Principles of Chemical Engineering Processes: Material and Energy Balances introduces the basic principles and calculation techniques used in the field of chemical engineering, providing a solid understanding of the fundamentals of the application of material and energy balances. Packed with illustrative examples and case studies, this book: Discusses problems in material and energy balances related to chemical reactors Explains the concepts of dimensions, units, psychrometry, steam properties, and conservation of mass and energy Demonstrates how MATLAB® and Simulink® can be used to solve complicated problems of material and energy balances Shows how to solve steady-state and transient mass and energy balance problems involving multiple-unit processes and recycle, bypass, and purge streams Develops quantitative problem-solving skills, specifically the ability to think quantitatively (including numbers and units), the ability to translate words into diagrams and mathematical expressions, the ability to use common sense to interpret vague and ambiguous language in problem statements, and the ability to make judicious use of approximations and reasonable assumptions to simplify problems This Second Edition has been updated based upon feedback from professors and students. It features a new chapter related to single- and multiphase systems and contains additional solved examples and homework problems. Educational software, downloadable exercises, and a solutions manual are available with qualifying course adoption.

After emerging from the long shadow cast by the Soviet Union, the Baltic states of Estonia, Latvia, and Lithuania and neighboring Poland transitioned from communism to market economies and instituted democratic reforms in a remarkably short time. Although each continues to contend with various economic and political issues, their successes have allowed them to become some of the few former Eastern bloc states to join the European Union. The journeys each country has made—from antiquity to the present—and the remarkable peoples and cultures that make their populations are the subjects of this captivating volume.

Heiress Amelia Barrett promises to raise her dying friend's infant baby, but when the baby is kidnapped, Amelia and Graham, the baby's father, must accept God's sovereignty so they can grasp the future he has for planned for them.

Fernando Castillo de la Torre and Eric Gippini Fournier, two of the most experienced competition litigators at the European Commission, undertake an in-depth analysis of the case law of the EU Courts on the rules of evidence, proof and judicial review, as they are applied in EU competition law. These topics often engage with fundamental rights, and the book takes stock of the most frequent criticisms that are made of the EU enforcement system and review by EU Courts. The result is an extremely thorough and well-structured review of the relevant rules of law and of the precedents. The authors combine valuable insights and

critical analysis to construct a definitive yet balanced portrayal of the state of EU competition law.

There was a time when magic was welcome in the country of Chahir, but that was nearly two centuries ago. Now, all forms of magic are strictly forbidden. Anyone caught using magic, or possessing magical abilities, are immediately imprisoned and executed. For Garth, that policy is a problem.As Garth approaches his sixteenth birthday, he realizes that he definitely has magical abilities. What's worse, he has no control over them. In order to stay alive, he only has one choice-he must leave his homeland, Chahir, and flee into the neighboring country, Hain. The journey isn't an easy one; he still has to make it out of Chahir without alerting anyone as to his abilities. What Garth doesn't know is that getting to Hain, and the Academy for All Magic, is going to be the easy part. Garth goes into Hain for one reason only; he wants training for his out-of-control magical powers. So how does he become a member of an exclusive magical clan known as the Jaunten; adopted by a magically enhanced colt; best friends with a gifted Witch; and foster brother of a four year old Mage? Let's just say he has a gift for finding trouble.

Chef Joe Randall and Toni Tipton-Martin showcase the rich heritage of African-American cooking in this authentic collection of 300 recipes. Drawn from Joe Randall's personal recipes, the book also includes recipes from chefs who have worked with Randall's A Taste of Heritage Foundation, including Edna Lewis and Patrick Clark. African-American cooking has evolved over more than 200 years to become a sophisticated and distinctive cuisine. More than just "soul food," African-American cuisine has become world class. Experience Catfish Stew with Cornmeal Dumplings, Southern Fried Quail, or Crepes with Country Fried Apples. Geared to the home cook, the recipes are also enhanced by a section of menus, complete with wine selections. The final section introduces readers to the stories and menus of the prominent African-American chefs who contributed to the book.

