Reveals the underlying story form of all great presentations that will not only create impact, but will move people to action Presentations are meant to inform, inspire, and persuade audiences. So why then do so many audiences leave feeling like they've wasted their time? All too often, presentations don't resonate with the audience and move them to transformative action. Just as the author's first book helped presenters become visual communicators, Resonate helps you make a strong connection with your audience and lead them to purposeful action. The author's approach is simple: building a presentation today is a bit like writing a documentary. Using this approach, you'll convey your content with passion, persuasion, and impact. Author has a proven track record, including having created the slides in Al Gore's Oscar-winning An Inconvenient Truth Focuses on content development methodologies that are not only fundamental but will move people to action Upends the usual paradigm by making the audience the hero and the presenter the mentor Shows how to use story techniques of conflict and resolution Presentations don't have to be boring ordeals. You can make them fun, exciting, and full of meaning. Leave your audiences energized and ready to take action with Resonate.

In his first work of narrative nonfiction, Matthew Pearl, bestselling author of acclaimed novel The Dante Club, explores the little-known true story of the kidnapping of legendary pioneer Daniel Boone's daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro, the echoes of their faraway screams lingering on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. Hanging Maw, the raiders' leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky's most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone's kidnapping vividly illuminates the early days of America's westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America's transition from colony to nation, with the heavy moral costs incurred amid shocking new alliances and betrayals.

Iconic couples' therapist and bestselling author of Mating in Captivity Esther Perel returns with a provocative look at relationships through the lens of infidelity. An affair: it can rob a couple of their relationship, their happiness, their very identity. And yet, this extremely common human

experience is so poorly understood. What are we to make of this time-honored taboo—universally forbidden yet universally practiced? Why do people cheat—even those in happy marriages? Why does an affair hurt so much? When we say infidelity, what exactly do we mean? Do our romantic expectations of marriage set us up for betrayal? Is there such a thing as an affair-proof marriage? Is it possible to love more than one person at once? Can an affair ever help a marriage? Perel weaves real-life case stories with incisive psychological and cultural analysis in this fast-paced and compelling book. For the past ten years, Perel has traveled the globe and worked with hundreds of couples who have grappled with infidelity. Betrayal hurts, she writes, but it can be healed. An affair can even be the doorway to a new marriage—with the same person. With the right approach, couples can grow and learn from these tumultuous experiences, together or apart. Affairs, she argues, have a lot to teach us about modern relationships—what we expect, what we think we want, and what we feel entitled to. They offer a unique window into our personal and cultural attitudes about love, lust, and commitment. Through examining illicit love from multiple angles, Perel invites readers into an honest, enlightened, and entertaining exploration of modern marriage in its many variations. Fiercely intelligent, *The State of Affairs* provides a daring framework for understanding the intricacies of love and desire. As Perel observes, “Love is messy; infidelity more so. But it is also a window, like no other, into the crevices of the human heart.”

Ideas are the currency of the twenty-first century. In order to succeed, you need to be able to sell your ideas persuasively. This ability is the single greatest skill that will help you accomplish your dreams. Many people have a fear of public speaking or are insecure about their ability to give a successful presentation. Now public speaking coach and bestselling author Carmine Gallo explores what makes a great presentation by examining the widely acclaimed TED Talks, which have redefined the elements of a successful presentation and become the gold standard for public speaking. TED ? which stands for technology, entertainment, and design ? brings together the world's leading thinkers. These are the presentations that set the world on fire, and the techniques that top TED speakers use will make any presentation more dynamic, fire up any team, and give anyone the confidence to overcome their fear of public speaking. In his book, Carmine Gallo has broken down hundreds of TED talks and interviewed the most popular TED presenters, as well as the top researchers in the fields of psychology, communications, and neuroscience to reveal the nine secrets of all successful TED presentations. Gallo's step-by-step method makes it possible for anyone to deliver a presentation that is engaging, persuasive, and memorable. Carmine Gallo's top 10 Wall Street Journal Bestseller *Talk Like TED* will give anyone who is insecure about their public speaking abilities the tools to communicate the ideas that matter most to them, the skill to win over hearts and minds, and the confidence to deliver the talk of their lives. The opinions expressed by Carmine Gallo in *TALK LIKE TED* are his own. His book is not endorsed, sponsored or authorized by TED Conferences, LLC or its affiliates. Psychologists have long been aware that most people maintain an irrationally positive outlook on life—but why? Turns out, we might be hardwired that way. In this absorbing exploration, Tali Sharot—one of the most innovative neuroscientists at work today—demonstrates that optimism may be crucial to human existence. *The Optimism Bias* explores how the brain generates hope and what happens when it fails; how the brains of optimists and pessimists differ; why we are terrible at predicting what will make us happy; how emotions strengthen our ability to recollect; how anticipation and dread affect us; how our optimistic illusions affect our financial, professional, and emotional decisions; and more. Drawing on cutting-edge science, *The Optimism Bias* provides us with startling new insight into the workings of the brain and the major role that optimism plays in determining how we live our lives.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade

ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

****Now on Netflix as The Call to Courage**** 'She's so good, Brené Brown, at finding the language to articulate collective feeling' Dolly Alderton Every time we are faced with change, no matter how great or small, we also face risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - or feel guilt for feeling them in the first place. In a powerful new vision Dr Brené Brown challenges everything we think we know about vulnerability, and dispels the widely accepted myth that it's a weakness. She argues that, in truth, vulnerability is strength and when we shut ourselves off from vulnerability - from revealing our true selves - we distance ourselves from the experiences that bring purpose and meaning to our lives. Daring Greatly is the culmination of 12 years of groundbreaking social research, across every area of our lives including home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly.

Read Book Ted Talks The Official Ted Guide To Public Speaking

In Ted Talks Chris Anderson, head of TED, reveals the inside secrets of how to give a first-class presentation. Where books like Talk Like TED and TED Talks Storytelling whetted the appetite, here is the official TED guide to public speaking from the man who put TED talks on the world's stage. 'Nobody in the world better understands the art and science of public speaking than Chris Anderson. He is absolutely the best person to have written this book' Elizabeth Gilbert. Anderson shares his five key techniques to presentation success: Connection, Narration, Explanation, Persuasion and Revelation (plus the three to avoid). He also answers the most frequently asked questions about giving a talk, from 'What should I wear?' to 'How do I handle my nerves?'. Ted Talks is also full of presentation tips from such TED notable speakers as Sir Ken Robinson, Bill Gates, Mary Roach, Amy Cuddy, Elizabeth Gilbert, Dan Gilbert, Amanda Palmer, Matt Ridley and many more. This is a lively, fun read with great practical application from the man who knows what goes into a truly memorable speech. In Ted Talks Anderson pulls back the TED curtain for anyone who wants to learn how to prepare an exceptional presentation.

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

"What does everyone in the modern world need to know? [The author's] answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. [The author discusses] discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life"--

INSTANT NEW YORK TIMES BESTSELLER The only definitive book authored by Wim Hof on his powerful method for realizing our physical and spiritual potential. "This method is very simple, very accessible, and endorsed by science. Anybody can do it, and there is no dogma, only acceptance. Only freedom." —Wim Hof Wim Hof has a message for each of us: "You can literally do the impossible. You can overcome

disease, improve your mental health and physical performance, and even control your physiology so you can thrive in any stressful situation.” With *The Wim Hof Method*, this trailblazer of human potential shares a method that anyone can use—young or old, sick or healthy—to supercharge their capacity for strength, vitality, and happiness. Wim has become known as “The Iceman” for his astounding physical feats, such as spending hours in freezing water and running barefoot marathons over deserts and ice fields. Yet his most remarkable achievement is not any record-breaking performance—it is the creation of a method that thousands of people have used to transform their lives. In his gripping and passionate style, Wim shares his method and his story, including:

- **Breath**—Wim’s unique practices to change your body chemistry, infuse yourself with energy, and focus your mind
- **Cold**—Safe, controlled, shock-free practices for using cold exposure to enhance your cardiovascular system and awaken your body’s untapped strength
- **Mindset**—Build your willpower, inner clarity, sensory awareness, and innate joyfulness in the miracle of living
- **Science**—How users of this method have redefined what is medically possible in study after study
- **Health**—True stories and testimonials from people using the method to overcome disease and chronic illness
- **Performance**—Increase your endurance, improve recovery time, up your mental game, and more
- **Wim’s Story**—Follow Wim’s inspiring personal journey of discovery, tragedy, and triumph
- **Spiritual Awakening**—How breath, cold, and mindset can reveal the beauty of your soul

Wim Hof is a man on a mission: to transform the way we live by reminding us of our true power and purpose. “This is how we will change the world, one soul at a time,” Wim says. “We alter the collective consciousness by awakening to our own boundless potential. We are limited only by the depth of our imagination and the strength of our conviction.” If you’re ready to explore and exceed the limits of your own potential, *The Wim Hof Method* is waiting for you.

