QUANTUM COMPUTERS IN COMBAT FOR THE WORLD! This book is the second in a series, picking up from the harrowing action within COVERT CATASTROPHE. Oakland Paramedic Jim Sanderson continues with the Navy Seals, his father Dr. Kepple, Physicist Judy and Justine, and his new bride Laura. Traveling beneath the world's oceans aboard a sentient, artificially intelligent submarine in the form of a 300-foot manta ray, they continue their quest to destroy a group of AQCs (Adiabatic Quantum Computers) networked into CERN and the LHC (Large Hadron Collider). New secret technologies of their own design along with improvised tactics are merged with Jim and Laura's newly realized quantum entanglement. Each now linked to their personal quantum computers, they must destroy the AQCs before the LHC opens a portal into another dimension, an act designed to terraform planet Earth for a new race of beings hell-bent upon entering our world.

Almost a hundred years ago, a major terrestrial event reshaped the earth's coastlines. Goodbye entire cities. Goodbye entire states. Goodbye entire countries. And when the authorities outlawed salvaging from these sunken sites, why say hello to a new breed of criminal: underwater reclamation specialists. Even a hundred years later, there's still a whole lot of loot for the reclaiming. Bosses are dead. Her father kidnapped. And no one has a clue why. Isa, Puo, and Winn rush back to her father's estate for answers, but only finds guns, assassins, and relentless pursuit. Forced into a desperate escape, Isa must retreat further into her past to stay alive. Dejected and back in the miserable gutters she started from, Isa starts to piece together the disparate events of the past several months. Unfortunately, the trail leads back to England, the site of the most daring underwater heist in history and a buzzing hive of pissed off Brits clamoring for the thieves throats. Confused and on the run for their lives, Isa must unravel the unthinkable: Cleaners declaring open war. More than just their own lives depend on it. Sunken City Capers is a fun post-apocalyptic series with no zombies, just criminals and mischievous ne'er-do-wells. Fans of heist novels/movies and strong female protagonists will likely enjoy this series. Sunken City Capers Books: The Solid-State Shuffle, Book 1 The Elgin Deceptions, Book 2 Leverage, Book 3 The Brummie Con, Book 4 Book 5 Coming Soon!

Through his work in motion pictures, Lloyd Bridges appreciated the impact of skin diving upon this medium and presented an exciting picture of future possibilities in underwater photography. The author's role in Sea Hunt made him keenly aware of the revolution developing in the fields of salvage diving, treasure hunting, search and rescue, science, gold mining, and other virgin areas open to skin divers with imagination and enterprise. He described methods, techniques, and tools already in use and gave an exciting glimpse of future possibilities. First published in 1960, here is the complete story of skin diving as an exciting new field for fun, adventure, and opportunity open to millions of average swimmers. Those who are willing to accept the challenge of exploring and conquering a new world can benefit from past mistakes and the accumulation of experience by early skin divers; and perhaps become tomorrow's pioneers who have yet to conquer the problems of great depths and reap the harvest on the bottom of the sea.

Strategic disruptors in companies and economies, including blockchain technology, big data, and artificial intelligence, can contribute to the creation of new business opportunities, jobs, and growth. Research is needed on the impacts of these disruptors in Asia, as well as analyses on new business ecosystems and policy implications. *Global Challenges and Strategic Disruptors in Asian Businesses and Economies* presents a rich collection of chapters that explore and discuss the state of the art, emerging topics, challenges, and success factors in business, big data, innovation, and technology in Asia. The book explores how the internet of things, big data, and artificial intelligence can provide solutions for global challenges and companies. Including topics on digital economy, strategic management, and information technologies, this book is ideal for managing directors, general managers, corporate heads of firms, politicians, executives, entrepreneurs, academicians, decision makers, policymakers, researchers, and students looking to enhance their understanding and collaboration in business, disruptive innovation, and technology in Asia.

They called it the Eighth Wonder of the World. For more than two hundred years, the world marveled at the fabled Amber Room. And then came the Nazis. Since the second World War, one of the world's most magnificent lost treasures has lain hidden, and it's up to Navy SEALs Dane Maddock and "Bones" Bonebrake to find it again. Joined by Zara Leopov, their squad must follow the trail of clues from history in a perilous, action-packed race to find a treasure and unlock a deadly secret hidden in AMBER. Praise for David Wood and the Dane Maddock Adventures "Dane and Bones.... Together they're unstoppable. Rip roaring action from start to finish. Wit and humor throughout. Just one question - how soon until the next one? Because I can't wait." Graham Brown, author of *Shadows of the Midnight Sun* "What an adventure! A great read that provides lots of action, and thoughtful insight as well, into strange realms that are sometimes best left unexplored." Paul Kemprecos, author of *Cool Blue Tomb* and the *NUMA Files* "A page-turning yarn blending high action, Biblical speculation, ancient secrets, and nasty creatures. Indiana Jones better watch his back!"—Jeremy Robinson, author of *SecondWorld* "With the thoroughly enjoyable way Mr. Wood has mixed speculative history with our modern day pursuit of truth, he has created a story that thrills and makes one think beyond the boundaries of mere fiction and enter the world of 'why not?'" --David Lynn Golemon, Author of *Ancients*, *Event*, *Legend*, and *Leviathan* "A twisty tale of adventure and intrigue that never lets up and never lets go!" --Robert Masello, author of *Bestiary* and *Blood and Ice* "Let there be no confusion: David Wood is the next Clive Cussler. Once you start reading, you won't be able to stop until the last mystery plays out in the final line." Edward G. Talbot, author of *2012: The Fifth World* "I like my thrillers with lots of

explosions, global locations and a mystery where I learn something new. Wood delivers! Recommended as a fast paced, kick ass read." J.F. Penn, author of Desecration

