An urgent and definitive collection of essays from leaders and experts championing the Green New Deal—and a detailed playbook for how we can win it—including contributions by leading activists and progressive writers like Varshini Prakash, Rhiana Gunn-Wright, Bill McKibben, Rev William Barber II, and more. In October 2018, scientists warned that we have less than 12 years left to transform our economy away from fossil fuels, or face catastrophic climate change. At that moment, there was no plan in the US to decarbonize our economy that fast. Less than two years later, every major Democratic presidential candidate has embraced the vision of the Green New Deal—a rapid, vast transformation of our economy to avert climate catastrophe while securing economic and racial justice for all. What happened? A new generation of leaders confronted the political establishment in Washington DC with a simple message: the climate crisis is here, and the Green New Deal is our last, best hope for a livable future. Now comes the hard part: turning that vision into the law of the land. In *Winning a Green New Deal*, leading youth activists, journalists, and policymakers explain why

we need a transformative agenda to avert climate catastrophe, and how our movement can organize to win. Featuring essays by Varshini Prakash, cofounder of Sunrise Movement; Rhiana Gunn-Wright, Green New Deal policy architect; Joseph Stiglitz, Nobel Prize-winning economist; Bill McKibben, internationally renowned environmentalist; Mary Kay Henry, the President of the Service Employees International Union, and others we'll learn why the climate crisis cannot be solved unless we also confront inequality and racism, how movements can redefine what's politically possible and overcome the opposition of fossil fuel billionaires, and how a Green New Deal will build a just and thriving economy for all of us. For anyone looking to understand the movement for a Green New Deal, and join the fight for a livable future, there is no resource as clear and practical as *Winning the Green New Deal*.

An urgent demand for a 'People's Green New Deal', foregrounding global agricultural transformation and climate justice for the Global South

*Alice in Wonderland* (also known as *Alice's Adventures in Wonderland*), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

Why did so many intelligent people—from venture capitalists to Wall Street elite—fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the

charismatic, hard-partying CEO of a company worth \$47 billion-on paper. With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country's most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart. .

Last month, I was living out of my car. Now, I'm couch-surfing in Brooklyn. It's about as glamorous as it sounds. All I've got are some bad memories, an empty bank account, and a pigeon I named Hendrix. So, when a mysterious, sinfully hot man offers me a deal, I have no choice but to accept. I'll pretend to be his live-in girlfriend for a month. In exchange, he'll give me a job at his exclusive club in Hell's Kitchen. Only problem is, there's way more to Asmodeus than meets the eye. He's a literal demon. Like, from the underworld. He's rude, dangerous, and probably a killer. But if I break my deal with him, I'll lose my soul. Fortunately, it's just a month. A month of heated stares and fake kisses that feel all too real. My soul- and my body-can totally survive this...right?

It's Christmas Even morning. Years ago a man abandoned his son to pursue professional success; now he wonders if it's too late to forge a relationship with him. One week earlier, in a hospital late at night, the man met a five-year-old girl with cancer. When the man is given the chance to do something selfless that could change the destiny of the little girl in the hospital bed, he needs to find out what his own life has actually been worth in the eyes of his son before he makes the deal of a lifetime.

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. *Trump: The Art of the Deal* is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for *Trump: The Art of the Deal* "Trump makes one believe for a moment in the American dream again."—The New York Times "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—Chicago Tribune "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—Boston Herald "A chatty, generous, chutzpa-filled autobiography."—New York Post

Former quarterback Lance Quaid just inherited the most losing team in the NFL. He's got only a few weeks until draft day to turn things around, and after firing more than half his staff, he can't do it alone. Thankfully, his HR manager is more than capable, if only she'd stop focusing on "due diligence" and stop looking so sexy while she's yelling at him. Charlotte James has made a life out of following the rules. But nothing could have prepared her for Lance Quaid—he's a human resources nightmare. The man is brash, has no filter, and, as her new boss, is constantly relying on her to cover his ass. Which is admittedly quite nice. When Lance begs her to join him on a trip down the coast for his brother's wedding so they can finalize details—on a strictly business basis—she agrees...after they fill out the necessary forms, of course. Away from the office, though, sparks start flying as the team starts coming together. But both of them know anything more than the weekend would be a colossally bad idea—after all, the extra paperwork would be a nightmare. Each book in the *Heart in the Game* series is **STANDALONE**: \* *The Wedding Deal* \* *The Mistletoe Trap*

He's this close to finally settling all his debts, and one more job as a boyfriend-for-hire will do the trick. He's no gigolo. Please. He's something of an actor, and he knows how to slip into any role, including pretending to be April's new beau -- the bad boy with the heart of gold. Even if it means sleeping in close quarters in that tiny little bed in her parents' inn. Even if it means spinning tales of a romance that starts to feel all too true. What neither one of them counts on is that amid the egg toss, the arm wrestling, and a fierce game of Lawn Twister that has them tangled up together, they might be feeling the real deal. She only wanted to show her family once and for all that she had no need to settle down. He didn't expect to have the time of his life at her parent's home. They didn't plan on loving every single second of the game. But can a masterful game of pretend result in true love?