Chris Anderson is the curator of phenomenally successful TED talks - over one billion views and counting. He is passionate about the importance of public speaking, something he describes as a crucial life skill and which we should be teaching in school, and of the amazing power of direct human-to-human communication, recorded on video, in the internet age. It is now possible to share ideas with millions around the world (as evidenced by the success of TED itself, whose most popular talk has been viewed 31 million times). In his first book, *Talk This Way*, he shares his passion for public speaking and offers a master-class in how to do it - not just how to give a great TED talk, but how to stand up and speak persuasively in front of any size of audience, whether that is a school classroom, making a video blog, in a business meeting or at a conference. The book brings together his experience of over two decades as the curator of TED, in which time he has listened to over one thousand stage talks, with advice from 30 of his all-time favourite TED speakers.

“A concise, insightful and sophisticated guide to maintaining humane values in an age of new machines.”—*The New York Times Book Review* “While we need to rewrite the rules of the twenty-first-century economy, Kevin’s book is a great look at how people can do this on a personal level to always put humanity first.”—Andrew Yang

You are being automated. After decades of hype and sci-fi fantasies, artificial intelligence is leaping out of research labs and into the center of our lives. Automation doesn’t just threaten our jobs. It shapes our entire human experience, with AI and algorithms influencing the TV shows we watch, the music we listen to, the beliefs we hold, and the relationships we form. And while the age-old debate over whether automation will destroy jobs rages on, an even more important question is being ignored: How can we be happy, successful humans in a world that is

increasingly built by and for machines? In *Futureproof: 9 Rules for Humans in the Age of Automation*, New York Times technology columnist Kevin Roose lays out a hopeful, pragmatic vision for how we can thrive in the age of AI and automation. He shares the secrets of people and organizations that have survived previous waves of technological change, and explains what skills are necessary to stay ahead of today's intelligent machines, with lessons like • Be surprising, social, and scarce. • Resist machine drift. • Leave handprints. • Demote your devices. • Treat AI like a chimp army. Roose rejects the conventional wisdom that in order to succeed in the AI age, we have to become more like machines ourselves—hyper-efficient, data-driven workhorses. Instead, he says, we should focus on being more human, and doing the kinds of creative, inspiring, and meaningful things even the most advanced robots can't do.

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Turn any presentation into a landmark occasion “I love this book. I've followed Humes's lessons for years, and he combines them all into one compact, hard-hitting resource. Get this book on your desk now.”—Chris Matthews, *Hardball* Ever wish you could captivate your boardroom with the opening line of your presentation, like Winston Churchill in his most memorable speeches? Or

want to command attention by looming larger than life before your audience, much like Abraham Lincoln when, standing erect and wearing a top hat, he towered over seven feet? Now, you can master presentation skills, wow your audience, and shoot up the corporate ladder by unlocking the secrets of history's greatest speakers. Author, historian, and world-renowned speaker James C. Humes—who wrote speeches for five American presidents—shows you how great leaders through the ages used simple yet incredibly effective tricks to speak, persuade, and win throngs of fans and followers. Inside, you'll discover how Napoleon Bonaparte mastered the use of the pregnant pause to grab attention, how Lady Margaret Thatcher punctuated her most serious speeches with the use of subtle props, how Ronald Reagan could win even the most hostile crowd with carefully timed wit, and much, much more. Whether you're addressing a small nation or a large staff meeting, you'll want to master the tips and tricks in *Speak Like Churchill, Stand Like Lincoln*.

