This volume, together with its companion on the Eclogues and the previously published volume on the Aeneid, completes the coverage of Vergil's poetry in Oxford Readings in Classical Studies. It collects ten classic papers on the Georgics written between 1970 and 1999 by leading scholars from several different countries. The contributions are representative of recent developments in Vergilian scholarship, with some discussing general issues raised by the work and others treating important individual poems and passages. The editor's Introduction places the essays in their context. A conspectus of contemporary Georgics criticism, the book will be helpful to students who are encountering the poems for the first time - all Latin has been translated - and will also serve as a reference work for more seasoned scholars.

In Book IV of Virgil's "Aeneid", one of the most studied books of that epic poem, Dido, queen of Carthage, is inflamed by love for Aeneas. The goddesses Juno and Venus plot to unite them, and their 'marriage' is consummated in a cave during a hunt. However, Jupiter sends Mercury to remind Aeneas of his duty, and the hero departs despite Dido's passionate pleas. At the end of the book, Dido commits suicide. This classic edition of the Latin text of Book IV replaces the long-serving edition by Gould and Whiteley, making this book more accessible to today's students and taking account of the most recent scholarship and critical approaches to Virgil. It includes a substantial introduction, annotation to explain language and content, and a comprehensive vocabulary.

This well annotated Latin text combines four Aeneid texts previously offered by Bolchazy-Carducci and new content into one user-friendly volume. Containing 2596 lines this text makes

Anderson's text captures both the toughness and the tenderness of the greatest work of Latin literature. Includes examinations of each book of the Aeneid, extensive notes, suggestions for further reading, and a Vergil chronology.

In this important and original new book, Joseph Farrell argues that there is a detailed and extensive program of literary allusion in Vergil's Georgics, moving basically from Hesiod and Aratus in the first book, to Lucretius in the middle two, to Homer in the fourth. This program involves what he calls "analytic" allusion, namely a reconstruction or interpretation of the texts alluded to; and, he contends, the direction of the allusion, moving from Hesiod (and perhaps Alexandrian poetics) toward Homer and heroic epic, helps to clarify the development of Vergil's poetic career, which moves from the Callimacheanism of the Eclogues to the full-fledged epic of the Aeneid. Applying to the Georgics the full range of recent scholarly methodology, Farrell's pathbreaking book will be of great interest to all scholars and students of Vergil, classical literature, and literary allusion.

These books are intended to make Virgil's Latin accessible even to those with a fairly rudimentary knowledge of the language. There is a departure here from the format of the electronic books, with short sections generally being presented on single, or double, pages and endnotes entirely avoided. A limited number of additional footnotes is included, but only what is felt necessary for a basic understanding of the story and the grammar. Some more detailed footnotes have been taken from Conington's edition of the Aeneid.

In the fall of 1373, the city of Florence commissioned Giovanni Boccaccio to give lectures on Dante for the general population. These lectures, undeniably the most learned of all the early commentaries, came to be known as the Expositions on Dante's Divine Comedy. Though interrupted at Inferno XVII, they provide profound, near-contemporary interpretations of Dante's poem and contain, in many ways, some of the most beautiful aspects of Boccaccio's admirable literary production: narrative vignettes worthy of the best pages of the Decameron, insights on the rapidly changing approach to literary commentary, and a heartfelt belief that poetry is the most faithful guardian of history, philosophy, and theology. Michael Papio's excellent translation finally makes the entirety of Boccaccio's often overlooked masterpiece accessible to a wider public and

supplies a wealth of information in the introduction and notes that will prove useful to specialists and general readers alike.

Tracing the path from Troy's destruction to Rome's foundation, the Aeneid explores the transition between past and future. As the Trojans struggle to found a new city and the narrator sings of his audience's often-painful history, memory becomes intertwined with a crucial leitmotif: the challenge of being part of a

group that survives violence and destruction only to face the daunting task of remembering what was lost. This book offers a new reading of the Aeneid that engages with critical work on memory and questions the prevailing view that Aeneas must forget his disastrous history in order to escape from a cycle of loss. Considering crucial scenes such as Aeneas' reconstruction of Celaeno's prophecy and his slaying of Turnus, this book demonstrates that memory in the Aeneid is a reconstructive and dynamic process, one that offers a social and narrative mechanism for integrating a traumatic past with an uncertain future. This title features a collection of 14 papers in which contributors use diverging critical methods on a selection of extracts from Vergil's epic, with the examination of political references in the work being prominent, as well as the question of the Aeneid's central meaning. Contents include: Vergil announcing the Aeneid. On Geo. 3.1-48 (Egil Kraggerud); The Peopling of the Underworld (Anton Powell); Vergil as a Republican (Eckard Lefevre); The Sword-Belt of Pallas: Moral Symbolism and Political Ideology (Stephen Harrison); The Isolation of Turnus (Richard F. Thomas) and The End and the Meaning (David West)

In the book titled Vergil's political commentary in Eclogues, Georgics and Aeneid, the author examines Vergil's political views by analyzing the whole of the poet's work. He introduces the notion of the functional model suggesting that the poet

often used this instrument when making a political statement. New interpretations of a number of the Eclogues and passages of the Georgics and the Aeneid are suggested and the author concludes that Vergil's political engagement is visible in much of his work. During his whole career the poet was consistent in his views on several major political themes. These varied from, the distress caused by the violation of the countryside during and after the expropriations in the 40s B.C., to the horrors of the civil war and the violence of war in general, and the necessity of strong leadership. Vergil hoped and expected that Octavian would establish peace and order, and he supported a form of hereditary kingship for which he considered Octavian a suitable candidate. He held Cleopatra in high regard, and he appreciated a more meaningful role for women in society. Vergil wrote poetry that supported Augustus, but he had also the courage to criticize Octavian and his policies. He was a commentator with an independent mind and was not a member of Augustus' putative propaganda machine.

Why Vergil? is a collection of forty-three exemplary, classic pieces that demonstrate Vergil's genius or illustrate his enduring influence: a veritable feast for Vergilian scholars, students, and humanists.

Between 42 and 39 BC, Vergil composed the first Latin pastoral collection,

entitled Eclogues, and consisting of ten poems in the form in which it has come down to us. Vergil's Eclogues represent the introduction of a new genre, the pastoral, to Latin literature, and recall the Hellenistic poet Theocritus who invented this genre. The fact that the Roman author inserts into the text elements from other Greek and Latin texts modifying them through innovations and changes (constitutes an attractive field of research. This book shows that Vergil's dialogue with the earlier Greek and Latin tradition is not only typical of the way in which Latin literature was written in the 1st century BC; rather, it is also a dynamic literary method used to affect and define the character of each Eclogue.

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Designed as an introduction to classical mythology for middle and high-school students, presents retellings of favorite myths, sidebar summaries, and review exercises with the answers at the back of the book.

Vergil's Aeneid has been considered a classic, if not the classic, of Western literature for two thousand years. In recent decades this famous poem has become the subject of fresh and searching controversy. What is the poem's fundamental meaning? Does it endorse or undermine values of empire and patriarchy? Is its world view comic or tragic? Many studies of the poem have focused primarily on selected books. The approach here is comprehensive. An introduction by editor Christine Perkell discusses the poem's historical background, its reception from antiquity to the present, and its most important themes. The book-by-book readings that follow both explicate the text and offer a variety of interpretations. Concluding topic chapters focus on the Aeneid as foundation story, the influence of Apollonius' Argonautica, the poem's female figures, and English translations of the Aeneid. Written in an accessible style and providing translations of all Latin passages, this volume will be of particular value to teachers and students of humanities courses as well as to specialists.
