Moving to a new Amish settlement in small-town Colorado was a brave new start for independent-minded quiltmaker Esther Kiem. But helping her reckless relative will really put her special matchmaking skills to the test . . . Mischievous and rebellious, young Ben Kiem is making the wrong kind of name for himself throughout the town of Byler. And even though his sister-in-law, Esther, somehow coaxes him into keeping company with sensible Linda Eicher, Ben can't see anything they have in common. Or that he could ever be good enough for someone like her. But Linda's down-to-earth nature and unexpected understanding have Ben trying his best to be better, no matter how challenging . . . Linda couldn't be more surprised when Ben turns out to be caring and helpful, despite his rowdy pranks and bad-news friends. And falling in love with him suddenly seems just right. But when a heartbreaking misunderstanding comes between them, both she and Ben must risk enough to trust, stitch the pieces back together—and dare a forever precious happiness. Praise for Jennifer Beckstrand and Abraham "This is an endearing romance that fans of Wanda Brunstetter will love." —Publishers Weekly

Children of the Atom, or something else? A small African town has been hit with a series of bizarre occurrences, as children are born possessing strange and powerful abilities. With the mutant race dwindling, the X-Men are the first on the scene to investigate the phenomenon. When they arrive, their hopes are raised by what looks to be a concentration of mutant births. But soon they find themselves confronted by the country's ruthless leader, who has his own ideas of what the children truly are and how to deal with them. Have the X-Men stumbled across a series of new mutant births, or are they dealing with something far more dangerous?

Examines Chinese engagement with African nations, focusing on (1) Chinese and African objectives in the political and economic spheres and how they work to achieve them,

(2) African perceptions of Chinese engagement, (3) how China has adjusted its policies to accommodate African views, and (4) whether the United States and China are competing for influence, access, and resources in Africa and how they might cooperate in the region.

The Fletchers' beautiful new house is everything they dreamed it would be. Built between two churches in Heptonclough, a small village on the moors that time forgot, it ought to be paradise for this young family of five, but they barely have a chance to settle in before they find that they're anything but welcome. Someone seems to be trying to drive them away--at first with silly pranks but then with threats that become increasingly dangerous, especially to the oldest child, ten-year-old Tom Fletcher, who begins to believe that someone is always watching him. The adults in Tom's life are trying to help, including his parents; the vicar next door, younger and more dashing than you'd expect a vicar to be; and a therapist, Evi Oliver, who believes him more than she wants to. But there are other clues that something isn't quite right in Heptonclough, including the mysterious accidental deaths of three toddlers over the last ten years. It is not until Tom's siblings, two-year-old Milly and five-year-old Joe Fletcher, go missing in turn that the little village's evil secret turns the Fletchers' dreams into a nightmare. With Sacrifice, Awakening, and now Blood Harvest, S. J. Bolton displays time and time again her remarkable talent as a beguiling storyteller, a master of thrills, and the mistress of her own brand of modern Gothic tale. Slow Burn tells how the superbike racing motorcycle developed out of the road-going sports-tourer to become one of the most successful competitions in all forms of motorcycle sport. As well

as offering world championship class competition in its own right, superbike racing has been a highly competitive training ground for grand prix riders as well as helping manufacturers, distributors and dealers develop and improve their motorcycles. Superbike racing is to the motorcycle industry what touring car or NASCAR competition is to the car world – race on Sunday, sell on Monday. All the big names were drawn into the sport during its formative years and have been there ever since – Honda, Kawasaki, Suzuki, Yamaha, Ducati and Aprilia have all used superbike racing to test their street bike designs. And some of the biggest riders in the sport – Wayne Gardner, Wayne Rainey, Kevin Schwantz and Eddie Lawson – all started out on big, unruly superbikes, learning how to power slide their way around the world's toughest tracks. It's all in superbike – and it's all in Slow Burn.

The new edition of this popular text gives the counseling student and beginning counselor the skills, interventions and strategies needed to develop a conceptual orientation, plan therapy, and assess its effectiveness. I am the Progeny. The one deemed to carry this weight. The weight of knowing too much. Of knowing there is a darkness in me. Of knowing that even The Fates can screw things up. Aurora Megalos knew becoming the Progeny meant great sacrifice, but what she wasn't prepared for was sacrificing herself. Since the day of her birth, she has been set on a path she couldn't control; a path conceived by The Fates. After discovering she is mortally connected to her arch enemy, Zordon-a son of a Fate, Aurora is left with a path that seems hopeless. Until she discovers a revelation in the prophecy. With war on the horizon, she must find a way to defeat the one who threatens to take everything and everyone she has ever loved from her, without destroying herself. The barrier between both realms is broken, The Fates have been overrun by Zordon, and his darkness now spreads throughout the lands. The odds are stacked against her. Will Aurora and Fenn find a way to undo the work of The Fates in time to save the realms from complete destruction?

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by

misplaced loyalties, technical disasters, and brutal competition.