#1 Wall Street Journal Best Seller USA Today Best Seller Amazon Best Book of the Year TED Talk sensation - over 3 million views! The counterintuitive approach to achieving your true potential, heralded by the Harvard Business Review as a groundbreaking idea of the year. The path to personal and professional fulfillment is rarely straight. Ask anyone who has achieved his or her biggest goals or whose relationships thrive and you'll hear stories of many unexpected detours along the way. What separates those who master these challenges and those who get derailed? The answer is agility—emotional agility. Emotional agility is a revolutionary, science-based approach that allows us to navigate life's twists and turns with self-acceptance, clear-sightedness, and an open mind. Renowned psychologist Susan David developed this concept after studying emotions, happiness, and achievement for more than twenty years. She found that no matter how intelligent or creative people are, or what type of personality they have, it is how they navigate their inner world—their thoughts, feelings, and self-talk—that ultimately determines how successful they will become. The way we respond to these internal experiences drives our actions, careers, relationships, happiness, health—everything that matters in our lives. As humans, we are all prone to common hooks—things like self-doubt, shame, sadness, fear, or anger—that can too easily steer us in the wrong direction. Emotionally agile people are not immune to stresses and setbacks. The key difference is that they know how to adapt, aligning their actions with their values and making small but powerful changes that lead to a lifetime of growth. Emotional agility is not about ignoring difficult emotions and thoughts; it's about holding them loosely, facing them courageously and compassionately, and then moving past them to bring the best of yourself forward. Drawing on her deep research, decades of international consulting, and her own experience overcoming adversity after losing her father at a young age, David shows how anyone can thrive in an uncertain world by becoming more

emotionally agile. To guide us, she shares four key concepts that allow us to acknowledge uncomfortable experiences while simultaneously detaching from them, thereby allowing us to embrace our core values and adjust our actions so they can move us where we truly want to go. Written with authority, wit, and empathy, *Emotional Agility* serves as a road map for real behavioral change—a new way of acting that will help you reach your full potential, whoever you are and whatever you face.

An extraordinary story, never before told: The intimate, behind-the-scenes life of an American boy raised by his terrorist father—the man who planned the 1993 World Trade Center bombing. What is it like to grow up with a terrorist in your home? Zak Ebrahim was only seven years old when, on November 5th, 1990, his father El-Sayyid Nosair shot and killed the leader of the Jewish Defense League. While in prison, Nosair helped plan the bombing of the World Trade Center in 1993. In one of his infamous video messages, Osama bin Laden urged the world to “Remember El-Sayyid Nosair.” For Zak Ebrahim, a childhood amongst terrorism was all he knew. After his father’s incarceration, his family moved often, and as the perpetual new kid in class, he faced constant teasing and exclusion. Yet, though his radicalized father and uncles modeled fanatical beliefs, to Ebrahim something never felt right. To the shy, awkward boy, something about the hateful feelings just felt unnatural. In this book, Ebrahim dispels the myth that terrorism is a foregone conclusion for people trained to hate. Based on his own remarkable journey, he shows that hate is always a choice—but so is tolerance. Though Ebrahim was subjected to a violent, intolerant ideology throughout his childhood, he did not become radicalized. Ebrahim argues that people conditioned to be terrorists are actually well positioned to combat terrorism, because of their ability to bring seemingly incompatible ideologies together in conversation and advocate in the fight for peace. Ebrahim argues that everyone, regardless of their upbringing or circumstances, can learn to tap into their inherent empathy and embrace tolerance over hatred. His original, urgent message is fresh, groundbreaking, and essential to the current discussion about terrorism.

The New York Times Bestseller *What if everything you think you know about addiction is wrong?* Johann Hari's journey into the heart of the war on drugs led him to ask this question--and to write the book that gave rise to his viral TED talk, viewed more than 62 million times, and inspired the feature film *The United States vs. Billie Holiday* and the documentary series *The Fix*. One of Johann Hari's earliest memories is of trying to wake up one of his relatives and not being able to. As he grew older, he realized he had addiction in his family. Confused, not knowing what to do, he set out and traveled over 30,000 miles over three years to discover what really causes addiction--and what really solves it. He uncovered a range of remarkable human stories--of how the war on drugs began with Billie Holiday, the great jazz singer, being stalked and killed by a racist policeman; of the scientist who discovered the surprising key to addiction; and of the countries that ended their own war on drugs--with extraordinary results. *Chasing the Scream* is the story of a life-changing journey that transformed the addiction debate internationally--and showed the world that the opposite of addiction is connection.

