

The Art Of Rick And Morty

Richard Thompson is renowned among cartoonists as an "artist's" cartoonist. Little known to all but those close to him is the extent of his art talent. This is the book that will enlighten the rest of us and delight us with the sheer beauty of his work. Divided into six sections, each beginning with an introductory conversation between Thompson and six well-known peers, including Bill Watterson, the book will present Thompson's illustration work, caricatures, and his creation, Richard's Poor Almanack. Each section is highly illustrated, many works in color, most of them large and printed one-to-a-page. The diversity of work will help cast a wider net, well beyond Cul de Sac fans.

The masked American hero ventures to the Middle East incognito (as Tom Sawyer) to fight Nazis in pursuit of a mysterious object of terrible power—a weapon of unknown origin, older than the pyramids, which could fuel the Thousand Year Reich of Hitler's dreams. This story originally appeared in Dark Horse Presents #28-32.

Rick Griffin began his career drawing for Surfer and Hot Rod Cartoons. By the mid-1960s, his work was appearing in posters designed for the Fillmore and album covers for the Grateful Dead. Descended from dada and surrealism, Griffin's art expresses psychedelic and religious themes.

This portfolio of oil and acrylic paintings by award-winning California landscape painter Rick J. Delanty is accompanied by inspirational short essays, each focusing on the

Rick Howell's conversational prose takes readers on the artist's journey. Insightful and

intimate, Howell speaks with forthright conviction, using his own work as objects for interrogation, and then, in wonderfully unexpected moments, easily turns inward, reflecting on personal joys and frustrations, often using his trademark self-deprecating humor. *Chasing Shadows* is a concise guide for artists wanting to start painting but too offers much insight for those who have been painting for years. Howell's approach goes well beyond any how-to book on the market; he begins with a quiet glimpse into his soul then bravely moves forward pressing the notion of what makes one an artist. From inspiration to the joy of packing one's gear and heading out into the sweet escape of nature and one's own mind, on into finding the perfect local to setting up, blocking-in, and complete a painting, Howell offers no-nonsense advice based on years of teaching and painting, reflecting throughout this book on his own experiences, from disappointments to triumphs.

"The best memoir I've ever read." —Oprah Winfrey "Will Smith isn't holding back in his bravely inspiring new memoir . . . An ultimately heartwarming read, Will

provides a humane glimpse of the man behind the actor, producer and musician, as he bares all his insecurities and trauma.” —USA Today One of the most dynamic and globally recognized entertainment forces of our time opens up fully about his life, in a brave and inspiring book that traces his learning curve to a place where outer success, inner happiness, and human connection are aligned. Along the way, Will tells the story in full of one of the most amazing rides through the worlds of music and film that anyone has ever had. Will Smith’s transformation from a West Philadelphia kid to one of the biggest rap stars of his era, and then one of the biggest movie stars in Hollywood history, is an epic tale—but it’s only half the story. Will Smith thought, with good reason, that he had won at life: not only was his own success unparalleled, his whole family was at the pinnacle of the entertainment world. Only they didn't see it that way: they felt more like star performers in his circus, a seven-days-a-week job they hadn't signed up for. It turned out Will Smith's education wasn't nearly over. This memoir is the product of a profound journey of self-knowledge, a reckoning with all that your will can get you and all that it can leave behind. Written with the help of Mark Manson, author of the multi-million-copy bestseller *The Subtle Art of Not Giving a F*ck*, Will is the story of how one person mastered his own emotions, written in a way that can help everyone else do the same. Few of us will know the

pressure of performing on the world's biggest stages for the highest of stakes, but we can all understand that the fuel that works for one stage of our journey might have to be changed if we want to make it all the way home. The combination of genuine wisdom of universal value and a life story that is preposterously entertaining, even astonishing, puts *Will* the book, like its author, in a category by itself.

In the ancient hills and misty hollows of Fayette County, Pennsylvania, generations of locals have passed down stories of a woman with mysterious magical powers. People came from near and far to seek healing and protection through her strange rituals.

