Phrases you will see often are 'I really can't remember' 'if I remember correctly' and 'I may be wrong'...yes I will admit it, I have been wrong before...1969 I think it was...oh and once in 1973 as well. I have checked where possible but half the time I can't be arsed so there. One area where some clever shite will immediately contradict me is numbers we took to away games, this was and still is impossible to estimate, so whilst some will try to claim we took thousands to every away match I have tried to judge by how much of the stands we filled in the days when the majority of the travelers all stood together. Characters, there have been 'legends' both on and off the pitch over the years, some have moved on to 'a better place' ...yes living in Pattaya, others have went off to the 'Big Match' in the sky where Jesus grabs the Number Nine shirt every game because he thinks he's Alan Shearer...only for St. Peter to point out that Jackie Milburn's name is already on the team sheet as Centre Forward. No doubt someone will bemoan the absence of some of the terrace 'heroes' but I have only mentioned those I clearly remember. I was never a member of any 'crews' 'firms' or 'gangs' unless you count our collective 70's name the 'Geordie Boot Boys', I was never a ringleader or organiser I knew who they were and often found myself in their company but chose to stay incognito. Named a Best Book of 2018 by the Financial Times and Fortune, this "thrilling" (Bill Gates) New York Times bestseller exposes how a "modern Gatsby" swindled over \$5 billion with the aid of Goldman Sachs in "the heist of the century" (Axios). Now a #1 international bestseller, BILLION DOLLAR WHALE is "an epic tale of white-collar crime on a global scale" (Publishers Weekly, starred review), revealing how a young social climber from Malaysia pulled off one of the biggest heists in history. financial system. Over a decade, Low, with the aid of Goldman Sachs and others, siphoned billions of dollars from an investment fund--right under the nose of global financial industry watchdogs. Low used the money to finance elections, purchase luxury real estate, throw champagne-drenched parties, and even to finance Hollywood films like *The Wolf of Wall Street*. By early 2019, with his yacht and private jet reportedly seized by authorities and facing criminal charges in Malaysia and in the United States, Low had become an international fugitive, even as the U.S. Department of Justice continued its investigation. BILLION DOLLAR WHALE has joined the ranks of *Liar's Poker*, *Den of Thieves*, and *Bad Blood* as a classic harrowing parable of hubris and greed in the financial world.

What does it mean to be male in the 21st Century? Award-winning artist Grayson Perry explores what masculinity is: from sex to power, from fashion to career prospects, and what it could become—with illustrations throughout. In this witty and necessary new book, artist Grayson Perry trains his keen eye on the world of men to ask, what sort of man would make the world a better place? What would happen if we rethought the macho, outdated version of manhood, and embraced a different ideal? In the current atmosphere of bullying, intolerance and misogyny, demonstrated in the recent Trump versus Clinton presidential campaign, *The Descent of Man* is a timely and essential addition to current conversations around gender. Apart from gaining vast new wardrobe options, the real benefit might be that a newly fitted masculinity will allow men to have better relationships—and that's happiness, right? Grayson Perry admits he's not immune from the stereotypes himself—yet his thoughts on everything from power to physical appearance, from emotions to a brand new Manifesto for Men, are shot through with honesty, tenderness, and the belief that, for everyone to benefit, updating masculinity has to be something men decide to do themselves. They have nothing to lose but their hang-ups.

A beloved character brings the power of the press to 1920s Butte, Montana, in this latest from the best storyteller of the West In the winter of 1920, a quirky bequest draws Morrie Morgan back to Butte, Montana, from a year-long honeymoon with his bride, Grace. But the mansion bestowed by a former boss upon the itinerant charmer, who debuted in Doig's bestselling *The Whistling Season*, promises to be less windfall than money pit. And the town itself, with its polyglot army of miners struggling to extricate themselves from the stranglehold of the ruthless Anaconda Copper Mining Company, seems—like the couple's fast-diminishing finances—on the verge of implosion. These twin dilemmas catapult Morrie into his new career as editorialist for the *Thunder*, the fledgling union newspaper that dares to play David to Anaconda's Goliath. Amid the clatter of typewriters, the rumble of the printing presses, and a cast of unforgettable characters, Morrie puts his gift for word-slinging to work. As he pursues victory for the miners, he discovers that he is enmeshed in a deeply personal battle as well—the struggle to win lasting love for himself. Brilliantly capturing an America roaring into a new age, *Sweet Thunder* is another great tale from a classic American novelist.

