

No Logo By Naomi Klein

You may be looking at the back of this book, watching as someone else is reading it—a book entitled: Love: Expressed. And you're thinking, 'They must have issues.' So to help them out for a moment: This isn't another one of those 'self-help' manuals. This isn't a book about romance and sex, or feelings and cuddles. This isn't a guidebook offering relationship advice, giving tips on how to find 'love' and 'look after' it. In those senses, this isn't even a book about love. It's a book about life—every part of it. About how it should be lived, how it should be explored, how it should be expressed. This is a book about meaning, about life's trajectories. It's about God. It's about you. It's about them. In that sense, this is all about love. But if I could capture here what I mean by 'love' in that sense, I wouldn't have needed to write a book. "Tristan Sherwin has written a smart and beautiful book showing us that Jesus Christ is the love of God expressed as a human life. This is the life we are called to imitate; this life of love is what we are made for." -Brian Zahnd; Author of A Farewell To Mars "Refreshing, authentic, inspiring, and yet practical-Tristan is a breath of fresh air." -Jeff Lucas; Author, Speaker, Broadcaster "Love: Expressed is a work of dirt-under-your-fingers spirituality." -Jonathan Martin; Author of Prototype

The New York Times Bestseller What if everything you think you know about addiction is wrong? Johann Hari's journey into the heart of the war on drugs led him to ask this question—and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired the feature film *The United States vs. Billie Holiday* and the documentary series *The Fix*. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction—and what really solves it. He uncovered a range of remarkable human stories—of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs—with extraordinary results. *Chasing the Scream* is the story of a life-changing journey that transformed the addiction debate internationally—and showed the world that the opposite of addiction is connection.

The question of public expenditure has proved to be one of the perennial problems for British Governments. Given forecasts of low growth and record levels of unemployment, the present Government could be faced with dilemmas of greater magnitude than ever. This new edition of Maurice Mullard's book has been carefully revised to provide students with an accessible text. It is principally concerned with explaining the political contexts in which public expenditure decisions have had to be made over the last twenty years. It examines the way in which Governments make choices according to public pressure and the fact that bargains and compromises have to be made in order to maintain political credibility. Maurice Mullard provides examples of the way in which Government policy and individual expenditure programmes have been shaped according to the political climate. The text combines theoretical frameworks with policy analysis. This edition contains new chapters on Conservative and Labour politics and a section on John Major's government.

Explains why the environmental crisis should lead to an abandonment of "free market" ideologies and current political systems, arguing that a massive reduction of greenhouse emissions may offer a best chance for correcting problems.

The New York Times—bestselling roadmap to resistance in the Trump era from the internationally acclaimed activist and author of *On Fire* and *The Battle for Paradise*. The election of Donald Trump is a dangerous escalation in a world of cascading crises. Trump's vision—a radical deregulation of the US economy in the interest of corporations, an all-out war on "radical Islamic terrorism," and a sweeping aside of climate science to unleash a domestic fossil fuel frenzy—will generate wave after wave of crises and shocks, to the economy, to national security, to the environment. In *No Is Not Enough*, Naomi Klein explains that Trump, extreme as he is, is not an aberration but a logical extension of the worst and most dangerous trends of the past half-century. In exposing the malignant forces behind Trump's rise, she puts forward a bold vision for a mass movement to counter rising militarism, nationalism, and corporatism in the United States and around the world. Longlisted for the National Book Award "I hope that Klein's book is read by more than just her (mostly) leftwing fan base. For whatever you think about her economic arguments, she makes a powerful and an important point: that you cannot understand Trump without looking at how he reflects bigger cultural and social dynamics. And what is perhaps refreshing about *No Is Not Enough* is that Klein tries to move beyond mere outrage and hand-wringing to offer a practical manifesto for opposition." —Financial Times "Brimming with ideas rarely heard in the mainstream media. And her fiery, punchy writing style, which is occasionally laced with humor, makes it hard to put down." —The Georgia Straight

SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 73-page guide for "No Logo" by Naomi Klein includes detailed chapter summaries and analysis covering 18 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content includes commentary on major characters, 25 important quotes, essay topics, and key themes like Branding, Marketing, and Advertising and Capitalism and Globalization.