De tragische gebeurtenissen in Rwanda, Srebrenica en Kosovo hebben geleid0tot een herbezinning over de rol en verantwoordelijkheid van de internationale gemeenschap. In het beginsel Responsibility to Protect (R2P), dat in 2005 door de wereldleiders werd omarmd, hebben individuele staten nog steeds de primaire verantwoordelijkheid voor de bescherming van hun inwoners. Maar als ze die verantwoordelijkheid niet kunnen of willen nemen, komt de verantwoordelijkheid bij de internationale gemeenschap te liggen. R2P heeft de ambitie om herhaling van Rwanda, Srebrenica en Kosovo te voorkomen, maar er bestaat nog grote onduidelijkheid over inhoud en potentieel van dit beginsel. Deze bundel verkent R2P als moreel, politiek en juridisch beginsel en onderzoekt hoe de Verenigde Naties, de Europese Unie, individuele staten en NGO's R2P kunnen gebruiken om ernstige mensenrechtenschendingen te voorkomen.

Excerpt from Dry Stories When Anne Winter looked down at the face of her first-born, she felt that motherhood was the supreme event of a woman's existence. She had been a clever artist in her time; had painted some pictures that people talked of noisily, had decorated the ceiling of a big church in a big town, and done a portrait in oil of one of the ladies of the cabinet. But on a certain January morning all this seemed mere nothingness to the light touch of tiny pink fingers like a drift of rose leaves on her breast. The babe had wailed because it had come into this big, brutal world, and when she had hushed its wailing, it seemed to her that she, Anne Winter, for the first time counted for something in this world. For the first time, she was. a real factor in the history of humanity. Her psychic senses seemed so quickened that the simplest things had a new significance, and everything in earth or heaven circled about that infant's head. By quadrupling the number of people behind bars in two decades, the United States has become the world leader in incarceration. Much has been written on the men who make up the vast majority of the nation's two million inmates. But what of the women they leave behind? Doing Time Together vividly details the ways that prisons shape and infiltrate the lives of women with husbands, fiancés, and boyfriends on the inside. Megan Comfort spent years getting to know women visiting men at San Quentin State Prison, observing how their romantic relationships drew them into contact with the penitentiary. Tangling with the prison's intrusive scrutiny and rigid rules turns these women into "quasi-inmates," eroding the boundary between home and prison and altering their sense of intimacy, love, and justice. Yet Comfort also finds that with social welfare weakened, prisons are the most powerful public institutions available to women struggling to overcome untreated social ills and sustain relationships with marginalized men. As a result, they express great ambivalence about the prison and the control it exerts over their daily lives. An illuminating analysis of women caught in the shadow of America's massive prison system, Comfort's book will be essential for anyone concerned with the consequences of our punitive culture.

An astoundingly clear adaptation of Tanya, one of the most influential works of Jewish spiritual thought ever written, penned by Chasidic Rebbe, Rabbi Shneur Zalman of Liadi (1745-1812).

Growing from tiny tadpoles to massive master jumpers, frogs and their life cycles are fascinating. How far can frogs jump? Why do their eggs look slimy? Answer these questions and many more in this illustrated introduction to amphibians. With her signature bright, well-labeled diagrams and simple text, Gail Gibbons introduces the habitat and life cycles of frogs and gives an overview of common frog behaviors. Important biology vocabulary is introduced, defined, and reinforced with kid-friendly language and clear illustrations--plus a page of intriguing frog trivia and clear diagrams that show how frogs are different from toads. Bonus material is included about the unique role frogs play in the environment.

