"In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart." -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian This book grew out of a series of letters to my daughter concerning various things—mostly about money and investing—she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. "But Dad," she once said, "I know money is important. I just don't want to spend my life thinking about it." This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run. Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life. Enjoy the read, and the journey!

Part personal development guide, part adventure tale, Tribe of Millionaires teaches readers six timeless lessons about the power of those around us to transform our lives. When Ethan Martinez receives a mysterious invitation after the death of his father, he embarks on an adventure not only to save his struggling business, but to discover his past. Traveling to a tropical island with the mysterious "Tribe of Millionaires," Ethan finds his whole approach to business and life shifting with each lesson. The more time Ethan spends with the enigmatic members of the tribe, the more he comes to realize that the answers he seeks are, as they are for all of us, hidden in plain sight.

"A cheerful manifesto on removing obstacles between yourself and the income of your dreams." —New York Magazine From the #1 New York Times bestselling author of *You Are a Badass*®, a life-changing guide to making the kind of money you've only ever dreamed of. *You Are a Badass at Making Money* will launch you past the fears and stumbling blocks that have kept financial success beyond your reach. Drawing on her own transformation—over just a few years—from a woman living in a converted garage with tumbleweeds blowing through her bank account to a woman who travels the world in style, Jen Sincero channels the inimitable sass and practicality that made *You Are a Badass* an indomitable bestseller. She combines hilarious personal essays with bite-size, aha concepts that unlock earning potential and get real results. Learn to: • Uncover what's holding you back from making money • Give your doubts, fears, and excuses the heave-ho • Relate to money in a new (and lucrative) way • Shake up the cocktail of creation • Tap into your natural ability to grow rich • Shape your reality—stop playing victim to circumstance • Get as wealthy as you wanna be "This book truly crystallizes the concept that financial abundance is an inside job—in that it all begins with your mindset—and Sincero gets serious (in the funniest ways possible) about helping you identify your particular limiting beliefs surrounding money." —PopSugar

An essential reference on the history & meaning of money, its role in the cycle of trade and war, patterns of wealth across generations and how they differ by wealth category. Replace the limited vision of saving only for retirement with a generational wealth building plan. Gain understanding, using family backgrounds of 16 of the world's wealthiest people told in a narrative style with over 120 color illustrations. Examine connections between increases in productivity and the invention of money, corporations, trade and war. Learn: - The seven stage cycle of trade, money & war. - How to know whom you can trust and collaborate with. - How to train and encourage your children. - Why relying on jobs will not work well in the future. - How to get dividends & index fund growth. - How to analyze an early retirement or buyout situation. - Whether monetary unions or sanctions can avoid war? - Whether liberal or conservative policies lead to peace? *Secrets of the Millionaire Mind* reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs,

businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success.

Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Hogan shows that God's way of managing money really works. Millionaire status doesn't require inheriting a bunch of money or having a high-paying job. The path to becoming a millionaire is paved with tools that you either already have or that you can learn. Take personal responsibility; practice intentionality; be goal-oriented, a hard worker; and be consistent. If you adopt this mindset, you, too, can become a millionaire. -- adapted from foreword and introduction

In *Wealth Can't Wait*, David Osborn and Paul Morris share their knowledge, dismantle myths about wealth, and demonstrate how best one can achieve financial liberty. Osborn and Morris's method consists of a five-part strategy of steps to boost wealth. By cultivating the habits, mentality, and business practices to secure the best results, you will be inspired to reach your financial ambitions today.

NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST, NPR, AND KIRKUS REVIEWS A scathing portrait of an urgent new American crisis Over the last two decades, America has been falling deeper and deeper into a statistical mystery: Poverty goes up. Crime goes down. The prison population doubles. Fraud by the rich wipes out 40 percent of the world's wealth. The rich get massively richer. No one goes to jail. In search of a solution, journalist Matt Taibbi discovered the Divide, the seam in American life where our two most troubling trends—growing wealth inequality and mass incarceration—come together, driven by a dramatic shift in American citizenship: Our basic rights are now determined by our wealth or poverty. The Divide is what allows massively destructive fraud by the hyperwealthy to go unpunished, while turning poverty itself into a crime—but it's impossible to see until you look at these two alarming trends side by side. In *The Divide*, Matt Taibbi takes readers on a galvanizing journey through both sides of our new system of justice—the fun-house-mirror worlds of the untouchably wealthy and the criminalized poor. He uncovers the startling looting that preceded the financial collapse; a wild conspiracy of billionaire hedge fund managers to destroy a company through dirty tricks; and the story of a whistleblower who gets in the way of the largest banks in America, only to find herself in the crosshairs. On the other side of the Divide, Taibbi takes us to the front lines of the immigrant dragnet; into the newly punitive welfare system which treats its beneficiaries as thieves; and deep inside the stop-and-frisk world, where standing in front of your own home has become an arrestable offense. As he narrates these incredible stories, he draws out and analyzes their common source: a perverse new standard of justice, based on a radical, disturbing new vision of civil rights. Through astonishing—and enraging—accounts of the high-stakes capers of the wealthy and nightmare stories of regular people caught in the Divide's punishing logic, Taibbi lays bare one of the greatest challenges we face in contemporary American life: surviving a system that devours the lives of the poor, turns a blind eye to the destructive crimes of the wealthy, and implicates us all. Praise for *The Divide* "Ambitious . . . deeply reported, highly compelling . . . impossible to put down."—*The New York Times Book Review* "These are the stories that will keep you up at night. . . . *The Divide* is not just a report from the new America; it is advocacy journalism at its finest."—*Los Angeles Times* "Taibbi is a relentless investigative reporter. He takes readers inside not only investment banks, hedge funds and the blood sport of short-sellers, but into the lives of the needy, minorities, street drifters and illegal immigrants. . . . *The Divide* is an important book. Its documentation is powerful and shocking."—*The Washington Post* "Captivating . . . *The Divide* enshrines its author's position as one of the most important voices in contemporary American journalism."—*The Independent (UK)* "Taibbi [is] perhaps the greatest reporter on Wall Street's crimes in the modern era."—*Salon*

#1 NEW YORK TIMES BESTSELLER • "The clearest and best book out there to get you on the path to riches. This one's special!"—Jim Cramer, host of CNBC's *Mad Money* "Great tools for anyone wanting to dabble in the stock market."—*USA Today* Phil Town is a very wealthy man, but he wasn't always. In fact, he was living on a salary of \$4,000 a year when some well-timed advice launched him down a highway of investing self-education that revealed what the true "rules" are and how to make them work in one's favor. Chief among them, of course, is Rule #1: "Don't lose money." In this updated edition to the #1 national bestseller, you'll learn more of Phil's fresh, think-outside-the-box rules, including: • Don't diversify • Only buy a stock when it's on sale • Think long term—but act short term to maximize your return • And most of all, beat the big investors at their own game by using the tools designed for them! As Phil demonstrates in these pages, giant mutual funds can't help but regress to the mean—and as we've all learned in recent years, that mean could be very disappointing indeed. Fortunately, Rule #1 takes readers step-by-step through a do-it-yourself process, equipping even the biggest investing-phobes with the tools they need to make quantum leaps toward financial security—regardless of where the market is headed.

Educate yourself about finance and socially conscious investing with a woman-centered approach *Activate Your Money* provides the foundational support women need to talk to each other about their money, invest to grow their wealth, and to take the actions required to shift their assets into alignment with their values. Written for smart, savvy women who want to feel financially empowered, *Activate Your Money* starts where other personal finance books leave off. It delivers the depth of information you need to make informed investment decisions across your entire portfolio. Starting with checking and savings accounts and proceeding asset class by asset class, this book provides you with core investment knowledge, as well as concrete examples about how and where you can invest your money in alignment with your values. You don't have to do it alone. As women, our strength is in relationships, and this book will help you use that strength to attain better financial outcomes for yourself and your family. *Activate Your Money* will help you find communities of support and position you to share your knowledge with other women and enable the next generation of smart, confident values-aligned investors. *Activate Your Money* also includes a companion website that contains downloadable tools you can use to take action and a curriculum that guides women through the process