A stunningly original and timely collection that makes the case for "socialism, American style" It's a strange day when a New York Times conservative columnist is forced to admit that the left is winning, but as David Brooks wrote recently, "the American left is on the cusp of a great victory." Among Americans under thirty, 43 percent had a favorable view of socialism, while only 32 percent had a favorable view of capitalism. Not since the Great Depression have so many Americans questioned the fundamental tenets of

capitalism and expressed openness to a socialist alternative. *We Own the Future: Democratic Socialism—American Style* offers a road map to making this alternative a reality, giving readers a practical vision of a future that is more democratic, egalitarian, inclusive, and environmentally sustainable. The book includes a crash course in the history and practice of democratic socialism, a vivid picture of what democratic socialism in America might look like in practice, and compelling proposals for how to get there from the age of Trump and beyond. With contributions from some of the nation's leading political activists and analysts, *We Own the Future* articulates a clear and uncompromising view from the left—a perfectly timed book that will appeal to a wide audience hungry for change.

Table of Contents
Part I: Is a New America Possible?
Introduction Kate Aronoff, Peter Dreier, and Michael Kazin
How Socialists Changed America Peter Dreier and Michael Kazin
Toward a Third Reconstruction Andrea Flynn, Susan Holmberg, Dorian Warren, and Felicia Wong
A Three-Legged Stool for Racial and Economic Justice Darrick Hamilton
Democratic Socialism for a Climate-Changed Century Naomi Klein
Part II: Expanding Democracy
Governing Socialism Bill Fletcher Jr.
We the People: Voting Rights, Campaign Finance, and Election Reform J. Mijin Cha
Confronting Corporate Power Robert Kuttner
Building the People's Banks David Dayen
Democracy, Equality, and the Future of Workers Sarita Gupta, Stephen Lerner, and Joseph A. McCartin
Who Gets to Be Safe? Prisons, Police, and Terror Aviva Stahl
On Immigration: A Socialist Case for Open Borders Michelle Chen
On Foreign Policy: War from Above, Solidarity from Below Tejasvi Nagaraja
Part III: The Right to a Good Life
Livable Cities Thomas J. Sugrue
What Does Health Equity Require? Racism and the Limits of Medicare for All Dorothy Roberts
The Family of the Future Sarah Leonard
Defending and Improving Public Education Pedro Noguera
Reclaiming Competition: Sports and Socialism David Zirin
What About a Well-Fed Artist? Imagining Cultural Work in a Democratic Socialist Society Francesca Fiorentini
How Socialism Surged, and How It Can Go Further Harold Meyerson
Afterword: A Day in the Life of a Socialist Citizen Michael Walzer

"This is the roadmap out of climate crisis that Canadians have been waiting for." — Naomi Klein, activist and New York Times bestselling author of *This Changes Everything* and *The Shock Doctrine*

- One of Canada's top policy analysts provides the first full-scale blueprint for meeting our climate change commitments
- Contains the results of a national poll on Canadians' attitudes to the climate crisis
- Shows that radical transformative climate action can be done, while producing jobs and reducing inequality as we retool how we live and work.
- Deeply researched and targeted specifically to Canada and Canadians while providing a model that other countries could follow