Not too long ago, I had to have three major operations including the removal of my gallbladder and a cancerous prostate. All three of these surgeries took place within a few months of each other. During that same time period, our furnace died and had to be replaced; a large tree in our front lawn split and had to be removed; our refrigerator broke down and had to be replaced; a pipe in our house broke and had to be repaired; the transmission went on our Nissan Quest and had to be replaced; and we received notice that our term life insurance policy had expired and would cost several hundred dollars more per month to replace. Did I become discouraged? You bet I did. I even became depressed. It was because of all those troubles that I decided to write this book. I wanted to put in writing all the mistakes I had made as well as the lessons I had learned in the hope of helping others going through similar situations. I wanted to offer readers a better

understanding of why we have troubles and how to deal with them.

A memoir by the comedian and host of "Deal or No Deal" reveals his ongoing struggle with OCD and ADHD and how they have shaped his life and career, cataloging his fears and neuroses and sharing stories about how he has tried to integrate them into his act.

How did we get here? America is divided as rarely before; the substance and spirit of the Age of FDR--"We Do Our Part," the motto of the New Deal's National Recovery Administration--seems irretrievably lost in the cacophony of the Age of Trump. With clarity and wit, the legendary editor Charles Peters explains the chasm that defines us today: the split between the educated elite and the working-class, rural and religious voters who live in what's condescendingly--but tellingly--known as flyover country. The beginning of the end of Trumpism will come when Blue State sophisticates honestly confront their own role in creating the political, economic, and cultural resentments that propelled the 45th president into office. Too many Democrats lost touch with the average American, Peters argues, when the liberal elite became more concerned with being smarter, having better taste, and making more money, than with understanding why workers were earning less, and hated being looked down on. It was this hatred of being looked down on as bigoted boobs in polyester that united the working class, rural, and evangelical voters, and helped set the stage for the culturally populist backlash of 2016 and beyond. If liberal Democrats want to win again, they need to be fair to everyone, including the working man who was once essential to the party of FDR. In *We Do Our Part*, Peters shows us where we have been and where we are going, drawing from his invaluable perspective as a man who has seen America's better days and still believes in the promise that lies ahead.

The economist and historian Deirdre Nansen McCloskey has been best known recently for her Bourgeois Era trilogy, a vigorous defense, unrivaled in scope, of commercially tested betterment. Its massive volumes, *The Bourgeois Virtues*, *Bourgeois Dignity*, and *Bourgeois Equality*, solve Adam Smith's puzzle of the nature and causes of the wealth of nations, and of the moral sentiments of modernity. The world got rich, she argues, not chiefly by material causes but by an idea and a sentiment, a new admiration for the middle class and its egalitarian liberalism. For readers looking for a distillation of McCloskey's magisterial work, *Leave Me Alone and I'll Make You Rich* is what you've been waiting for. In this lively volume, McCloskey and the economist and journalist Carden bring together the trilogy's key ideas and its most provocative arguments. The rise of the west, and now the rest, is the story of the rise of ordinary people to a dignity and liberty inspiring them to have a go. The outcome was an explosion of innovation after 1800, and a rise of real income by an astounding 3,000 percent. The Great Enrichment, well beyond the conventional Industrial Revolution, did not,

McCloskey and Carden show, come from the usual suspects, capital accumulation or class struggle. It came from the idea of economic liberty in Holland and the Anglosphere, then Sweden and Japan, then Italy and Israel and China and India, an idea that bids fair in the next few generations to raise up the wretched of the earth. The original shift to liberalism arose from 1517 to 1789 from theological and political revolutions in northwest Europe, upending ancient hierarchies. McCloskey and Carden contend further that liberalism and “innovism” made us better humans as well as richer ones. Not matter but ideas. Not corruption but improvement. *Leave Me Alone and I'll Make You Rich* draws in entertaining fashion on history, economics, literature, philosophy, and popular culture, from growth theory to the Simpsons. It is the perfect introduction for a broad audience to McCloskey's influential explanation of how we got rich. At a time when confidence in the economic system is under challenge, the book mounts an optimistic and persuasive defense of liberal innovism, and of the modern world it has wrought.