This volume follows and updates AN ANNOTATED BIBLIOGRAPHY ON DIVING AND SUBMARINE MEDICINE published by Gordon and Breach, Science Publishers, Inc., in 1971. The time period covered is primarily the calendar years 1970 and 1971. Also included, however, is much material from the calendar years 1968 and 1969 not in the previous publication. A brief analysis of the sources of material precedes the citations and abstracts, which comprise the main section of the volume. The bibliography is followed by a permuted subject index and an author index. Also included, following the indexes, is a micro thesaurus. Although no attempt has been made to do a critical subject analysis, such an analysis could be accomplished through selecting a particular subject, looking up the appropriate key works in the rotated index, identifying the abstracts, analyzing them, obtaining complete copy as desired, and completing the critical review. David C. Weeks, Ph.D. Director, BSCP Washington, D.C.

Several years ago, Lea Finn walked away from her big-city corporate career. She bought a Key West-style home in Bradenton, Florida, and spent her days kayaking, swimming, and lounging in a hammock. Her nights were filled with sizzling romance and tales of adventure in idyllic locations. And of course, a few hours of sleep! The only flaw in her newfound perfect lifestyle was the dead lady's house next door, or so she thought...KC Bradlow is a prominent attorney. He is known for his professionalism, eye for detail, and superior trial skills. The consensus according to the legal secretaries across Bradenton: he is an absolute and total hunk. The "grapevine" was usually focused on the hearsay of who he was or wasn't sleeping with at the moment. And KC, at times, liked to fuel the secretaries wagging tongues. Who better to help him with the speculations was none other than his sister and fellow attorney, Kristianna Romanoff? But there are some who are not interested in the exquisite but unattainable body of KC Bradlow. Rather, they could think of no greater pleasure than to wipe the smile from his beautiful face and end his perfect life...KC is a smart attorney. Can he figure out how to stop the destruction of everything he loves and holds dear to him before his time runs out?

A fascinating journey with the sea creature that has captured human imagination for thousands of years Poseidon's Steed trails the seahorse through secluded waters across the globe in a kaleidoscopic history that mirrors man's centuries-old fascination

with the animal, sweeping from the reefs of Indonesia, through the back streets of Hong Kong, and back in time to ancient Greece and Rome. Over time, seahorses have surfaced in some unlikely places. We see them immortalized in the decorative arts; in tribal folklore, literature, and ancient myth; and even on the pages of the earliest medical texts, prescribed to treat everything from skin complaints to baldness to flagging libido. Marine biologist Helen Scales eloquently shows that seahorses are indeed fish, though scientists have long puzzled over their exotic anatomy, and their very strange sex lives — male seahorses are the only males in the animal world that experience childbirth! Our first seahorse imaginings appeared six thousand years ago on cave walls in Australia. The ancient Greeks called the seahorse hippocampus (half-horse, half-fish) and sent it galloping through the oceans of mythology, pulling the sea god Poseidon's golden chariot. The seahorse has even been the center of a modern-day international art scandal: A two-thousand-year-old winged seahorse brooch was plundered by Turkish tomb raiders and sold to the Metropolitan Museum of Art in New York. A book that is as charming as the seahorse itself, *Poseidon's Steed* brings to life an aquatic treasure. Seahorses lead quiet lives, tucked away out of sight on the seafloor. It is rare to catch a glimpse of a seahorse in its natural habitat. But even if few have seen one live, these exotic, seemingly prehistoric creatures exist quite vividly in our imaginations and they have mesmerized scientists, artists, and storytellers throughout time with their otherworldly rarity. *Poseidon's Steed* is a sweeping journey that takes us from the coral reefs and seagrass meadows of Indonesia where many seahorses makes their natural habitat to the back streets of Hong Kong where a thriving black market seahorse trade is concealed. Throughout history, seahorses have surfaced in some unexpected places and Scales also follows the seahorse back in time, from our most rudimentary seahorse imaginings six thousand years ago on cave walls in Australia, to the myths of ancient Greece. Scientists have long puzzled over seahorses' unusual anatomy and their very strange sex lives. And male seahorses are the only males in the animal world that experience childbirth! Seahorses are not what scientists call a "keystone" species. They rely on a healthy ocean to survive, but the marine ecosystem does not rely on them. But their delicate beauty reminds us that we rely on the seas not only to fill our dinner plates, but also to feed our imaginations. Still waters run deep, and for one man, the draw of the sea's deep waters would direct the course of his entire life? a life full to overflowing with humor, drama, kinship, and a pure and abiding faith that keeps him afloat even in the darkest of storms. These are his stories, and through them, the author invites you to feel the wind in your hair, the sea spray on your face, and the buoyancy of spirit that can only be truly felt when in the company of good friends and family.