Some even believed she could fly. Named Moll Derry and nicknamed the Witch of the Monongahela, her legend has been documented by writers and folklorists for more than two hundred years. She is intertwined in many regional tales, such as the Lost Children of the Alleghenies and Polly Williams and the White Rocks. Author Thomas White separates fact from fiction in the many versions of Moll Derry and recounts Western Pennsylvania's folk magic history along the way.

Over the past four decades, Richard Tuttle has thrown into question nearly every conceivable artistic convention and critical category to create an enormously inventive body of abstract work - one that embraces and intermingles drawing, painting, collage, book-making, sculpture, and design. From his spare yet enigmatic forms of the 1960s to his complex, multifaceted assemblages and installations of more recent years, Tuttle's primary impetus throughout has been to craft unique objects, using everyday, often ephemeral materials, that demand to be confronted on their own terms. The relentless individuality of his aesthetic vision has earned him standing as one of the most provocative and influential artists of his day. This richly illustrated and strikingly designed catalogue, the most authoritative volume ever published on this prolific artist, presents nearly four hundred reproductions of artworks from across his oeuvre and

documentary photographs of his creative process. Essays by a distinguished group of writers trace the arc of Tuttle's career from its inception in the 1960s to the present day, addressing topics such as the philosophical underpinnings of his artistic method; his sensitive handling of diverse materials; his lifelong engagement with drawing and its expansion into three-dimensional space; his groundbreaking solo exhibitions and their critical reception in the United States and Europe; his complex play with the conventions of language; and his innovative artist's books, many of which are collaborations with poets.

Richard Hamilton was the most influential British artist of his generation. Often described as 'the father of Pop art', he produced experimental and multilayered work in a range of media that both explored and crystallized the postwar world of consumer capitalism and popular culture in an attempt to 'get all of living' into his art. Seminal works such as his collage *Just what is it that makes today's homes so different, so appealing?* from 1956 and his silkscreen and related series based on a news photograph of Mick Jagger *Swinging London 67* came to define an era in which new commodities and technologies, mass production, mass media, and celebrity came to the fore, and challenged the hierarchical values of 'high' and 'low' art. Later works tackling subjects such as the Troubles in Northern Ireland and the Gulf War contained a serious political message, as he continued to be 'passionately responsive to his own time', as one critic put it. His groundbreaking exhibitions and installations, first as a

leading member of the Independent Group in the 1950s, and later at venues such as the Venice Biennale, influenced curatorial practice in the latter twentieth century and into the next. His importance to fields beyond contemporary art was demonstrated when he was asked to design the cover of the Beatles' so-called White Album in 1968. In this book, acclaimed cultural commentator and writer Michael Bracewell presents a concise introduction to this deeply complex artist. Written from a personal perspective, it discusses Hamilton's all-embracing work in relation to the music, film, and popular culture of the day in a rich new interpretation of his art and ideas. The book covers the full scope of Hamilton's practice, and includes examples from the various media in which he worked, from collage, print and painting to sculpture and photography, as well as the many diverse subjects of the modern world that he addressed. With photographs and quotes from Hamilton throughout, this attractive volume will appeal to anyone wanting to understand his iconic and pioneering work and its lasting cultural legacy.

Musk Cottage garden is maverick designer Rick Eckersley's own private garden. It is the culmination of decades of experimentation in Australian landscape gardening and an emphatic expression of the loose, almost painterly approach to landscape design that Eckersley is renowned for. *Art of a Garden* documents and explores this remarkable Australian landscape and the sensibility that produced it. Much like the garden itself, it is far from orthodox. While evocative photography by Will Salter takes the reader on a journey through the garden's plantings, textures, spaces and cycles, the book foregoes the typical series of accompanying explanatory essays. Instead, a selection of artworks by Australian artists, created in response to the garden, form richly subjective layers of interpretation. Short reflections by Eckersley of his work on the garden, and his learnings from a lifetime spent working within the Australian landscape, round out a publication that strives to capture the spirit of a landscape that has transcended the dogma and conventions of Australian gardening, to become an immersive, total work of art.
