In Brixton, Nora and Dora Chance – twin chorus girls born and bred south of the river – are celebrating their 75th birthday. Over the river in Chelsea, their father and greatest actor of his generation Melchior Hazard turns 100 on the same day. As does his twin brother Peregrine. If, in fact, he's still alive. And if, in truth, Melchior is their real father after all... Wise Children is adapted for the stage from Angela Carter's last novel about a theatrical family living in South London. It centres around twin chorus girls, Nora and Dora Chance, whose lives are brimming with mystery, illegitimacy and scandal. Dora narrates the story as her older self, looking back on a tumultuous life, throughout which she and her sister have loved to sing and dance. A big, bawdy tangle of theatrical joy and heartbreak, Wise Children is a celebration of show business, family, forgiveness and hope. Expect show girls and Shakespeare, sex and scandal, music, mischief and mistaken identity – and butterflies by the thousand.

Before the voyage of Columbus in 1492, the Atlantic Ocean stood as a barrier to contact between the people (and their ideas and institutions), plants, animals, and microbes of Eurasia and Africa on the one hand and the Americas on the other. Following Columbus's voyage, the Atlantic turned into a conduit for transferring these things among the four continents bordering the ocean in ways that affected people living on each of them. The appearance of The Atlantic World marks an important achievement, for it stands out as the first successful attempt to combine the many strains of Atlantic history into a comprehensive, thoughtful narrative. At the core of this ground-breaking and eloquently written survey lies a consideration of the relationships among people living in Europe, Africa, and the Americas, with a focus on how these relationships played important roles—often the most important roles—in how the histories of the people involved unfolded. The ways of life of millions of people changed, sometimes for the better but often for the worse, because of their relationship to the larger Atlantic world. And unlike existing texts dealing with one or another aspect of Atlantic history, The Atlantic World does not subjugate the history of Africa and South America to those of the “British Atlantic” or Europe. With historians and other scholars beginning to reconceptualize the Atlantic World as a dynamic zone of exchange in which people, commodities, and ideas circulated from the mid-fifteenth century until the dawn of the twentieth century, the interconnections between people along the Atlantic rim create a coherent region, one in which events in one corner inevitably altered the course of history in another. As this book testifies, Atlantic history, properly understood, is history without borders—in which national narratives take backstage to the larger examination of interdependence and cultural transmission. Conceived of and produced by a team of distinguished authors with countless hours of teaching experience at the college level, this thoughtfully organized, beautifully written, and lavishly illustrated book will set the standard for all future surveys intended as a core text for the new and rapidly growing courses in Atlantic History.

Although there are many better biographies about Prophets (peace be upon them), they are not completely accurate. Who were the eyewitnesses to such events? Or did the authors purposely misled the readers to present a negative view of Islam and the Prophets (peace and blessings be upon them). If you want an accurate history of Islam, read Ibn Kathir. He wrote over 48 books and over 60,000 pages. He lived in a time when people feared Allah far more and died in a righteous state. Prophet Muhammad (peace be upon him) was sent as a mercy NOT only to Mankind but to all the creations, and this includes all animals. His teachings further preserved the sanctity of animals and reinforced how people must honor and respect all of God's creation. Before you step on ant or harm a cat or dog, memorize the following

Hadith: Allah's Messenger (peace and blessings be upon him) said: "An ant had bitten Prophet Uzair (peace be upon him), one of the Prophets sent to the Children of Israel. So he ordered that the colony of the ants be burnt. Then Allah revealed to him: "Because of an ant's bite you have burnt a community from amongst the communities which sings My Glory." And We have not sent you, [O Muhammad], except as a mercy to the worlds.

Twenty years ago I set out to photograph children all around the world. My first trip was to the south of India. I started in the province of Tamil Nadu, first living in a Church Women Centre in the city of Chennai, then in Mugaiyur, a small village. For six months I took pictures and had conversations with roommates, guides, and members of the families who had taken me in as a guest. I had very many questions, as did they. After children, the main subject was always love. Everything I heard from them and saw around me there filled me with both surprise and doubt, but above all with admiration. I admired their courage and faith. Their arranged marriages were a fascinating mystery to me. One way to understand arranged marriages was to make portraits. I photographed women and men various ages, engaged or planned couples and married couples.

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.
