Reggae is arguably one of the most influential music genres, with countless contemporary styles drawing on its rhythm. In this text, David Katz interviews over 100 of reggae's most important figures to speak of their roles in the music progression and discuss the music's wider impact.

Provides travel tips, recommended accommodations and restaurants, and background on New Zealand's culture and history.

The team of writer Chris Salewicz and photographer Adrian Boot have brought together 50,000 words of text and over 400 images from the ReggaeXplosion Archive to create a history that contains a potent cocktail of drama, turbulence, pride and protest. From the earliest emergence in the 1950s of the fiercely competitive sound systems, fighting sonic battles in downtown Kingston, the story of Jamaican music is traced through ska, the birth of reggae, dub, roots reggae and the impact of Bob Marley to the new, harder-edged developments that have emerged in the last twenty years, including dancehall, ragga and jungle.

Unpublished transcripts of interviews with key figures like Lee 'Scratch' Perry and Prince Buster introduce the authentic voices of reggae history to the book - which blends researched facts, graphics and rare images to create not only a sense of the pulse of the music, but also the contrasts of poverty, humour, desperation and joie de vivre that typify both the island of Jamaica and its music.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

The Rough Guide to Classical Music is the ideal handbook, spanning a thousand years of music from Gregorian chant via Bach and Beethoven to contemporaries such as Thomas Adès and Kaija Saariaho. The Great Escape for the Great War: the astonishing true story of two World War I prisoners who pulled off one of the most ingenious escapes of all time. "Fox unspools Jones and Hill's delightfully elaborate scheme in nail-biting episodes that advance like a narrative Rube Goldberg machine."—*The New York Times Book Review* Imprisoned in a remote Turkish POW camp during World War I, having survived a two-month forced march and a terrifying shootout in the desert, two British officers, Harry Jones and Cedric Hill, join forces to bamboozle their iron-fisted captors. To stave off despair and boredom, Jones takes a handmade Ouija board and fakes elaborate séances for his fellow prisoners. Word gets around, and one day an Ottoman official approaches Jones with a query: Could Jones contact the spirit world to find a vast treasure rumored to be buried nearby? Jones, a trained lawyer, and Hill, a brilliant magician, use the Ouija board—and their keen understanding of the psychology of deception—to build a trap for their captors that will ultimately lead them to freedom. A gripping nonfiction thriller, *The Confidence Men* is the story of one of the only known con games played for a good cause—and of a profound but unlikely friendship. Had it not been for "the Great War," Jones, the Oxford-educated son of a British lord, and Hill, a mechanic on an Australian sheep ranch, would never have met. But in pain, loneliness, hunger, and isolation, they formed a powerful emotional and intellectual alliance that saved both of their lives. Margalit Fox brings her "nose for interesting facts, the ability to construct a taut narrative arc, and a Dickens-level gift for concisely conveying personality" (Kathryn Schulz, *New York*) to this tale of psychological strategy that is rife with cunning, danger, and moments of high farce that rival anything in

Catch-22.