Create the Freedom & Lifestyle You've Always Dreamed About without a Job or Business Let's face it. You want more-more money and freedom, less work, and a higher quality of life. What if there were a simple, proven system to get you off the hamster wheel, create cash flow, and generate real wealth with little risk or complexity? The Lifestyle Investor is your ticket to: End trading time for money so you have more of both Create immediate cash flow while reducing your investment risk Replace your job with passive cash flow streams that multiply your wealth so you can live life on your terms. Join the super-achievers experiencing wealth and freedom today! Entrepreneur Magazine calls Justin Donald the "Warren Buffett of Lifestyle Investing." He's a master of low-risk cash flow investing, specializing in simplifying complex financial strategies, structuring deals, and disciplined investment systems that consistently produce profitable results. His ethos is to "create wealth without creating a job." In the span of 21 months, and before his 40th birthday, Justin's investments drove enough passive income for both he and his wife Jennifer to leave their jobs. Following his simple investment system and 10 Commandments of Lifestyle Investing(c), Justin negotiated deals with over 100 companies, multiplied his net worth to over eight figures, and maintained a family-centric lifestyle in less than two years. Just two years later, he doubled his net worth again. He now consults and advises entrepreneurs and executives on lifestyle investing. Justin hosts the podcast The Lifestyle Investor(R) featuring his lessons and proven investment system that consistently produces repeatable returns.

For decades, a secret army of tax attorneys, accountants and wealth managers has been developing into the shadowy Wealth Defence Industry. These 'agents of inequality' are paid millions to hide trillions for the richest 0.01%. In this book, inequality expert Chuck Collins, who himself inherited a fortune, interviews the leading players and gives a unique insider account of how this industry is doing everything it can to create and entrench hereditary dynasties of wealth and power. He exposes the inner workings of these "agents of inequality", showing how they deploy anonymous shell companies, family offices, offshore accounts, opaque trusts, and sham transactions to ensure the world's richest pay next to no tax. He ends by outlining a robust set of policies that democratic nations can implement to shut down the Wealth Defence Industry for good. This shocking exposé of the insidious machinery of inequality is essential reading for anyone wanting the inside story of our age of plutocratic plunder and stashed cash.

Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In What Money Can't Buy, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his New York Times bestseller Justice, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions we confront in our everyday lives. Now, in What Money Can't Buy, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?

Set yourself up for life as early as possible, and enjoy life on your terms By layering philosophy with practical knowledge, Set for Life gives young professionals the fiscal confidence they need to conquer financial goals early in life. Are you tied to a nine-to-five workweek? Would you like to "retire" from wage-paying work within ten years? Are you in your 20s or 30s and would like to be financially free?the sort of free that ensures you spend the best part of your day and week, and the best years of your life, doing what you want? Building wealth is always possible, even while working full-time, earning a median income, and making up for a negative net worth. Accumulating a lifetime of wealth in a short period of time involves working harder and smarter than the average person, and Scott Trench--investor, entrepreneur, and CEO of BiggerPockets.com--demonstrates how to do just that. Even starting with zero savings, he demonstrates how to work your way to five figures, then to six figures, and finally to the ultimate goal of financial freedom. Wealth isn't just about a nest egg, setting aside money for a "rainy day" or accumulating an emergency fund. True wealth is about building out a Financial Runway?creating enough readily accessible wealth that you can survive without work for a year. Then five years. Then for life. Readers will learn how to: Save more income--50+ percent of it, while still having fun Double or triple your income in three to five years Track your financial progress in order to achieve the greatest results Build frugal and efficient habits to make the most of your lifestyle Secure "real" assets and avoid "false" ones that destroy wealth

The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team.

Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

From New York Times business reporter Nelson D. Schwartz comes a bold and urgent investigation of division between the wealthy and the middle class n every arena of American life. In nearly every realm of daily life--from health care to education, highways to home security--there is an invisible velvet rope that divides how Americans live. On one side of the rope, for a price, red tape is cut, lines are jumped, appointments are secured, and doors are opened. On the other side, middle- and working-class Americans fight to find an empty seat on the plane, a place in line with their kids at the amusement park, a college acceptance, or a hospital bed. We are all aware of the gap between the rich and everyone

else, but when we weren't looking, business innovators stepped in to exploit it, shifting services away from the masses and finding new ways to profit by serving the privileged. And as decision-makers and corporate leaders increasingly live on the friction-free side of the velvet rope, they are less inclined to change--or even notice--the obstacles everyone else must contend with. Schwartz's "must read" book takes us on a behind-the-scenes tour of this new reality and shows the toll the velvet rope divide takes on society.