Canada needs to reduce its greenhouse gas emissions by 50% to prevent a catastrophic 1.5 degree increase in the earth's average temperature — assumed by many scientists to be a critical "danger line" for the planet and human life as we know it. It's 2020, and Canada is not on track to meet our targets. To do so, we'll need radical systemic change to how we live and work—and fast. How can we ever achieve this? Top policy analyst and author Seth Klein reveals we can do it now because we've done it before. During the Second World War, Canadian citizens and government remade the economy by retooling factories, transforming their workforce, and making the war effort a common cause for all Canadians to contribute to. Klein demonstrates how wartime thinking and community efforts can be repurposed today for Canada's own Green New Deal. He shares how we can create jobs and reduce inequality while tackling our climate obligations for a climate neutral—or even climate zero—future. From enlisting broad public support for new economic models, to job creation through investment in green infrastructure, Klein shows us a bold, practical policy plan for Canada's sustainable future. More than this: *A Good War* offers a remarkably hopeful message for how we can meet the defining challenge of our lives. COVID-19 has brought a previously unthinkable pace of change to the world—one which demonstrates our ability to adapt rapidly when we're at risk. Many recent changes are what Klein proposes in these very pages. The world can, actually, turn on a dime if necessary. This is the blueprint for how to do it.

Two top business professors offer up the only negotiation book you'll ever need Do you know what you want? How can you make sure you get it? Or rather, how can you convince others to give it to you? Almost every interaction involves negotiation, yet we often miss the cues that would allow us to make the most of these exchanges. In *Getting (More of) What You Want*, Margaret Neale and Thomas Lys draw on the latest advances in psychology and behavioral economics to provide new strategies for negotiation that take into account people's irrational biases as well as their rational behaviors. Whether you're shopping for a car, lobbying for a raise, or simply haggling over who takes out the trash, *Getting (More of) What You Want* shows how negotiations regularly leave significant value on the table—and how you can claim it.

Entrepreneur's 12 Productivity and Time-Management Books to Read
"I'm won over to a day with people, not screens....I tried Shlain's idea. I highly recommend it." —The New York Times
"Tiffany Shlain is a modern-day prophet, brilliant and incredibly funny in equal measure...24/6 is timeless and timely wisdom." — Angela Duckworth, #1 New York Times bestselling author
This "wise, wonderful work" (Publishers Weekly starred review) demonstrates how turning off screens one day a week can work wonders on your brain, body, and soul. Do you wish you had more time to do what you love, think deeply, and focus on the people and things that matter most? By giving up screens one day a week for over a decade, Internet pioneer and renowned filmmaker Tiffany Shlain and her family have gained more time, productivity, connection, and presence. Shlain takes us on a thought-provoking and entertaining journey through time and technology, introducing a strategy for flourishing in our 24/7 world. Drawn from the ancient ritual of Shabbat, living 24/6 can work for anyone from any background. With humor and wisdom, Shlain shares her story, offering the accessible lessons she has learned and providing a blueprint for how to do it yourself. "Bolstered with fascinating and germane facts about neuroscience, philosophy, psychology, and the history of the concept of a day of rest" (Publishers Weekly), *24/6* makes the case for incorporating this weekly reset into our 24/7 lives, issuing a call to rebalance ourselves and our society.

Featuring contributions from Naomi Klein, Jeremy Scahill, Keeanga-Yamahtta Taylor, Anand Gopal, and Owen Jones. The five essential speeches presented here are taken from *The Anti-Inauguration*, held on inauguration night 2017 at the historic Lincoln Theatre in Washington, D.C. The *Anti-Inauguration* event and ebook are joint projects of Jacobin, Haymarket Books and Verso Books.

"It concludes with some key observations for successful brand owners of the future, and will be essential reading for anyone interested in the future of brands and branding."--BOOK JACKET.

In twenty short books, Penguin brings you the classics of the environmental movement. In *Hot Money* Naomi Klein lays out the evidence that deregulated capitalism is waging war on the climate, and shows that, in order to stop the damage, we must change everything we think about how our world is run. Over the past 75 years, a new canon has emerged. As life on Earth has become irrevocably altered by humans, visionary thinkers around the world have raised their voices to defend the planet, and affirm our place at the heart of its restoration. Their words have endured through the decades, becoming the classics of a movement. Together, these books show the richness of environmental thought, and point the way to a fairer, saner, greener world.