First it was the Bloodhound, sensationalized in the dramatizations of Uncle Tom's Cabin. Then it was the Doberman, symbol of the Nazi menace. Today, it is the Pit bull that is vilified for the depravity of his masters. Today, police chase down fleeing Pit bulls in

the street, firing dozens of wild shots in response to media-fed rumors of supernatural Pit bull abilities. Politicians coach and nurture this fear with their own brand of rhetoric used to assist in the passing of quick and ineffective legislation created to pacify communities ignorant of the real cause for dog attacks. Hundreds of animal shelters throughout the country kill all unclaimed Pit bull-looking dogs, as they are deemed "unadoptable" solely on their physical appearance. This has occurred because the human/dog bond, the most complex and profound inter-species relationship in the history of mankind, has been reduced to a simple axiom: Breed of dog = degree of dangerousness. We have come to accept that hanging entire breeds of dogs in effigy for the sins of their owners is an acceptable solution to canine aggression because we have been placated by a Pit Bull Placebo. Like the pharmacologically inactive sugar pill dispensed to pacify a patient who supposes it to be medicine, eradication of the Pit bull is the placebo administered to ease the public's anxiety about dog attacks. The book, The Pit Bull Placebo: The Media, Myths and Politics of Canine Aggression, explores how our views and beliefs about canine aggression have changed over the last 150 years and how our perceptions about the nature and behavior of dogs has been influenced by persons and organizations who often times disseminate information about dog attacks which is tailored to further an agenda unrelated to the improvement of the human/dog bond. We are in the midst of a social hysteria about Pit bulls because we have abandoned centuries-old common-sense and have been duped by inaccurate reporting from the "Pit Bull Paparazzi" and by politicians who traffic in rumors, myths and pseudoscience in their efforts to pass legislation that demonizes dogs while exonerating criminal and abusive owners. If we truly believe that the extremely rare cases of fatal dog attacks merit extreme measures in the management of dogs, if our concern and shock is genuine, then we must be equally genuine and sincere in seeking out and addressing the real causes for these incidents. Only by stepping back from the swirl of present-day hysteria surrounding isolated cases of severe canine aggression and examining the problem from a broader and more objective perspective can we hope to understand and address the human and canine behaviors which contribute to these incidents.

Competition law has witnessed phenomenal growith in in recent years, especially since the early 1990s. As an increasing number of countries have undertaken economic reforms and embraced the market economy, many of them have introduced competition law to maintain competition in their markets.With the growing integration of the global economy, any anti-competitive activity can have effects across national borders. Competition law has, therefore, become an important part of international trade dialogue. Cooperation on competition issues, therefore, figures in an increasing number ofbilateral or regional trade agreements. The book provides an overview of the competition law regime with particular focus on India. It broadly covers the history, objectives, and substantive provisions of law, its relationship with regulated sectors of the market, the economics of law, its international dimension, and competition law indeveloping countries. The second edition provides an updated account of law and incorporates changes that have taken place since the publication of the first edition. It includes two new chapters: "Reviewing Competition Regime in Pakistan" and "Merger Control Regime under the Competition Law inIndia".

New York Times bestselling author and Printz Award winner Walter Dean Myers once again connects with teenagers everywhere

in Darius & Twig, a novel about friendship and needing to live one's own dream. This touching and raw teen novel from the author of Monster, Kick, We Are America, Bad Boy, and many other celebrated literary works for children and teens is a Coretta Scott King Honor Book. Darius and Twig are an unlikely pair: Darius is a writer whose only escape is his alter ego, a peregrine falcon named Fury, and Twig is a middle-distance runner striving for athletic success. But they are drawn together in the struggle to overcome the obstacles that life in Harlem throws at them. The two friends must face down bullies, an abusive uncle, and the idea that they'll be stuck in the same place forever. Maria Russo, writing in the New York Times, included Darius & Twig on her list of "great kids' books with diverse characters." She commented: "The late Myers, one of the greats and a champion of diversity in children's books well before the cause got mainstream attention, is at his elegant, heartfelt best in this 2013 novel. It's about two friends growing up in Harlem, one a writer, one an athlete, facing daily challenges and trying to dream of a brighter future."