"Money & The Power" presents a gripping street tale of love, murder, steamy sex, drugs, crime and betrayal. This novel will have you in awe. In the deadly streets of Milwaukee, WI loyalty is a rarity.

What does it take to say "F-it!" and really mean it? To walk away from the circumstances that have you stuck in neutral, or worse, headed in the wrong direction? To reroute your life along a smoother path toward success? To live an "F"-It-Less life? Have you ever just thrown your hands in the air and said "F"-It!? Been tempted to give in to someone or something you've been resisting? Or worse, found yourself backed into changes, circumstances, or even a life you didn't ask for? If so, you are not alone. But thankfully, there is now a powerful way to never have to say "F-It!" again. It begins with reframing the 'f' word . . . and ultimately leads to reframing your life. It's a method designed to help you choose the life you want to live, rather than blindly accepting the one you've got. Shaun Rawls, popular motivational speaker and founder of Atlanta's #1 real estate firm, devised this method during one of the most trying, yet triumphant periods of his life. In "F"-It Less he offers a whole new lexicon of F-words more powerful than the one we all already know. By employing each thoughtfully and practically in your life you can begin to craft the existence you've always dreamed of. During his own transformation, words such as 'fragmented', 'frustrated', 'fractured', and 'failed' helped him identify where he was in the moment and to earnestly assess where he'd gone wrong in the past. In time he enjoyed days that were 'fine' or even 'fantastic'. Prioritizing words such as 'float,' 'family,' 'faith,' 'fun,' and 'freedom,' reminded him of his destination, while words such as "find," "forgive," "forget," "fix," and "foxhole" helped him to get there faster. What he discovered is that these F-words can draw us back into alignment with our purpose and goals, enabling us to live a more intentional and rewarding life—the life of our dreams. In this infinitely empowering book, Rawls shares both his story and his method with you, boldly encouraging you to use these words to examine your own life too—to see if it is one you consciously crafted or one you simply allowed to unfold. To decide whether you're living how you really want to live or if there is still much more work to be done. He challenges you to truly listen to your heart and gut, and to honestly acknowledge the areas of our life where you've compromised love and happiness for money, safety, security, or worse, fear. He coaxes you not to let our best life pass you by, but rather to proactively attain the life you really want. By sharing some of his greatest lessons, Rawls aims to help you avoid some of the same obstacles he's encountered and to live what he refers to as an "F-it-less" life—the life we're all entitled to discover, explore, and fulfill for ourselves. Saying, "F-It!" doesn't always have to mean you are giving in or giving up. With the right tools, it can actually mean you are ready to pursue a better life— one of greater ease, meaning, and purpose. A truly F-It-Less life.

With the help of industrialist Andrew Carnegie, the author of this remarkable book spent two decades interviewing hundreds of people renowned for their wealth and achievement. Napoleon Hill's all-time bestseller in the personal success field offers priceless advice on positive thinking and overcoming adversity by distilling the collective wisdom of Henry Ford, Thomas Edison, John D. Rockefeller, and other successful figures from the worlds of finance, industry, and the arts. Growing rich, Hill explains, is about far more than just making money. "Whatever the mind can conceive and believe," he asserts, "it can achieve with positive mental attitude." Hill outlines 13 principles of success involving goal setting, developing entrepreneurial thinking, and exercising effective leadership. A must for any reader of *The Secret*, this guide will transform the way you think about time, money, and relationships, setting your feet on the path to financial freedom.