A primer on Democratic Socialism for those who are extremely skeptical of it. America is witnessing the rise of a new generation of socialist activists. More young people support socialism now than at any time since the labor movement of the 1920s. The Democratic Socialists of America, a big-tent leftist organization, has just surpassed 50,000 members nationwide. In the fall of 2018, one of the most influential congressmen in the Democratic Party lost a primary to Alexandria Ocasio-Cortez, a 28-year-old socialist who had never held office before. But what does all this mean? Should we be worried about our country, or should we join the march toward our bright socialist future? In *Why You Should Be a Socialist*, Nathan J. Robinson will give readers a primer on twenty-first-century socialism: what it is, what it isn't, and why everyone should want to be a part of this exciting new chapter of American politics. From the heyday of Occupy Wall Street through Bernie Sanders' 2016 presidential campaign and beyond, young progressives have been increasingly drawn to socialist ideas. However, the movement's goals need to be defined more sharply before it can effect real change on a national scale. Likewise, liberals and conservatives will benefit from a deeper understanding of the true nature of this ideology, whether they agree with it or not. Robinson's charming, accessible, and well-argued book will convince even the most skeptical readers of the merits of socialist thought.

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, *THE COMMANDING HEIGHTS* shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

Discusses how the Internet has made it more confusing to discern fact from fiction, and how those in powerful positions use their authority to control the release of information and corrupt its content.

For decades, a secret army of tax attorneys, accountants and wealth managers has been developing into the shadowy Wealth Defence Industry. These 'agents of inequality' are paid millions to hide trillions for the richest 0.01%. In this book, inequality expert Chuck Collins, who himself inherited a fortune, interviews the leading players and gives a unique insider account of how this industry is doing everything it can to create and entrench hereditary dynasties of wealth and power. He exposes the inner workings of these "agents of inequality", showing how they deploy anonymous shell companies, family offices, offshore accounts, opaque trusts, and sham transactions to ensure the world's richest pay next to no tax. He ends by outlining a robust set of policies that democratic nations can implement to shut down the Wealth Defence Industry for good. This shocking exposé of the insidious machinery of inequality is essential reading for anyone wanting the inside story of our age of plutocratic plunder and stashed cash.

Fences and Windows: Dispatches from the Front Lines of the Globalization Debate brings together two years of Naomi Klein's writings and tracks the globalization conflict from Seattle to September 11th and beyond. Since the publication of *No Logo*, Naomi Klein has continued tirelessly as a brilliant and informed contributor to contemporary debate.

Fences and Windows: Dispatches from the Front Lines of the Globalization Debate, intended as a companion to *No Logo*, includes her most notable essays, speeches and articles on issues from NAFTA to Genetically Modified Organisms to the violence in Genoa. It offers introduction and explanation, looking at where the movement has come from and where it is going. More than any other single voice, Naomi Klein articulates the concerns and complaints of a generation: about economic fundamentalism, the criminalization of dissent and the effects of Free Trade. But this book also reflects on the nature of resistance: the street protests that shocked and energized millions, carnival-style subversion and the apparent disorganization that is anti-globalization's great strength. *Fences and Windows: Dispatches from the Front Lines of the Globalization Debate* is provocative, intelligent and passionate, a document, in its own right, of a unique time in our history.

Taking aim at the brand bullies.

How does a blatant lying in TV commercials—like Joe Isuzu's manic claims—create public trust in a product or a company? How does a company associated with a disaster, Exxon or Du Pont for example, restore its reputation? What is the real story behind the rendering of the now infamous Joe Camel? And what is the deeper meaning of living in an ad, ad, ad world? For a decade, journalist Leslie Savan has been exposing the techniques used by advertisers to push products and pump up corporate images. In the lively essays in this collection, Savan penetrates beneath the slick surfaces of specific ads and marketing campaigns to show how they reflect and shape consumer desires. Savan's interviews with ad agencies and corporate clients—along with her insightful analyses of influential TV spots—reveal how successful advertising works. Ads do more than command attention. They are signposts to the political, cultural, and social trends that infiltrate the individual consumer's psyche. Think of the products associated with corporate mascots—the drum-beating bunny, the cereal-pushing tiger, the doughboy—that have become pop culture icons. Think cool. Think of the clothing manufacturer that uses multiracial imagery. Think progressive. Buy their worldview, buy their product. When virtually every product can be associate with some positive self-image, we are subtly refashioned into the advertiser's concept of a good citizen. Like it or not, we lead "the sponsored life."