The groundbreaking international bestseller that will help you fulfil your true potential. *The Element* is the point at which natural talent meets personal passion. In this hugely influential book, world-renowned creativity expert Ken Robinson

considers the child bored in class, the disillusioned employee and those of us who feel frustrated but can't quite explain why - and shows how we all need to reach our Element. Through the stories of people like Vidal Sassoon, Arianna Huffington and Matt Groening, who have recognized their unique talents and made a successful living doing what they love, Robinson explains how every one of us can find ourselves in our Element, and achieve everything we're capable of. With a wry sense of humour, Ken Robinson shows the urgent need to enhance creativity and innovation by thinking differently about ourselves. Above all, he inspires us to reconnect with our true self - it could just change everything. 'The Element offers life-altering insights about the discovery of your true best self' Stephen R. Covey, author of *The 7 Habits of Highly Effective People* 'A book that lightens and lifts the minds and hearts of all who read it' Susan Jeffers, author of *Feel the Fear and Do It Anyway*

Lauded for her eloquence, observation and wry humour, Jane Austen was a novelist who was highly regarded and greatly celebrated in her own time. However, her appeal is as great as ever, and her insights remain as fresh and relevant today as when they were first published. This delightful volume offers thematic extracts from fiction and correspondence; featuring quotes from such novels as Emma, Northanger Abbey, Pride and Prejudice, Mansfield Park and Persuasion, alongside extracts from Austen's letters to her sister and confidante, Cassandra. It contains a host of quotations displaying Austen's sharp - indeed, often wicked - social observation and satirical wit, which will be enjoyed by fans of the author as well as readers who are new to her writing. The Wicked Wit of Jane Austen is a charming tribute to a writer whose work will resonate for centuries to come. Also available in the series are collections from Shakespeare, To Be or Not To Be, and Oscar Wilde, I Can Resist Everything Except Temptation.

A powerful manifesto for CEOs and employees alike: Influential and award-winning business leader Margaret Heffernan reveals how organizations can build ideal workplace cultures and create seismic shifts by making deceptively small changes. By implementing sweeping changes, businesses often think it's possible to do better, to earn more, and have happier employees. So why does engagement prove so difficult and productivity so elusive? In Beyond Measure, Margaret Heffernan looks back over her decades spent overseeing different organizations and comes to a counterintuitive conclusion: it's the small shifts that have the greatest impact. Heffernan argues that building the strongest organization can be accelerated by implementing seemingly small changes, such as embracing conflict as a creative catalyst; using every mind on the team; celebrating mistakes; speaking up and listening more; and encouraging time off from work. Packed with incredible anecdotes and startling statistics, Beyond Measure takes us on a fascinating tour across the globe, highlighting disparate businesses and revealing how they've managed to change themselves in big ways through incremental shifts. How did the CIA revolutionize their intelligence gathering with one simple question? How did one organization increase their revenue by \$15 million by instituting a short coffee break? How can a day-long hackathon change the culture of a company? Told with wry wit and knowing humor, Heffernan proves that it's often the small changes that make the greatest, most lasting impact.

changed my presentation style and my slides, both for the better - and I've been a professional speaker for over 30 years.”~ Becki L. James How to Design TED-Worthy Presentation Slides is a short, practical and step-by-step guide to creating sexy slides. It is based on an extensive analysis of some of the best TED speakers, such as Brene Brown, Daniel Pink, Amy Cuddy, Larry Lessig, Seth Godin, Bill Gates and many, many more. LEARN HOW TO BREATHE LIFE INTO YOUR SLIDES, INSTEAD OF DRAINING IT OUT OF YOUR AUDIENCE By the end of this guide, you too will be able to create sexy presentation slides that keep your audiences mesmerized. More importantly, you will be able to design presentations that breathe life into your slides, instead of draining it out of your audience. Here's just a taste of what you'll learn inside the book: •The most common mistake most presenters make – and how you can avoid it •The one principle that will make you better than 90% of most speakers •How to quickly create a presentation storyboard •Bill Gates' trick for transforming his slides from dull to dashing •The Seth Godin presentation formula •The importance of contrast •Locating and using sexy fonts •Spicing up your presentations with video •Displaying data without being dull •Ensuring consistency between slides •How to deliver a great TED talk (or any other speech or presentation) •And much, much more... “A must read...An essential tool for preparing effective, interesting and "sexy" presentations...a must read for any professional who wants to improve his communicational skills.”~ Rosalinda Scalia “The lessons shared in this short book will a go a long way to helping a person give better public presentations. The insights shared by Akash are like golden nuggets in a river full of info!”~ Alan Portugal “I have been teaching workshops at universities and Fortune 500 Campuses up and down the East Coast on building better presentations. Akash hits all the right notes in this book. A must read for anyone wanting to build powerful presentations.”~ David Bishop “Excellent for those who want to really engage their audience. I incorporated many of the principles within and developed a more effective product presentation.”~ Tom Tipps “Right on the mark. Just what I was looking for as a non-designer.”~ Erik J. Zettelmayer “Make a greater impact with your presentations. While reading this book I was mentally reviewing my talks where I use PowerPoint slides. I am now changing some of those slides to make a greater impact on the listeners. These tips are easy to implement and make sense.”~ John C. Erdman “As always we can expect the best from Akash and we are getting more.”~ Payam Bahrapoor “This book gives practical advice. However, it does not stop there. It demonstrates how to use that advice, gives visual examples of what to do and what not to do and explains why. It turns creating a presentation from a dreaded event to one allowing creativity to flow and your passion about your subject matter to emerge on the screen through your slides.”~ Pandora Training and Consulting “I will admit to rarely reviewing books. However, this book was such a step above any others I've read on the art of PowerPoint presentations, I had to give it a five star review.”~ David Schwind