IT DOESN'T MATTER HOW MUCH YOU EARN OR HOW MUCH MONEY YOU HAVE—THERE IS A SIMPLE WAY FOR YOU TO GIVE YOUR KIDS \$1 MILLION EACH—AND IT WON'T COST YOU A CENT! Based on the original bestseller and now fully updated, this simple plan is building wealth for thousands of families all over Australia. Follow this step-by-step guide to help you and your kids generate wealth and financial security. *How to Give Your Kids \$1 Million Each!* Is a simple plan that just about anyone can follow. But you can give your children something even more valuable than \$1 million—you can also provide them with the knowledge and skills to be able to manage their money and make it grow. Packed with useful tips, *How to Give Your Kids \$1 Million Each!* doesn't involve any tricks, complex products, get-rich quick schemes or trading systems; just simple, actionable steps for you and your family. Using low-cost, tax-effective share and property investments—that you control—let compounding work its magic. And you only need to spend one hour per month on the plan. You can start the plan with as little as \$1 per day and give your children a financial head start in life. So what are you waiting for—the earlier you start, the better!

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Laws change, principles dont. Unlock the secrets that the wealthy have known for centuries. When youve finished this book, youll know how to make money, how to invest it wisely, and how to avoid the traps.

Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to

really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Asserts that 250 years ago, some parts of the world began to experience sustained progress, opening up gaps and setting the stage for today's hugely unequal world and examines the United States, a nation that has prospered but is today experiencing slower growth and increasing inequality.

"A startling new philosophy and practical guide to getting the most out of your money—and out of life—for those who value memorable experiences as much as their earnings"--

In *Seven Years to Seven Figures*, self-made millionaire and renowned wealth coach Michael Masterson reveals the steps you can take to accumulate seven-figure wealth within seven years—or less. *Seven Years to Seven Figures* will give you the tools to increase your income, get the highest possible returns on investments, save wisely—and secure your financial future faster than you may have ever dreamed.

Stack the odds in your favor and start building your wealth today! *New York Times*, *Wall Street Journal*, and *USA Today* Bestseller When was the last time you checked under the hood of your financial plan for life? From this very first question, author Kenneth W. Rudzinski draws you into an action-oriented examination of your complete financial plan, including retirement, investment, estate, asset protection, risk management, and more. *The Physician's Guide to Avoiding Financial Blunders* expands on Kenneth W. Rudzinski's popular financial and practice management column featured in world-renowned newspapers on ophthalmology, orthopedics, optometry, cardiology and infectious disease. Author Kenneth W. Rudzinski brings his thirty-five years of business and practice management experience directly to you in *The Physician's Guide to Avoiding Financial Blunders*. This is a dynamic book that provides practicing physicians at various stages of their careers and with varying personal financial means with the tips and tools to avoid the financial disasters that await most people who fail to check the details of their financial plan for life.

Organized in a comprehensive and user-friendly format, physicians will embrace and appreciate the information being presented chapter by chapter in an effective point-by-point action plan that will advise “what to do vs what not do” in their personal and professional planning. Some topics covered include: • Investing - common sense lessons on how to avoid the “big mistake” in investing • Retirement – your “timeline” to prepare for the longest “vacation” of your life? • Risk management – avoid the income disaster headed your way? • Asset protection – learn how to defeat predators and creditors before they defeat you • Estate planning – your estate documents may already be extinct • Financial planning – 10 common mistakes—which ones are you making? Appealing to a wide audience, young and old, with a conversational tone and with dozens of humorous anecdotes, all physicians will benefit from reading and applying the tips and advice presented inside *The Physician's Guide to Avoiding Financial Blunders*. You cannot read this book without finding something in your financial plan for life that needs immediate fixing. The impact is immediate. Be prepared to be challenged to action.

"With *How to Make Your Money Last*, you will learn how to turn your retirement savings into a steady paycheck that will last for life. Today, people worry that they're going to run out of money in their older age. That won't happen if you use a few tricks for squeezing higher payments from your assets--from your Social Security account (find the hidden values there), pension (monthly income or lump sum?), home equity (sell and invest the proceeds or take a reverse mortgage?), savings (should you buy a lifetime annuity?), and retirement accounts (how to invest and--critically--how much to withdraw from your savings each year?). The right moves will not only raise the amount you have to spend, they'll stretch out your money over many more years. You will also learn to look at your savings and investments in a new way. If you stick with super-safe choices the money might not last. You need safe money to help pay the bills in your early retirement years. But to ensure that you'll still have spending money 10 and 20 years from now, you have to invest for growth, today. Quinn shows you how. At a time when people are living longer, yet retiring with a smaller pot of savings than they'd hoped for, this book will become the essential guide"--