"[A] uniquely inclusive perspective that will inspire conviction, passion, and action." —Kirkus Reviews (starred review) An empowering, engaging young readers guide to understanding and battling climate change from the expert and bestselling author of *This Changes Everything* and *On Fire*, Naomi Klein. Warmer temperatures. Fires in the

Amazon. Superstorms. These are just some of the effects of climate change that we are already experiencing. The good news is that we can all do something about it. A movement is already underway to combat not only the environmental effects of climate change but also to fight for climate justice and make a fair and livable future possible for everyone. And young people are not just part of that movement, they are leading the way. They are showing us that this moment of danger is also a moment of great opportunity—an opportunity to change everything. Full of empowering stories of young leaders all over the world, this information-packed book from award-winning journalist and one of the foremost voices for climate justice, Naomi Klein, offers young readers a comprehensive look at the state of the climate today and how we got here, while also providing the tools they need to join this fight to protect and reshape the planet they will inherit.

The bestselling author of *No Logo* shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq. In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. *The Shock Doctrine* retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

Cómo pasó Bill Gates de trabajar en un garaje a convertirse en un magnate mundial? ¿Por qué el nombre de Nike suele identificarse con el trabajo clandestino y la explotación laboral? ¿Por qué algunas de las marcas más respetadas del mundo se están viendo acosadas por virulentas campañas en su contra? ¿Qué significa todo esto en el contexto del marketing actual y de la globalización? ¿Y qué nos dice sobre el futuro de nuestras comunidades y del mundo en que vivimos? Este libro es, a partes iguales, fruto de la investigación periodística y de la observación de nuestro entorno comercial. Su misión, en principio, es explicar la irritación que amplios sectores de la sociedad están empezando a sentir contra las grandes marcas, así como demostrar que las multinacionales han militarizado a sus oponentes. Pero, de paso, nos invita a un periplo fascinante: desde las más lujosas tiendas de ropa de las grandes ciudades a ciertos talleres de Indonesia en los que el trabajo se convierte en degradación, desde los grandes centros comerciales estadounidenses hasta los cuarteles de los activistas que atentan contra las vallas publicitarias o de los piratas informáticos que han declarado la guerra a las multinacionales que violan los derechos humanos en Asia. A través de un enfoque lúcido y honesto, Naomi Klein desenmascara a la llamada "nueva economía" y desvela el modo en que ha incumplido todas sus promesas. Y para ello no sólo utiliza anécdotas siempre provocativas y a menudo hilarantes, sino que también nos descubre minuciosamente las razones de ese nuevo activismo contra las grandes empresas, un movimiento a escala mundial que ya se está convirtiendo en una verdadera fuerza sociopolítica con la que habrá que empezar a contar.

Key Ideas From *No Logo* By Naomi Klein The increasing power of brands *No Logo* takes a look at how the power of brands has grown since the 1980s, and how companies have emphasized their brand image rather than their actual products. *No Logo* shows how this strategy has affected employees in both the industrial and the non-developed world. *No Logo* also introduces the reader to the activists and campaigners who are leading the fight back against multinationals and their brands. Who is it for? - Anyone who wants to understand why brands are so prevalent in modern society- Anyone who wonders how multinationals wield global power- Anyone who wants to learn how activists can fight back against the brands About the author Naomi Klein is an award-winning Canadian author and journalist who has written for various publications including the *New Statesman*, *The New York Times* and *Newsweek International*. Along with *No Logo*, which was shortlisted for the Guardian First Book Award, Klein also wrote *The Shock Doctrine: The Rise of Disaster Capitalism*.