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal Felix Dennis is an expert at proving people wrong. In an unnamed country at the beginning of the last century, a child called Pavla is born to peasant parents. Her arrival, fervently anticipated and conceived in part by gypsy tonics and archaic prescriptions, stuns her parents and brings outrage and scorn from her community. Pavla has been born a dwarf, beautiful in face, but as the years pass, she grows no farther than the edge of

her crib. When her parents turn to the treatments of a local charlatan, his terrifying cure opens the floodgates of persecution for Pavla. Little Nothing unfolds across a lifetime of unimaginable, magical transformation in and out of human form, as an outcast girl becomes a hunted woman whose ultimate survival depends on the most startling transfiguration of them all. Woven throughout is the journey of Danilo, the young man entranced by Pavla, obsessed only with protecting her. Part allegory about the shifting nature of being, part subversive fairy tale of love in all its uncanny guises, Little Nothing spans the beginning of a new century, the disintegration of ancient superstitions, and the adoption of industry and invention. With a cast of remarkable characters, a wholly original story, and extraordinary, page-turning prose, Marisa Silver delivers a novel of sheer electricity.

known—and years of archival research, Lawrence Wright uses his extraordinary investigative ability to uncover for us the inner workings of the Church of Scientology. At the book's center, two men whom Wright brings vividly to life, showing how they have made Scientology what it is today: The darkly brilliant science-fiction writer L. Ron Hubbard, whose restless, expansive mind invented a new religion. And his successor, David Miscavige—tough and driven, with the unenviable task of preserving the church after the death of Hubbard. We learn about Scientology's complicated cosmology and special language. We see the ways in which the church pursues celebrities, such as Tom Cruise and John Travolta, and how such stars are used to advance the church's goals. And we meet the young idealists who have joined the Sea Org, the church's clergy, signing up with a billion-year contract. In *Going Clear*, Wright examines what fundamentally makes a religion a religion, and whether Scientology is, in fact, deserving of this constitutional protection. Employing all his exceptional journalistic skills of observation, understanding, and shaping a story into a compelling narrative, Lawrence Wright has given us an evenhanded yet keenly incisive book that reveals the very essence of what makes Scientology the institution it is.

It is no secret that America's sentencing and corrections systems are in crisis, and neither system can be understood or repaired fully without careful consideration of the other. This handbook examines the intertwined and multi-layered fields of American sentencing and corrections from global and historical viewpoints, from theoretical and policy perspectives, and with close attention to many problem-specific arenas. Editors Joan Petersilia and Kevin R. Reitz, both leaders in their respective fields, bring together a group of preeminent scholars to

present state-of-the art research, investigate current practices, and explore the implications of new and varied approaches wherever possible. The handbook's contributors bridge the gap between research and policy across a range of topics including an overview of mass incarceration and its collateral effects, explorations of sentencing theories and their applications, analyses of the full spectrum of correctional options, and first-hand accounts of life inside of and outside of prison. Individual chapters reflect expertise and source materials from multiple fields including criminology, law, sociology, psychology, public policy, economics, political science, and history. Proving that the problems of sentencing and corrections, writ large, cannot be addressed effectively or comprehensively within the confines of any one discipline, The Oxford Handbook of Sentencing and Corrections is a vital reference volume on these two related and central components of America's ongoing experiment in mass incarceration.

Sam Israel was a man who seemed to have it all – until the hedge fund he ran, Bayou, imploded and he became the target of a nationwide manhunt. Born into one of America’s most illustrious trading families, Israel was determined to strike out on his own. So after apprenticing with one of the greatest hedge fund traders of the 1980’s, Sam founded his own fund and promised his investors guaranteed profits. With the proprietary computer program he’d created, he claimed to be able to predict the future. But his future was already beginning to unravel. Thus began his year-long adventure in “the Upperworld” -- a society populated by clandestine bankers, shady European nobility, and spooks issuing cryptic warnings about a mysterious cabal known as the Octopus. Whether the “secret market” was real or a con, Israel was all in – and as the pressures mounted and increasingly sinister violence crept into his life, he struggled to break free of the Octopus’ tentacles.