Following in the footsteps of *New York Times* bestseller *The Tapping Solution* by Nick Ortner, this book from renowned Tapping expert Margaret Lynch teaches us how to use Tapping (Emotional Freedom Techniques) to clear the blocks to achieving greater wealth. Emotional Freedom Techniques (EFT), also known as Tapping, have become a popular tool for realizing personal goals. For many of us, increasing our wealth is one of our greatest ambitions, but also an area where we feel the most stuck because we have limiting fears and beliefs that sabotage our success. EFT uses the fingertips to tap on acupuncture points while emotionally tuning in to negative attitudes and past experiences, thereby clearing the inner blocks to attracting and managing wealth. *Tapping Into Wealth* includes QR codes that link to video demonstrations of Tapping techniques. Discover how Tapping can help you release your old views of money and open the door to more wealth than you ever imagined.

Are you tired of being bombarded by people promoting get-rich-quick schemes? This book cuts through the nonsense, distilling 20 years of the author's experience down to what you really need to know. It shatters misconceptions and gives you a step-by-step plan to achieve financial independence.

Felix Dennis is an expert at proving people wrong. Starting as a college dropout with no family money, he created a publishing empire, founded *Maxim* magazine, made himself one of the richest people in the UK, and had a blast in the process. *How to Get Rich* is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. He merely wants to help people embrace entrepreneurship, and to share lessons he learned the hard way. He reveals, for example, why a regular paycheck is like crack cocaine; why great ideas are vastly overrated; and why "ownership isn't the important thing, it's the only thing."

Adopt the investment strategy that turned a school teacher into a millionaire *Millionaire Teacher* shows you how to achieve financial independence through smart investing — without being a financial wizard. Author Andrew Hallam was a high school English teacher. He became a debt-free millionaire by following a few simple rules. In this book, he teaches you the financial fundamentals you need to follow in his tracks. You can spend just an hour per year on your investments, never think about the stock market's direction — and still beat most professional investors. It's not about get-rich-quick schemes or trendy investment products peddled by an ever-widening, self-serving industry; it's about your money and your future. This new second edition features updated discussion on passive investing, studies on dollar cost averaging versus lump sum investing, and a detailed segment on RoboAdvisors for Americans, Canadians, Australians, Singaporeans and British investors. Financial literacy is rarely taught in schools. Were you shortchanged by your education system? This book is your solution, teaching you the ABCs of finance to help you build wealth. Gain the financial literacy to make smart investment decisions Learn why

Before the 99% occupied Wall Street... Before the concept of social justice had impinged on the social conscience... Before the social safety net had even been conceived... By the turn of the 20th Century, the era of the robber barons, Andrew Carnegie (1835-1919) had already accumulated a staggeringly large fortune; he was one of the wealthiest people on the globe. He guaranteed his position as one of the wealthiest men ever when he sold his steel business to create the United States Steel Corporation. Following that sale, he spent his last 18 years, he gave away nearly 90% of his fortune to charities, foundations, and universities. His charitable efforts actually started far earlier. At the age of 33, he wrote a memo to himself, noting ..".The amassing of wealth is one of the worse species of idolatry. No idol more debasing than the worship of money." In 1881, he gave a library to his hometown of Dunfermline, Scotland. In 1889, he spelled out his belief that the rich should use their wealth to help enrich society, in an article called "The Gospel of Wealth" this book. Carnegie writes that the best way of dealing with wealth inequality is for the wealthy to redistribute their surplus means in a responsible and thoughtful manner, arguing that surplus wealth produces the greatest net benefit to society when it is administered carefully by the wealthy. He also argues against extravagance, irresponsible spending, or self-indulgence, instead promoting the administration of capital during one's lifetime toward the cause of reducing the stratification between the rich and poor. Though written more than a century ago, Carnegie's words still ring true today, urging a better, more equitable world through greater social consciousness.

Everyone wants to be rich, but do you know that there is a SCIENCE OF GETTING RICH. This book explains in simple steps how you can first ready yourself to earn more, without hassles or worries. From the simplest question of who all can actually get rich, to the small steps taken – like developing a will power, showing gratitude, getting into the right business – have been explained in detail, in everyday terms. Read on, and find out the secret behind changing your life and the way you earn.