Instant *New York Times* bestseller "Howard Zinn on acid or some bullsh*t like that." —Tim Heidecker The creators of the cult-hit podcast *Chapo Trap House* deliver a manifesto for everyone who feels orphaned and alienated—politically, culturally, and economically—by the lanyard-wearing Wall Street centrism of the left and the lizard-brained atavism of the right: there is a better way, the *Chapo Way*. In a guide that reads like "a weirder, smarter, and deliciously meaner version of *The Daily Show's* 2004 *America (The Book)*" (Paste), *Chapo Trap House* shows you that you don't have to side with either sinking ships. These self-described "assholes from the internet" offer a fully ironic ideology for all who feel politically hopeless and prefer broadsides and tirades to reasoned debate. Learn the "secret" history of the world, politics, media, and everything in-between that THEY don't want you to know and chart a course from our wretched present to a utopian future where one can post in the morning, game in the afternoon, and podcast after dinner without ever becoming a poster, gamer, or podcaster. A book that's "as intellectually serious and analytically original as it is irreverent and funny" (Glenn Greenwald, *New York Times* bestselling author of *No Place to Hide*) *The Chapo Guide to Revolution* features illustrated taxonomies of contemporary liberal and conservative characters, biographies of important thought leaders, "never before seen" drafts of Aaron Sorkin's *Newsroom* manga, and the ten new laws that govern *Chapo Year Zero* (everyone gets a dog, billionaires are turned into Soylent, and logic is outlawed). If you're a fan of sacred cows, prisoners being taken, and holds being barred, then this book is NOT for you. However, if you feel disenfranchised from the political and cultural nightmare we're in, then *Chapo*, let's go...

This lucid introduction to the sociology of consumerism examines the relationship between production and consumption in late capitalist societies. The historical and theoretical discussion provides the student with the tools to examine key themes in the sociology of consumption. After a detailed historical overview of the advent of consumer society, Peter Corrigan examines theoretical accounts of consumption and consumer practice, including: Veblen and conspicuous consumption; Mary Douglas on the world of goods; Jean Baudrillard on the system of objects; and Pierre Bourdieu on cultural capital. This historical and theoretical discussion provides the student with the tools to examine key themes in the socio

Fearless necessary reporting . . . Klein exposes the ‘battle of utopias’ that is currently unfolding in storm-ravaged Puerto Rico” (Junot Díaz, author of *The Brief Wondrous Life of Oscar Wao*) “We are in a fight for our lives. Hurricanes Irma and María unmasked the colonialism we face in Puerto Rico, and the inequality it fosters, creating a fierce humanitarian crisis. Now we must find a path forward to equality and sustainability, a path driven by communities, not investors. And this book explains, with careful and unbiased reporting, only the efforts of our community activists can answer the paramount question: What type of society do we want to become and who is Puerto Rico for?” —Carmen Yulín Cruz, Mayor of San Juan, Puerto Rico In the rubble of Hurricane Maria, Puerto Ricans and ultrarich “Puertopians” are locked in a pitched struggle over how to remake the island. In this vital and startling investigation, bestselling author and activist Naomi Klein uncovers how the forces of shock politics and disaster capitalism seek to undermine the nation’s radical, resilient vision for a “just recovery.” All royalties from the sale of this book in English and Spanish go directly to JunteGente, a gathering of Puerto Rican organizations resisting disaster capitalism and advancing a fair and healthy recovery for their island. “Klein chronicles the extraordinary grassroots resistance by the Puerto Rican people against neoliberal privatization and Wall Street greed in the aftermath of the island’s financial meltdown, of hurricane devastation, and of Washington’s imposition of an outside control board over the most important U.S. colony.” —Juan González, cohost of *Democracy Now!* and author of *Harvest of Empire: A History of Latinos in America* *Essential Prosperity* is the ultimate collection of classic teachings on wealth and success from the mind of Napoleon Hill and others ...