Since the reform and opening up of China in 1978, Western literary criticism has begun to flourish and gain in popularity within the country's academic Literature community. These two volumes meticulously select and examine nine of the most influential keywords from Western literary theory while identifying the intricate historical sources of these terms and analyzing their relevance to other disciplines and ideas. The result shows how these words function as heterogeneous cultural contexts in the complexity of experience but also how they function within the context of Chinese culture as well as Chinese literature and criticism. In this volume, the editors focus on metaphor, the other, ideology and the body from the perspectives of etymology, documentation, meanings and other core factors. Students of literature and languages, and especially Chinese literature, will benefit from this two-volume set.

Luanne and her husband share a dream of living a simple life in the beautiful Vermont countryside. They stumble through building their own log home, gathering sap to make real maple syrup, and filling their little farm with animals. But these middle-aged homesteaders soon discover that their piece of paradise isn't without challenges. • The dog has separation anxiety. • The goose is afraid of water. • There's a fox in the pigpen and raccoons in the hen house. • Their homesick donkey cries all night. • And their truck has slipped into the pond. And from there, things only get worse! Drawing upon a lifetime of meaningful relationships with animals, Luanne finds the courage to persevere. And when desperate circumstances threaten all that she's worked for, Luanne discovers strength in a most surprising place. Heart to Heart, Hand in Paw is a true tale of faith and the healing bonds of animals. Luanne's story shares how our pets can love, comfort and teach us as we take our own journey through life.

From the USA Today bestselling author of Midnight Captive, the latest Killer Instincts novel is "off-the-charts-hot"* romantic suspense that takes readers into the heart of an enigmatic mercenary... Out of all the stone-cold mercenaries in Jim Morgan's black ops organization, Derek "D" Pratt is the most intimidating. D's been off the grid for years, but after his teammate Sullivan is mistakenly captured in his place, D is forced to come out of hiding and face his demons. When D lands in Mexico, he's ready to risk everything to save his friend. To complicate matters, Sofia Amaro, a feisty doctor whom D had a one-night stand with months ago,

has tracked him down. And in an instant she's unintentionally caught up in his life-threatening rescue mission. Now D must extract not one but two people from the most violent world he's ever encountered. And one of them is carrying his child...

"Major Jim Gant, a man seen by many of us as the 'perfect insurgent,'--an inspiring, gifted, courageous leader... -- GENERAL DAVID H. PETRAEUS (U.S. Army, Ret.) THE PAPER THAT ROCKED OSAMA BIN LADEN Team members during the May 2, 2011 U.S. military raid that killed Osama Bin Laden seized piles of Al Qaeda intelligence. One piece of evidence found in Bin Laden's personal sleeping quarters was an English language copy of Jim Gant's One Tribe at a Time. It contained notes in the margins consistent with others identified as written by Osama Bin Laden. A directive from Osama Bin Laden to his intelligence chief was also discovered. It identified Jim Gant by name as an impediment to Al Qaeda's operational objectives for eastern Afghanistan. Bin Laden ordered that Gant be assassinated. "[One Tribe at a Time] was hugely important...at a time when I was looking for ideas on Afghanistan...[Gant] was the first to write it down, in a very coherent fashion, very readable, very encouraging frankly...and there is enormous power in that." --General David H. Petraeus (U.S. Army, Ret.) quoted in American Spartan: The Promise, The Mission, and The Betrayal of Special Forces Major Jim Gant by Ann Scott Tyson Washington Post reporter Ann Scott Tyson read "One Tribe at a Time," and - informed by her combat experience in Afghanistan and Iraq and her eight years as a reporter in China - she realized that Jim's paper made sense. She decided to write a story about Jim entitled, "Jim Gant, the Green Beret who could win the war in Afghanistan." After the article appeared in January 2010, as Jim was in Washington, D.C., attending Pashto language training, he met Ann and the two fell in love. She followed his mission in Afghanistan and wrote AMERICAN SPARTAN: The Promise, the Mission, and the Betrayal of Special Forces Major Jim Gant.