The lawyer and New York Times–bestselling author of *The Case for Israel* discusses the pros and cons of the Iran nuclear agreement. An Iranian nuclear arsenal could make the world more dangerous. That is why decisions regarding Iran's nuclear program are among the most important of our time. Here, Harvard Law Professor Emeritus Alan Dershowitz argues that the negotiations that led to this bad deal were deeply flawed. Evaluating the pros and cons of the Iran nuclear agreement, he asks the fundamental questions about what the deal means, how it will be implemented, and whether we now have the capacity to stop Iran from developing nuclear weapons. As a lawyer with decades of negotiation experience, and a regular commentator on Middle Eastern politics, Dershowitz explains how we could have gotten a better deal, and offers a unique analysis of the Obama administration's negotiations with Iran and the implications of a deal for Israel, the Middle East, and the global community. It is a call for both intelligent reflection and determined action to stop Iran from getting the bomb.

When we enter into a negotiation, we simply don't know everything that we need to know. What this means for us is that we've got to use the negotiation to do some exploring - we've got to get answers to the questions that are unanswered when we start. What You'll Find Inside: GIVING TO GET: HOW A SALES NEGOTIATOR MAKES CONCESSIONS 3 THINGS EVERY SALES NEGOTIATOR NEEDS TO KNOW HIDDEN NEEDS DRIVE SALES NEGOTIATIONS HOW TO WIN A RACE WHEN YOU'RE NOT THE FASTEST RUNNER In order to accomplish this we're going to have to make sure that we have the time that we need to think about what the other side is telling us. When they hit us with a lot of facts and stats to back up their position, we need to take the time to understand where all of these numbers came from. In order to get the deal that we want, we're going to have to give in on some of the issues that are being discussed. What issues we make concessions on and how we go about making those concessions is very important. Done correctly, we'll get closer to the deal that we want. In order to get better at this negotiating thing, we need to understand how to use all of the tools that are available to us. This includes the telephone. Additionally, it sure would be nice if we could get some professional negotiators to share with us how they have become so successful. One of the things that we need to be aware of during a negotiation is that we can't always trust what the other side is telling us. We need to learn to not believe the other side. This also means that we should get some guidance from someone who has done all of this

before. Although it's not a word that a lot of us use very often, haggling is a critical part of any negotiation. We need to learn what it is and how to do it. The more that you talk with the other side, the better your chances of learning what their hidden needs are. A negotiation can take some time to complete. This means that as negotiators we need to learn how to be persistent in order to get what we want. We may not have the best product, the best price, or be the most competitive but we can still walk away with the deal that we want.

All Garrett Graham has ever wanted is to play professional hockey after graduation, but his plummeting GPA is threatening everything he's worked so hard for. Now he just has to convince Hannah that the man she wants looks a lot like him.

What if the real key to a richer and more fulfilling career was not to create and scale a new start-up, but rather, to be able to work for yourself, determine your own hours, and become a (highly profitable) and sustainable company of one? Suppose the better—and smarter—solution is simply to remain small? This book explains how to do just that. *Company of One* is a refreshingly new approach centered on staying small and avoiding growth, for any size business. Not as a freelancer who only gets paid on a per piece basis, and not as an entrepreneurial start-up that wants to scale as soon as possible, but as a small business that is deliberately committed to staying that way. By staying small, one can have freedom to pursue more meaningful pleasures in life, and avoid the headaches that result from dealing with employees, long meetings, or worrying about expansion. *Company of One* introduces this unique business strategy and explains how to make it work for you, including how to generate cash flow on an ongoing basis. Paul Jarvis left the corporate world when he realized that working in a high-pressure, high profile world was not his idea of success. Instead, he now works for himself out of his home on a small, lush island off of Vancouver, and lives a much more rewarding and productive life. He no longer has to contend with an environment that constantly demands more productivity, more output, and more growth. In *Company of One*, Jarvis explains how you can find the right pathway to do the same, including planning how to set up your shop, determining your desired revenues, dealing with unexpected crises, keeping your key clients happy, and of course, doing all of this on your own.

In the twenty-first century, all politics are climate politics. The age of climate gradualism is over, as unprecedented disasters are exacerbated by inequalities of race and class. We need profound, radical change. A Green New Deal can tackle the climate emergency and rampant

inequality at the same time. Cutting carbon emissions while winning immediate gains for the many is the only way to build a movement strong enough to defeat big oil, big business, and the super-rich—starting right now. *A Planet to Win* explores the political potential and concrete first steps of a Green New Deal. It calls for dismantling the fossil fuel industry and building beautiful landscapes of renewable energy, guaranteeing climate-friendly work and no-carbon housing and free public transit. And it shows how a Green New Deal in the United States can strengthen climate justice movements worldwide. We don't make politics under conditions of our own choosing, and no one would choose this crisis. But crises also present opportunities. We stand on the brink of disaster—but also at the cusp of wondrous, transformative change.