By the time you're twenty-one, you'll have seen or heard a million advertisements. But you won't be happier for it. *No Logo* was a book that defined a generation, when it was first published in 1999. For its 10th anniversary, Naomi Klein has updated this iconic book.

From the New York Times bestselling author of *If I Stay* Allyson Healey's life is exactly like her suitcase—packed, planned, ordered. Then on the last day of her three-week post-graduation European tour, she meets Willem. A free-spirited, roving actor, Willem is everything she's not, and when he invites her to abandon her plans and come to Paris with him, Allyson says yes. This uncharacteristic decision leads to a day of risk and romance, liberation and intimacy: 24 hours that will transform Allyson's life. A book about love, heartbreak, travel, identity, and the “accidents” of fate, *Just One Day* shows us how sometimes in order to get found, you first have to get lost. . . and how often the people we are seeking are much closer than we know. The first in a sweepingly romantic duet of novels. Willem's story—*Just One Year*—is coming soon!

A set of tools for mastering the one skill standing between us and success: the ability to ask for the things we need to succeed. Imagine you're on a deadline for a big project, and feeling overwhelmed. Or you're looking for a job, but can't seem to get your foot in the door. Or you're dying for tickets to a sold out concert, and all your leads have gone cold. What do these problems have in common? They can all be solved simply by reaching out to a colleague, friend, or wider network and making an ask. Studies show that asking for help makes us better and less frustrated at our jobs. It helps us find new opportunities and new talent. It unlocks new ideas and solutions, and enhances team performance. And it helps us get the things we need outside the workplace as well. And yet, we rarely give ourselves permission to ask. Luckily, the research shows that asking—and getting—what we need is much easier than we tend to think. Here, Wayne Baker shares a set of strategies—used at companies like Google, GM, and IDEO—that individuals, teams, and leaders can use to make asking for help a personal and organizational habit, including: • A quiz to identify your asking-giving style • SMART criteria for who, when, and how to ask • “Plug-and-play ” routines that make requests a standard component of meetings • Mini-games that incentivize asking within teams • The Reciprocity Ring, a guided activity that allows people to tap into the giving power of a network Picking up where the bestselling book *Give and Take* left off, *All You Have to Do Is Ask* shows us how to ignite the cycle of giving and receiving by asking for the things we need. Advance praise for *All You Have to Do Is Ask* “Asking for help and support has been a key to my success. Wayne Baker expertly shares how everyone can do it.”—Shellye Archambeau, former CEO, MetricStream, and board director, Verizon and Nordstrom “Wayne Baker shares the formula for driving personal, organizational, and social change by tapping the power of our teams and networks for help. This insightful book is a must-read for anyone seeking practical and proven solutions to make our workplaces and world a better place.”—Noel Tichy, professor, University of Michigan, and author of *Judgment and Control Your Destiny or Someone Else Will*

Examines the formidable challenges facing the middle class, calling for fundamental changes while surveying the extent of the problem and identifying the people and agencies most responsible.

Etat des lieux de la société de consommation, « No logo » analyse et dénonce les innombrables pratiques d'intrusion des marques au cœur de nos vies quotidiennes et expose les formes de résistance qui se mobilisent aujourd'hui pour combattre leur emprise prédatrice. Un best-seller mondial.

An analysis of the invasion of our personal lives by logo-promoting, powerful corporations combines muckraking journalism with contemporary memoir to discuss current consumer culture

