

Prentice Hall Modern American History Edition

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*. This text provides in-depth balanced content covering the beginnings of U.S. history through the present.

This book reconfigures the history of modern America, showing how multiple and, at times, vulnerable social, economic, literary, and political movements, levels, divisions, and conditions such as the emergent middle class, the labor movement, the Progressive Movement, the socialist and communist parties, the Women's movements, the NAACP, the Garvey movement, Asian and Native American resistance movements, writers, artists, and intellectuals seized upon social, gender, economic, and racial inequalities and challenged a singularly defined modern America. This book re-represents the modern American novel, accenting the different critical literary voices that come out of the mainstream consumer society but also out of the various unequal social, economic, gender, and political movements and situations. In including racial, gender, sexual, colonial, class, and ethnic others—who reject the rigidity, the repression, the racial and ethnic stereotyping, the external and internal colonialism, the complication/rejection of the past/nature, and the violence of the institutionalized, conformist norm—in a discussion of the modern American novel, it effects a fundamental recasting of the modern Americanist paradigm, one that is de-centered, richer, more complex, and more diverse.
