age. *Using the Engineering Literature, Second Edition* provides a guide to the wide range of resources available in all fields of engineering. This second edition has been thoroughly revised and features new sections on nanotechnology as well as green engineering. The information age has greatly impacted the way engineers find information. Engineers have an effect, directly and indirectly, on almost all aspects of our lives, and it is vital that they find the right information at the right time to create better products and processes. Comprehensive and up to date, with expert chapter authors, this book fills a gap in the literature, providing critical information in a user-friendly format.

The field of engineering is becoming increasingly interdisciplinary, and there is an ever-growing need for engineers to investigate engineering and scientific resources outside their own area of expertise. However, studies have shown that quality information-finding skills often tend to be lacking in the engineering profession. *Using the Engineerin*