One ordinary spring morning in Reykjavik, Iceland, Thordis Elva kisses her son and partner goodbye before boarding a plane to do a remarkable thing: fly seven thousand miles to South Africa to confront the man who raped her when she was just sixteen. Meanwhile, in Sydney, Australia, Tom Stranger nervously embarks on an equally life-changing journey to meet Thordis, wondering whether he is worthy of this milestone. After exchanging hundreds of searingly honest emails over eight years, Thordis and Tom decided it was time to speak face to face. Coming from opposite sides of the globe, they meet in the middle, in Cape Town, South Africa, a country that is no stranger to violence and the healing power of forgiveness. *South of Forgiveness* is an unprecedented collaboration between a survivor and a perpetrator, each equally committed to exploring the darkest moment of their lives. It is a true story about being bent but not broken, facing fear with courage, and finding hope even in the most wounded of places. Personable, accessible, and compelling, *South of Forgiveness* is an intense and refreshing look at a gendered violence, rape culture, personal responsibility, and the effect that patriarchal cultures have on both men and women.

To err is human. Yet most of us go through life assuming (and sometimes insisting) that we are right about nearly everything, from the origins of the universe to how to load the dishwasher. In *Being Wrong*, journalist Kathryn Schulz explores why we find it so gratifying to be right and so maddening to be mistaken. Drawing on thinkers as varied as Augustine, Darwin, Freud, Gertrude Stein, Alan Greenspan, and Groucho Marx, she shows that error is both a given and a gift—one that can transform our worldviews, our relationships, and ourselves.

In the New York Times-bestselling *Ted Talks* Chris Anderson, head of TED, reveals the inside secrets of how to give a first-class presentation. Where books like *Talk Like TED* and *TED Talks Storytelling* whetted the appetite, here is the official TED guide to public speaking from the man who put TED talks on the world's stage. 'Nobody in the world better understands the art and science of public speaking than Chris Anderson. He is absolutely the best person to have written this book' Elizabeth Gilbert. Anderson shares his five key

techniques to presentation success: Connection, Narration, Explanation, Persuasion and Revelation (plus the three to avoid). He also answers the most frequently asked questions about giving a talk, from 'What should I wear?' to 'How do I handle my nerves?'. Ted Talks is also full of presentation tips from such TED notable speakers as Sir Ken Robinson, Bill Gates, Mary Roach, Amy Cuddy, Elizabeth Gilbert, Dan Gilbert, Amanda Palmer, Matt Ridley and many more. This is a lively, fun read with great practical application from the man who knows what goes into a truly memorable speech. In Ted Talks Anderson pulls back the TED curtain for anyone who wants to learn how to prepare an exceptional presentation.

How many times has someone offered you that wonderfully insightful piece of advice to 'just be yourself'? Like it hadn't crossed your mind already? In her two decades of being a student and teacher of IDOLOGY, Caroline has worked all over the world with thousands of individuals, from celebrated artists to Fortune 500 CEOs to schoolchildren in India, using her unique perspective to shine a light on theirs. This just might be the operating manual you should have been born with.

The #1 New York Times bestseller. Over 3 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: • make time for new habits (even when life gets crazy); • overcome a lack of motivation and willpower; • design your environment to make success easier; • get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

From the #1 New York Times bestselling author of The 48 Laws of Power comes the definitive new book on decoding the behavior of the people around you Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to

detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, *The Laws of Human Nature* offers brilliant tactics for success, self-improvement, and self-defense.

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among *Grit*’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).