The mega bestselling book that started the heaven publishing phenomenon is now a major motion picture starring Hayden Christensen and Kate Bosworth and produced by Michael Polish. Don Piper's

incredible true story continues to expand its reach to more people than ever before. After a semi-truck collided with Don Piper's car, he was pronounced dead at the scene. For the next ninety minutes, he experienced the glories of heaven. Back on earth, a passing minister felt led to stop and pray for the accident victim even though he was told Piper was dead. Miraculously, Piper came back to life, and the pleasure of heaven was replaced by a long and painful recovery. This special edition of Don's life-changing story includes a new preface from Don about the making of the movie, plus a personal update on the impact the book has had on him, his family, and the millions who have already heard his story. It also includes a note from the publisher, stories from readers, and Scriptures and quotations on heaven. Redefine the expectations for women in leadership roles with this #1 New York Times bestselling volume of inspiring advice by the former communications director for Barack Obama and Hillary Clinton. Framed as an empowering letter from former Hillary Clinton Communications Director Jennifer Palmieri to the first woman president, and by extension, to all women working to succeed in any field, Dear Madam President is filled with forward-thinking, practical advice for all women who are determined to seize control of their lives—from boardroom to living room. As a country, we haven't wrapped our heads around what it should look like for a woman to be in the job of President. Our only models are men. While wildly disappointed by the outcome of the 2016 election, Palmieri argues that our feelings—confusion, love, hate, acceptance—can now open the country up to reimagining women in leadership roles. And that is what Palmieri takes on in this book—redefining expectations for women looking to lead and creating a blueprint for women candidates and leaders to follow. Dear Madam President will turn the results of the 2016 election into something incredibly empowering for graduates, future female leaders, and independent thinkers everywhere.

An urgent plan to confront climate change, transform the American economy, and create a green post-fossil fuel culture. A new vision for America's future is quickly gaining momentum. Facing a global emergency, a younger generation is spearheading a national conversation around a Green New Deal and setting the agenda for a bold political movement with the potential to revolutionize society. Millennials, the largest voting bloc in the country, are now leading on the issue of climate change. While the Green New Deal has become a lightning rod in the political sphere, there is a parallel movement emerging within the business community that will shake the very foundation of the global economy in coming years. Key sectors of the economy are fast-decoupling from fossil fuels in favor of ever cheaper solar and wind energies and the new business opportunities and employment that accompany them. New studies are sounding the alarm that trillions of dollars in stranded fossil fuel assets could create a carbon bubble likely to burst by 2028, causing the collapse of the fossil fuel civilization. The marketplace is speaking, and governments will need to adapt if they are to survive and prosper. In The Green New Deal, New York Times bestselling author and renowned economic theorist Jeremy Rifkin delivers the political narrative and economic plan for the Green New Deal that we need at this critical moment in history. The concurrence of a stranded fossil fuel assets bubble and a green political vision opens up the possibility of a massive shift to a post-carbon ecological era, in time to prevent a temperature rise that will tip us over the edge into runaway climate change. With twenty-five years of experience implementing Green New Deal-style transitions for both the European Union and the People's Republic of China, Rifkin offers his vision for how to transform the global economy and save life on Earth.

100 Best Non Fiction Books has its origins in the recent 2 year-long Observer serial which every week featured a work of non fiction). It is also a companion volume to McCrum's very successful 100 Best Novels published by Galileo in 2015. The list of books starts in 1611 with the King James Bible and ends in 2014 with Elizabeth Kolbert's The Sixth Extinction. And in between, on this extraordinary voyage through the written treasures of our culture we meet Pepys' Diaries, Charles Darwin's The Origin of Species, Stephen Hawking's A Brief History of Time and a whole host of additional works.

What is the Green New Deal and how can we afford it? To protect the future of life on earth, we need to do more than just reimagine the economy—we have to change everything. One of the seminal thinkers of the program that helped ignite the US Green New Deal campaign, Ann Pettifor explains how we can afford what we can do, and what we need to do, before it is too late. The Case for the Green New Deal argues that economic change is wholly possible, based on the understanding that finance, the economy and the ecosystem are all tightly bound together. The GND demands total decarbonization and a commitment to an economy based on fairness and social justice. It proposes a radical new understanding of the international monetary system. Pettifor offers a roadmap for financial reform both nationally and globally, taking the economy back from the 1%. This is a radical, urgent manifesto that we must act on now.
